DRINK WATER IF BACK OR KIDNEYS HURT

Too much rich food forms acids which excite and overwork the kidneys in their efforts to filter it from the system. Flush the kidneys occasionally to relieve them like you relieve the bowels, removing acids, waste and poison, also you may feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, the stomach aches, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, the channels often get irritated, obliging one to get up two or three times during the night. To help neutralize these irritating acids and flush off the body's urinous waste, begin drinking water. Also get about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive and makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help prevent serious kidney and bladder disorders. By all means, drink lots of good water every day. Have your physician examine your kidneys at least twice a year.—Adv.

Dodge Dealer Turns Down Order for 1000 Cars

"Here is an order, duly signed by the proper executives, for 1000 of your cars." What salesman wouldn't gulp—and grab. Retail orders for motor cars in lots of 1000 come to the average salesman about as often as ice peddlers visit the Eskimos. There are only a few in history.

Yet the incident referred to, about the signed order for 1000 cars, actually happened. And what makes it remarkable is the fact that the salesman turned it down! C. H. Jennings, Dodge Brothers Dealer in New York City, throws some clarifying light on this puzzle. He says:

"This Dodge Brother salesman had been working for several years on a large national account, a company that operates cars by the thousands, in every part of the country. The company was buying Dodge Brothers cars regularly, ten, fifteen and twenty more at a time. On several occasions the chief buyer had made the remark that, 'If you fellows would only grant a discount, as others do, we might order in larger lots.'"

"The salesman, of course, pointed out the desirability of buying the 1000 cars anyhow, regardless of Dodge Brothers' no discount policy, but the executive declined to precede from his position. The latter then prepared what he afterwards referred to as his psychological coup. He knew that the salesman would be calling again so he had imposed document drawn up calling for the order, at a specified date, of 1000 Dodge Brothers Motor Cars of various types, at full list price, minus 10 per cent.

"When the salesman called, a few weeks later, the official simply handed him the order. 'That's serious,' said the official. 'We need cars, and we want Dodge Brothers cars, but you can't have the order unless you abide by its terms. You've got to give us the quantity discount.'"

"What happened to the order for 1000 cars? It is still in the desk of the same official and he never fails to show it to any Dodge Brothers salesman who happens to call. But he is still buying Dodge Brothers cars—buying as he bought before.

OUT OF THE AIR

The 1924 Hoover Cup, the highest honor in amateur radio, has been awarded to GAWT, Bartholomew Molinari of San Francisco. This cup is annually awarded on the basis of a special report of a committee of the American Radio Relay League, as to the best all around amateur station, home designed and home constructed.

GAWT, has been unusually successful in working with foreign countries and operators, signals having been reported hard in Asia, Australia, South Sea Islands, Europe, Africa, Central America, South America, as well as in every district of the United States. The list of two way workings with Australia and New Zealand, is a large one, and this station was one of the seven selected by the TPRL to transmit press news to WNP.

The transmitting set consists of one 250 watt tube in a coupled Hartley circuit with 2000 volts on the plate. The aerial is a 90 foot L cage. Mr. Molinari's friends are extending him their congratulations for the recognition of his industry and ability. He is a modest young man who has been working his way up through the radio ranks for five years. During part of this time he was a student at the Polytechnic school but recently he has been assisting his father at his work during daytime, and investing practically the entire nights at his trans-
