# PNEUMONIA USUALLY STARTS FROM COLD

Physicians warn against neglecting coughs and colds and tell of the serious lung complications that may result. Leading physicians now prescribe BALSAMEA for all bronchial affections. BALSAMEA is a pure vegetable preparation made from a newly discovered plant. Dr. Benj. F. Crabtree, Anderson, Mo., writes: "I use it exclusively for my practice and my family. It is quick, sure and safe in its action like nothing else." Toward the end of the influenza epidemic a government physician noticed that a tribe of Indians in Nevada, by the use of oils from a native plant were immune from the ravages of influenza. He used these oils among his white patients and then in a hospital overflowing with "death" cases. Some of the results were: 1. It soothes the inflamed membranes and relieves irritation. 2. It increases secretion of mucous and permits easy expectoration. 3. It stimulates pores of the skin in throwing off body poisons and strikes at the cause, checking germ action immediately. Do not confuse it with ordinary balsam cough strips that are only soothing syrups and do not go to the base of the trouble. Unlike other cough remedies BALSAMEA is free from coal tar and other harmful narcotics. Pleasant to take and absolutely safe to give to children. Be sure you get BALSAMEA with the picture of the Indian on the package. Guaranteed to relieve any cough, no matter how what cause, without money back. All drug stores sell BALSAMEA.

In Klamath Falls buy it from Star Drug Co.

### SEES STRIBBLING FIGHT

H. E. Calkins Returns From San Francisco After Week's Absence

H. E. Calkins, local auto tire man, returned to Klamath Falls last night from Sacramento and San Francisco where he has been spending the past week. Mr. Calkins was one of the 20,000 fight fans who witnessed "Young Stribbling" of Georgia, opponent Tommy Loughran in a boat in San Francisco. While the boat was not as vicious as many would have liked, still the lightning foot work and flashy boxing was worth the price of admission. Mr. Calkins said, Mr. Calkins spent part of his time visiting baseball training camps and witnessed a torrid practice game between the San Francisco Seals and the Pittsburgh nine. The game served to show beyond a question of a doubt the wide gulf between the coast teams and the big league time. When San Francisco would make a few runs, then the Pittsburgh flashes would mobilize and by means of a sudden battery would forge into the lead. Then they would relax into indifference, like a sleeping giant until the struggling Seals would again threaten their lead.
