## TO SECRETARY WORK

(Continued From Page One)

ifornia Oregon Power company all of the power and water rights appurtenant to the project.

We believe that the investigation will show that the reason 250,000 acres of land in this project is not now under irrigation is due to the fact that it would require all of the water that now goes down the Klamath river, an event that would make of little value the investments of the California Oregon Power company and may account for their peculiar activities in the affairs of the Klamath Project.

We believe the investigation will show that D. W. Davis, who was supposed to come here and make an investigation into the sale of the Keno and Ankeny canals, and other matters, made no such investigation; that he came here two days ahead of his announced date and that the fact that he was here was not known until after he had left. That if the people had had an opportunity to present the facts to him in an open hearing, we believe he would have recommended a cancellation of the sale and restored the power sites to the people.

We want an investigation into the so-called Dent-Stoutmeyer report. We believe it will be shown that no formal hearing was held; that it is full of misstatements and untruths and that the voice of the majority of the people of the project, expressed at the Henley school-house, was suppressed and that the representations of a hand-picked delegation was used as the basis upon which the report rests. We believe when you are acquainted with the facts connected with this report you will have an insight into the rottenness of Reclamation Service politics and the dishonest methods that have been practiced to keep your predecessors in ignorance of the true state of affairs on this and other projects in the west, and that you will summarily dismiss the gentlemen who made this report. You are surrounded by your enemies—men who will not stop at anything to keep you from ascertaining the real facts and poison your mind against the men who have been and are now hammering at the door of your department for justice for the people on reclamation projects.

We believe the investigation will show that the local Reclamation Service permitted the level of Klamath lake to be lowered approximately six feet below the safety point. If we had another dry year, there would not be enough to carry us through another irrigation season, according to men well versed in such matters. When protest was made, it will be shown that the gates of the dam were closed, but the water was run down the main canal and then turned into Lost river, through which it was returned to the Klamath river for the use of the Power company.

Doubtless you will be told that those who are asking for this investigation are radicals—bolshevists, who represent nothing and nobody. The men who are protesting are among the most conservative, prosperous and progressive citizens of the project. They are simply asking justice for themselves and their neighbors. If you have any doubt as to whether the people are back of the statements made in this article, we are prepared to have them indorsed by the signatures of a large majority of the water users and will do so at your request.

We would ask that on your visit here you be not turned aside from an exhaustive investigation of reclamation conditions on this project by the same influences that have sidetracked every other investigation. We know that similar efforts are to be put forth, but we rely upon your promise to the board of directors of the Irrigation District to give them your time first and to others afterward.

Space and your time will not permit further statements and accusations. We believe that those set forth are sufficient to justify our request for an independent investigation. We know we are right and we also know that when the investigation is concluded you will have learned first-hand what is the real trouble with the Reclamation Service and be in a position to carry into effect a house cleaning that will, for a time at least, correct some of the conditions that have brought the Service to the brink of absolute failure.

## THE PLEASURE IS ALL OURS, MADAM

There is an abundance of two-letter words in this puzzle. Two of the words are repeated backwards. One of the forms is comparatively new to crossword puzzle fans.

### HORIZONTAL

- Frame for weaving cloth.
- To subject to chemical analysis.
- Chair.
- To adjust.
- Colonist.
- Myself.
- Small mound of earth (golf).
- To observe.
- Sun god.
- A valuable property.
- The dip on a pitcher.
- To languish.
- Printed publicity.
- Mentally invigorating.
- Expression of inquiry.
- To fall behind.
- To cut grass.
- Quantity.
- Geographical drawing.
- Measure of area.
- Assault.
- Knowledge.
- Behold.
- To fish.
- Mistake.
- Cry of surprise.
- Part of a book.
- Fruit of the pine tree.
- Point of compass.
- Female sheep.
- Mineral spring.
- European fresh-water fish (var).
- Guided.
- To depart.
- An anesthetic.
- Grief (var.).
- Wave or bore.
- To plant by scattering.
- Oblong yellow fruit of a tropical tree.
- Morindin dye.
- A gun (slang).
- What manufactured soap comes in.
- Musical note.
- Revolved.
- Redder.
- Inert gaseous element of the air.
- Famous.
- Woody plant stalk.

### VERTICAL

- Silk fabric from Spain.
- Metals in natural state.
- Correlative of either.
- Paired.

- Era.
- Direction to Cape of Good Hope.
- Like.
- Opposite of no.
- Cubic meter.
- Hebrew name for Delty.
- Pertaining to air.
- To ensnare.
- String fence on tennis court.
- To scatter.
- Noise.
- To sick (esp. bed spring).
- Moos.
- Small ball or medicine.
- Electrical unit of resistance.
- A thick shrub.
- Call of a dove.
- Shaper machine.
- Weapon shot from bow.
- 5,280 feet (pl.).
- Inclination.
- Solitary.
- Looked intently.
- Every.
- Before.
- To mimic.
- Oily substances.
- Company of seamen.
- Belonging to us.
- What a hen lays.
- To trim.
- Large musical wind instrument.
- Trough for carrying brick.
- Magician's rods.
- To merit.
- Plant from which bitter drug is secured.
- To disc.
- Tablet.
- Opposite of sweather.
- To heat.
- Seven plus three.
- What a cow chews.
- Toward.
- To accomplish.
- Second note in scale.
- Neuter pronoun.

### RETURNS TO O. A. C.

Oregon Agricultural College, Corvallis, April 7.—Margaret Johnston of Klamath Falls has returned to school this term. Miss Johnston, who left school last term on account of illness, is a member of Zeta Tau Alpha sorority.

### A Wrap of Distinction

Corinne Griffith Combines Chinchilla and Ermine for the Smart Theatre Wrap

Furs, when beautifully combined, afford the most beautiful and luxurious of evening wraps. Particularly effective are these combinations when white ermine is the foundation. Corinne Griffith has chosen a wrap of real charm and distinction to wear in several of the scenes from her newest First National film, "Deceit." It combines white ermine and chinchilla with remarkable results.

The pastel shades which are so much the vogue now along the Riviera and at Palm Beach, promise to become the spring's favorites for the formal gowns for the theatre and dance. These delicate colors are most effective when worn beneath a wrap of fur or ermine, or ermine and chinchilla. But the charm of this type of covering is that vivid tones are usually well chosen to wear beneath it. The lining of the fur wrap, of course, is important, and Paris has seen to it that the wraps of true distinction are lined in the most gorgeous of silks, plain and embroidered.

## Girl Workers Safeguarded From Weather Ills By Plant For Drying Damp Garments

What might have been years ago considered "just another new-fangled idea" has definitely taken its place in the equipment of at least one large business organization and increased efficiency through the simple expedient of keeping women workers in dry clothing and shoes. Employees of the Prudential Insurance Company's home office, at Newark, N. J. never have to work through the day in wet garments or damp feet wear. If they are caught in a storm they report the fact immediately upon arriving at the office and are furnished with dry slippers and a fresh outer garment. Their wet clothes are placed in a new steam dryer, where in a short time they are made fit to wear again. The medical division estimates that the per centage of illness resulting from exposure has been reduced to a minimum through this precaution. In addition there is never the usual slump in energy among the employees and the consequent reduction of production as often noticeable in offices when people are trying to work in a physically uncomfortable condition. As there are more than 3,000 women of virtually all ages and all heights employed at the Prudential home office the welfare division has to keep on hand a stock of slippers and skirts in a full range of sizes.

### LETTERS FROM THE PEOPLE

To: The Water Users of Klamath Irrigation District and The Tule Lake Homesteaders' Association: You should know that the directors of the Klamath Irrigation District are doing all they can to have the time and attention of the Secretary of the Interior and the Commissioner of Reclamation during their short stay here. You should know also, that they are being opposed in this by that self-constituted guardian of the people's interest, the Chamber of Commerce.

that we have hopes of succeeding, our hopes being based on the fact that, apparently, neither Dr. Work or Dr. Mead are in sympathy with the proposed program of the Chamber of Commerce and Mr. Newell. These are the facts and all of the facts as to the present controversy between the Chamber and the District officials. We are trying to get the time of the visitors to tell them the things they should know. The Chamber is trying to take as much of their time as possible and tell them the things they want them to believe. KLAMATH IRRIGATION DISTRICT.

### AT THE LIBERTY

Rafael Sabatini, the Modern Dumas, has given the world his greatest romantic drama in "The Sea Hawk." Frank Lloyd has pictured it as a gigantic and spectacular drama with thrill upon thrill. Milton Sills is the boldest and most dashing and romantic buccaneer that ever stalked through the pages of adventure. that ever set manly hearts aflutter. Lloyd Hughes outvillains villainy in his role as the Sea Hawk's traitorous brother.

### At the Screen

Wallace Beery is as picturesque as ever scuttled ship on the old Spanish Main. At the Liberty Theater tonight and tomorrow. Tonight Harold Bell, Frank Conner and Johnny Houston, who form the personnel of the popular Liberty Trio have arranged a program of old time ballads and they promise you a real musical treat in addition to that great picture "The Sea Hawk."

### AT THE PINE TREE

After making several scenes for "Salome of the Tenements," Sidney Olcott, Paramount producer, observed that things in the movie world are not what they used to be. "Many years ago I made 'Ben Hur' in two nights at Sheephead Bay," he explained, "and turned out a very successful picture for those days. Now we spend eight and ten weeks and sometimes more on a picture."

"When was it you made 'Ben Hur'?" asked a studio visitor. "Oh! I don't remember just the exact date," Olcott answered, "but I think it was the day after we made 'Way Down East.' We made one a day in those days."

"Salome of the Tenements," Olcott's latest work for the screen, features Jettie Goudal, Godfrey Tearle, and Jose Ruben in the leading roles. It opens today at the Pine Tree Theater.

CONVICT CAUGHT WALLA, WALLA, APRIL 6.—William Tuelker, convict, who escaped Sunday, was captured last night near Pendleton and returned at once to the penitentiary in Walla Walla.
