Serving you, the individual

There are two sides to every banking transaction, the financial side and the personal side. Neither one is neglected in the service rendered by the American National Bank. Both are kept in balance; but when there is any question we lean to the personal side. In other words, the spirit of service is often permitted to outweigh the mere "letter of the law."

You can come to this bank knowing that you will always be treated with the greatest-ness and the most unvarying courtesy. We invite you to call any time.

Between the first and second reel, Mrs. Ada Wallace Urub gave a talk on the Farm Home at Corvallis. Subscriptions were taken toward building the additional cottages for homeless children.
On account of flu and bad colds, many of the students were out of school last week. Most of the regular attendants have returned. Bessie Tallman, Mildren Hayes and Lorraine Beasley who have had the flu returned Monday.

The Juniors are editing their newspaper this week. This is hoped to be the largest number published so far.

The seniors have ordered their class pins and rings. They expect to receive them soon.

IF BACK HURTS FLUSH KIDNEYS

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity.
The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.
Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.
Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.—Adv.

STATE LIBRARIAN ADVISES COUNCIL

Forty thousand dollars of the \$50,000 available for the municipal library should be utilized for actual construction of the building, Miss Cornelia Marvin, state librarian, advised the city council at a special session held last night. The remaining \$10,000 should be used for equipping the building.

Miss Marvin recommended the appointment of a library board, the appointments to be made by the mayor and approved by the council. Plans for the library submitted by H. R. Perrin and C. N. Coseboom were considered by the state librarian and several suggestions made.
