

## Husky Active Kids

# Eat Tru-Blu Grahams

*and Milk*

**M**OST PARENTS FORGET that growing youngsters require more food than grownups. The kiddies are active every minute—and it takes good, wholesome food to rebuild what strenuous play tears down.

Children like Tru-Blu Grahams and milk.

And this simple, sensible diet furnishes the vitamins so necessary to healthy growth—provides the mineral salts that build bone and tooth structure. Gives also the bran that purifies the blood.

Put your kiddies on Tru-Blu Grahams and milk for a week—and watch them thrive.

**Order From Your Grocer Now**

### DRINK WATER IF KIDNEYS BOTHER

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids; to help cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here. Take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the sys-

tem so they no longer irritate, thus often relieving bladder weakness. Jad Salts is inexpensive; can not injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.—Adv.
