

TORNADO TAKES TERRIBLE TOLL

(Continued From Page One)

Other reports here and in Carbondale strengthened early reports that casualties in the stricken area were great.

At Murphysboro the storm was not more than five minutes in passing. The tornado smashed business buildings and dwellings in a twinkling and in the wake of the devastating wind came a fire which completed the destruction. It is estimated that at least one fourth—possibly more—of the residential section is in ruins and the business district presents a similar scene of wreckage.

R. R. Shops Destroyed

The Mobile & Ohio railroad shops were destroyed. Approximately 35 persons were killed and 200 injured when the building collapsed. The Logan and Longfellow schools were blown to pieces. Eighty-five pupils of the Logan school were reported killed, six were removed dead at the Longfellow school and six at a township school.

Martial Law Is in Effect

The storm came without warning. An hour before the tornado hit a bright sun was shining.

WEST FRANKFORT, Ill., March 19.—One hundred and two bodies have been extricated from the ruins of the buildings wrecked in yesterday's tornado.

More than 200 seriously injured were taken to hospitals.

Two hundred and fifty buildings in the north and west sections were leveled. An early estimate by Sheriff Dorris placed the property loss at more than \$2,000,000.

Dawn today presented a picture of desolation that rivaled the war-stricken portions of France. As far as the eye could see, the landscape was a huge irregular mass of twisted debris.

It was extremely difficult at first to determine accurately details of the picture.

Probe For Bodies

From the field north of the Orient mine, one of the town's chief sources of livelihood, the dark outlines of rescue workers probing the debris for bodies were visible. Here and there could be heard the pitiful cries of the injured still pinned beneath the wreckage. Some of these were extricated just before breathing their last, while others died as they were hastened to emergency hospitals or other homes.

One of the most pitiful sights was that of a mother lying terribly mangled while an infant crying lustily, crawled about her inert form.

At another home the body of a woman was found on the porch, a deep gash in the head. She apparently met her fate while endeavoring to flee from the storm.

Family Wiped Out

A miner still in his pit clothes and carrying the limp form of a five year old child walked dejectedly in the path of rescue workers to a pile of wreckage that until yesterday constituted his home. In the debris were found his wife and another son, both terribly injured. The morgue was filled to overflowing with bodies. On one side of the structure were the bodies of eighteen babies.

Practically every delivery truck in the city was converted into ambulances. Business houses were closed.

Two national guard companies are in charge of the situation. The town, however, has not been placed under martial law.

LOUISVILLE, Ky., March 19.—Eight dead near Glasgow, three near Louisville, two at Springfield and one at Lexington, was the storm's toll in Kentucky last night, according to reports here today. An unestimated number were injured and property damage was expected to reach thousands of dollars.

MURPHYSBORO, Ill., March 19.—One hundred and fifty two bodies have been recovered, from 100 to 150 more are believed to have been killed, while 250 persons are in emergency hospitals suffering from serious injuries, according to a provisional compilation made today.

RED CROSS HURRY

WASHINGTON, March 19.—The American Red Cross relief facilities were put into operation in force today in efforts to relieve the sufferers from the storm which wrought havoc in the middle west yesterday. Reports reaching headquarters here from field workers showed doctors and nurses proceeding to the scenes of the worst havoc from many points.

With the cooperation of the Missouri Pacific Railway special trains are carrying tents and relief workers from St. Louis to Gorham, Ill., and Annapolis, Missouri.

A group of relief workers, doctors and nurses in charge of Henry

M. Baker, national director of disaster relief of the Red Cross, was sent to Murphysboro, Illinois. Another group of workers is proceeding from Washington to Princeton, Indiana, and F. E. Burleson, with nurses and medical supplies is on his way to West Frankfort, Franklin county, by special train.

EVANSVILLE, Ind., March 19.—Three Indiana towns, Princeton, Owensville and Griffin today were engaged in the work of digging their dead and injured from the wreckage of homes, stores and office buildings leveled by the tornado.

Upwards of 200 persons were reported killed and hundreds injured.

At Princeton twenty were reported killed and sixty injured.

At Griffin six were reported dead and many injured while at Owensville the casualty will run nearly as high.

Public libraries, social halls and stores were transposed into temporary morgues and hospitals.

Failure of the electric light plants in the stricken cities and fires which destroyed nearly every building in the stricken portions worked additional hardships upon the rescue workers.

NASHVILLE, Tenn., March 19.—The rural sections were the only sufferers in the state from the tornado that swept this part of the country late yesterday. The death toll compiled early today totaled 23, with scores injured and a loss that could not be estimated.

The storm centered in Sumner county, between the Anglo and Whit ham communities and all the small cities were afflicted to that area. Of the 23 killed, two families contributed 13 to the toll. It will be late today before either the death or property loss can be accurately estimated.

ANNAPOLIS, Mo., March 19.—With two men killed, a woman injured who is not expected to live and 75 others more or less seriously injured Annapolis today had completed checking up on the havoc wrought late yesterday by the tornado that swept southern Missouri. Property damage will run to about half a million dollars.

Of the seven buildings that withstood the assault of the twister, one was a school house with more than 300 children within its walls. It was unharmed.

EVANSVILLE, Ill., March 19.—Griffin, Indiana, a town of 750 people, was almost completely obliterated in last night's tornado. Only four badly damaged houses remained standing. Forty dead bodies were found in the streets. The exact number of dead is not known since no search of the ruins has been made.

GALLATIN, Tenn., March 19.—Thirty dead and thirty or forty injured was the estimated toll today of the tornado which sides wiped the northern section of this Sumner county late yesterday.

WOOL GROWERS TO MEET ON FRIDAY

Wool growers and sheep men of Klamath county are called to meet in the county agent's office in the county court house Friday afternoon at two p. m. to meet with C. J. Hard, H. L. Lidgren and Mr. Herrin to discuss subjects of vital interest to those interested in sheep production.

Hurd and Herrin are connected with the Pacific Cooperative Wool Growers association and Lidgren is livestock field man for Oregon Agricultural college. The latter will speak exclusively on heavier wool production. There will be similar meetings in Malin and Merrill, Malin sheep men scheduled to meet on Saturday, March 21, and in Merrill on Monday, March 23.

TRANSIENT LOGGER DEAD OF PNEUMONIA

Alfred Rivers, lumberjack at Lamm's camp, died in the Klamath General hospital at 1 p. m. today from pneumonic complications. Disposition of the remains are pending the answer received from his brother, John Rivers, and relatives of Herkimer, N. Y. If they do not wish the body returned to the east brother workers in Klamath Falls will be in charge of the burial.

Rivers, who was a man of more than 40 years of age, was a transient worker, formerly working in Spokane and La Grande, Oregon, camps. He has lived in the west practically all of his life, coming to Klamath Falls little more than a year ago. Feeling indisposed, Rivers left the Lamm camp at Kirk and came to the city and in preparing to go to the hospital, but for more than an hour in the swimming tank, where he suffered a set-back. He died two days later. The remains are at Whitlock's mortuary.

FRANCE TO STOP REFUGEE INFLEX

Tourists Welcomed in Paris According to Minister of Interior

PARIS, March 19.—The French government has no desire to hinder or check the arrival of foreign tourists, Camille Chautemps, minister of the interior, has explained in a letter to the president of the Nice Chamber of Commerce, who had expressed fear that certain regulations in course of preparation would affect the tourist trade unfavorably. Vexatious formalities for visiting foreigners will be avoided by a temporary document, he says, obtainable from hotel keepers, which will take the place of the identity card.

M. Chautemps feels, however, that owing to the fact that the foreign population of France has recently been composed of refugees from various European countries, a closer check should be kept on immigration. Some of these refugees have willingly accepted the burden which accompany residence in France in the matter of formalities and taxation. Others, on the contrary, have shown no desire to comply with the regulations, they do not register their addresses, obtain identity cards or pay taxes.

Failure to produce receipts for income and other taxes will be followed by a refusal of the authorities to issue or renew the foreigners' identity card.

HIKES PLANNED BY BOY SCOUTS

Klamath Falls Troop to Be Granted Charter in Near Future

Hikes to Squaw Peak and Rock Fort were planned by the Crater Lake Council of Troop No. 1 of Klamath Falls Boy Scouts when they met last night in the Episcopal church for discussion of active plans for spring work. The hikes are planned for Sunday, taking the entire day for the work.

Robert Morrison was elected patrol leader of the Silver Fox patrol with Joseph Kirk named assistant. The Eagle patrol selected Donald Veitch as patrol leader with Gilbert Fleet as assistant. During a meeting which is called for Monday night, March 23, in the Episcopal church, patrol leader and assistants for a third patrol will be named. Meetings of the troop will be held in the church at 7:30 p. m. until the building is torn down as planned for the near future. Klamath Falls will soon have a charter as the petition has been sent to headquarters some time ago and should be granted in the very near future.

PALM BEACH FIRE LOSS PLACED AT SEVEN MILLIONS

PALM BEACH, Fla., March 19.—Estimates of the loss here last night when the Brenkers hotel and the Palm Beach hotel were destroyed by fire with damage to other property, was placed at \$7,

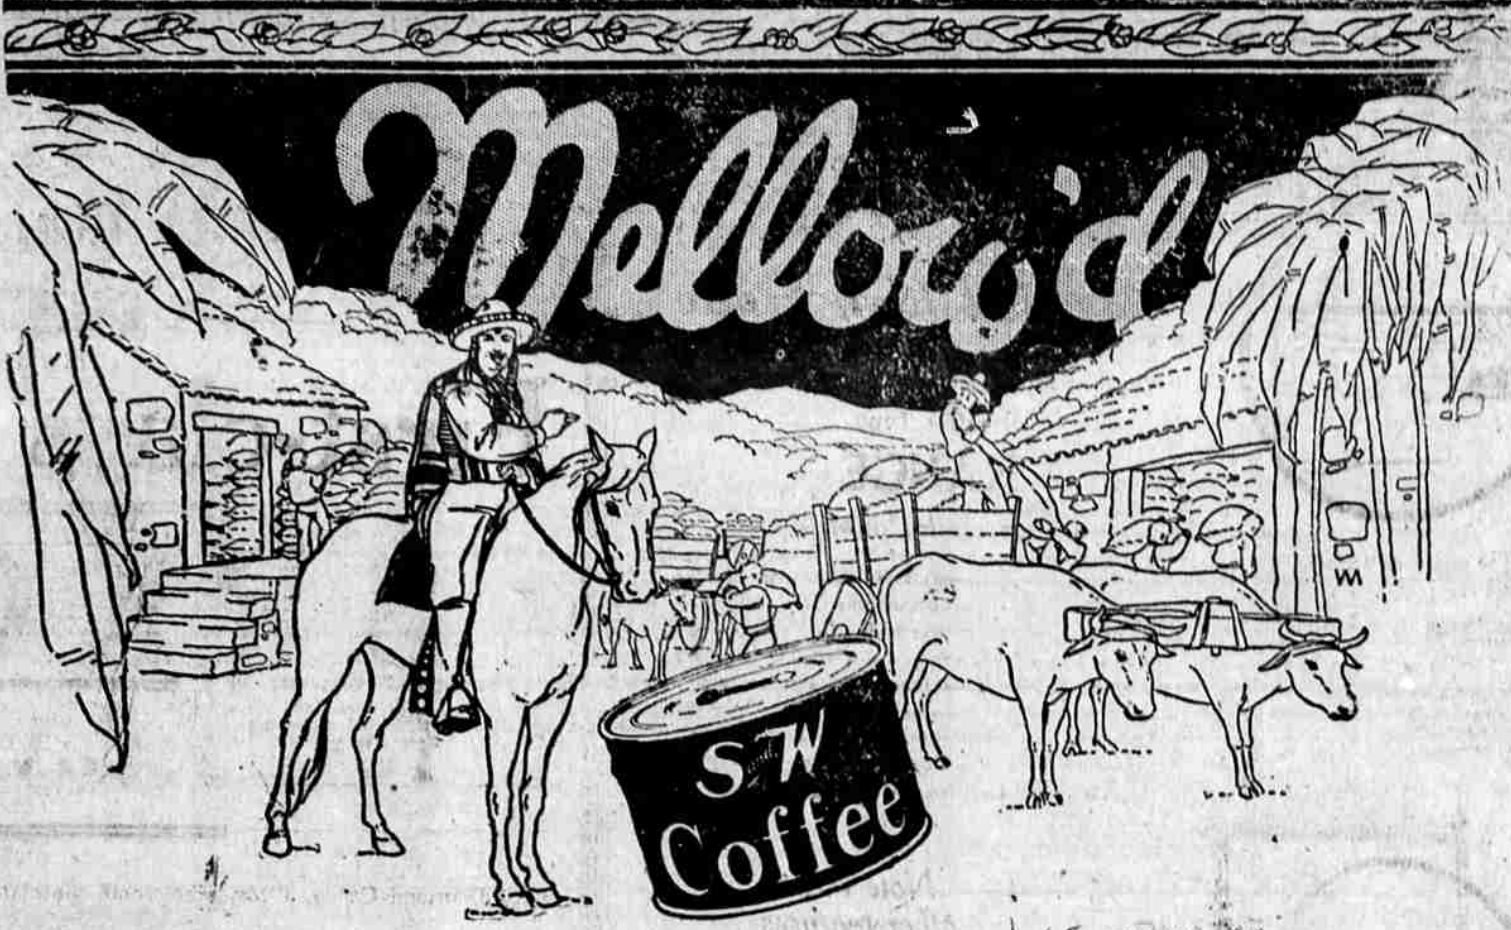

000,000 today by Fire Chief Schultz of the Palm Beach department. Previously the loss had been estimated at \$4,000,000.

Stop Night Coughing This Simple Way

People who have persistent, annoying coughing spells at night, and who through loss of valuable sleep are weakening their systems and laying themselves open to dangerous infections, can stop their distressing trouble promptly by a very simple treatment. Hundreds who have hardly been able to rest at all for coughing, have gotten their full night's sleep the very first time they tried it. The treatment is based on a remarkable prescription known as Dr. King's New Discovery for Coughs. You simply take a teaspoonful at night before retiring and hold it in your throat for 15 or 20 seconds before swallowing it, without following with water. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. The result is that you usually sleep as soundly as a babe the very first night, and the entire cough condition goes in a very short time. The prescription is highly recommended for coughs, chest colds, hoarseness and bronchitis, and is especially good for children's coughs and spasmodic croup—no harmful drugs. Economical, too, as the dose is only one teaspoonful. It is on sale at all good druggists. Ask for

Feed and Seed Oats For Sale Good quality KLABZUBA BROS. Malin, Ore.

It is indeed true, Senora—the real goodness in fine coffee develops only when the coffee remains here in our tropic storehouses, two years, three years.

Our mountain plantations, 3000, 5000 feet altitudes, grow the best coffees. But the rare flavor and the full richness hiding so deep in the coffee bean, never come to the breakfast cup except the coffee is mellowed in our tropics—before it is roasted.

All of it so mellowed? Alas, no, Senora—only a little remains, so popular the coffee drink. But the small quantity we manage to keep, Senora—ah! that is real coffee—a prize for the roaster who also is the artist! Very discreetly he adds to his prize just a dash of the new coffee to liven, ever so little, the rare old flavor.

You say so?—the S & W comes from the mountain plantations, and from the rare mellowed coffees we prize so highly? Then Pacific Coast people are fortunate to have such a delightful beverage!

Those who appreciate the exceptional goodness of S & W fine food products—S & W Baby Kernel Corn or Telephone Peas, for example—will recognize at once the exceptional quality of S & W coffee—the result of untiring effort to make it the best the world offers. Rare old coffees, skillfully blended and roasted. Vacuum packed—in the new key-can.

The next can of coffee will be S & W? Good! There's a treat in store for you.

S and W FINE FOOD PRODUCTS

SPORTSMEN MEETING CALLED FOR FRIDAY

Through the interest of those interested in sport a special meeting of the Klamath County Sportsmen's association has been called for Friday night in the chamber of commerce rooms for the purpose of confer with Ryckman on these subjects.

Salem. Ryckman is known throughout the state as state superintendent of fish hatcheries. He will explain and answer all questions pertaining to fish propagation, screens, fish ladders and other questions of fish culture in Klamath county. A large attendance is anticipated to confer with Ryckman on these subjects.
