To Make Rich Red Blood

Revitalize your worn-out exhausted nerves and increase your strength and endurance

Take Organic Iron; not metallic iron which people usually take, but pure organic iron—Nuxated Iron—which is like the iron in your blood and like the iron in spinach, lentils and apples. One dose of Nuxated Iron is estimated to be approximately equivalent in iron content to eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It is like taking extract of beef instead of eating sounds of meat. Nuxated Iron is partially digested and ready for almost immediate absorption and assimilation by the blood, while metallic iron just as it comes from the action of strong acids on small pieces of iron filings.

Millions of people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach. A few doses will often commence to enrich your blood. Your money will be refunded by the manufacturer if you do not obtain satisfactory results.

Beware of substitutes. Always insist on having genuine organic iron—Nuxated Iron. Look for the letters N. I. on every tablet. Sold by all druggists.
