HAVE DARK HAIR AND LOOK YOUNG

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wynth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wynth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application of color and luster, soft and two, it is restored to its natural beautiful—Adv.

OREGON SCHOOL LAW WITH COURT

(Continued from page 1)

the issue should ignore the investments of private schools holding that any loss which might result from the exercise of a pro-governmental function by the state did not constitute an unlawful taking of property.

Rights Violated
Counsel for the appellees on the other hand, based their argument on the contention that the new school law violated the neutral rights of liberty and property secured by the Constitution; that it amounted to a denial of the rights of those following the useful occupation of conducting a school, violated parental control over children and exceeded the police power of the state.

Purpose Outlined
The real purpose of the law was described by the attorney for the private schools as one to completely destroy private primary schools in the state. Insisting that should this be permitted, secondary schools, colleges and universities could also be brought under state control, counsel for the schools contended this would mean that only those subjects could be taught and those theories and doctrines expounded which the state approved.

The Seventh Day Adventists and domestic and foreign missionary society of the Protestant Episcopal church as friends of the court filed briefs attacking the school law.

With a number of nominations waiting, the executive session confirmed the nomination of a single postmaster and kept the way open for further sessions by leaving on its calendar the nominations of two assistant attorneys general and other recent appointees.
