

THE KLAMATH LUMBERLOGUE

Established—March 9, 1925

A weekly paper for the men and women employed in the lumber industry of Klamath County.

Issued every Monday

HOWARD WINNARDEditor

The consensus of opinion among Lumbermen seems to be that there is nothing the matter with the lumber market but its time honored bugaboo, overproduction. Spring building activity is good, on the whole, and in many sections farm buying will be excellent this year.

But the immense production of the country, and particularly of the West Coast association and California White and Sugar Pine association keeps the market distinctly a buyer's market.

Early last week a meeting was held in the Pelican City Community for the purpose of forming a Timber league of baseball teams from the mills and camps of Klamath county. Plans for the financing of the league were discussed, and another meeting was called for

April 22, at the Community club at 7:30 P. M.

The opinion was expressed by several that care must be exercised not to allow the Timber league to interfere with the Shikyou Klamath league, but to use it rather as a feeder for players to the town league.

Representatives were present at this meeting from Lamm Lumber company, Pelican Bay Lumber company, Tennant, California, and the Lumberlogue.

Lumberlogue agreed either to furnish a silver loving cup as a trophy for the winner, or to enter a team in the field if necessary to create a stable league.

Letters have been sent to the principal lumber companies in Klamath county and Northern California, inviting them to send representatives to the meeting April 22.

JOHNSTON MYSTERY SOLVED

Considerable curiosity was prevalent recently concerning the bolts or abscesses with which John Johnston was afflicted. John could give no satisfactory reason for them, and opinions varied greatly. But now it is understood that John was merely sprouting Elk horns.

FOREST FIRE ORDERS GIVEN

"The following or placing of a burning cigarette, cigar, match, pipe, heel, fingercacker, or any ignited substance, or the discharge of any kind of fireworks, in any place where it may start a fire," is prohibited in the National Forests under a new regulation just issued by Secretary of Agriculture W. M. Jardine, under authority vested in him by congress. Word of this new regulation has just been received by District Forester C. M. Grainger.

Violation of the new regulation is a misdemeanor, punishable under Federal law by a fine of not more than \$500, or 12 months imprisonment, or both.

Local forest officials suggest that the new regulation would make a good text for a forest protection talk during American Forest Week, which is to be observed April 27 to May 2.

The Forest Service plans to enforce the regulation strictly. They hope, by so doing materially to reduce the number of man-caused forest fires, particularly during the Fourth of July. Many people still seem to have a mistaken idea that patriotism consists largely of discharging fireworks in dry forested areas, it is said.

HOSS RACERS

Chef Charlie LaVigne, of Pelican Bay camp one, and Charlie Moore are so interested in horse racing that they are training the plugs for a matched race the Fourth of July.

GRAHAM BUSY

Big Ed Graham is a busy guy these days. He and his construction crew of two men are putting a pipe line to Railroad alley. Fat Sletten says the water tastes putrid.

Camp Clerks Hagan and Lyman, having cornered all the beer and pop in Klamath county, are expecting to clean up the coming season.

LANGELL MILL PROGRESSES

Work is progressing on the installation of the mill of the Illinois Lumber company in Langell Valley. The Long Pine Lumber company finished moving the last of the machinery in about two weeks ago, and the mill will start as soon as it can be installed and construction completed.

PENNSYLVANIA MAN HERE

C. G. Kozar is visiting at the home of his brother-in-law, F. E. Hinkle. Kazer is a railroad man from Pennsylvania. He plans on spending several days with Mr. and Mrs. Hinkle. Hinkle, formerly locomotive engineer for the Ewauna Box company, is now with the Big Basin Lumber company.

MRS. CASS EXPECTED

Mrs. Fred Cass is expected to arrive at Pelican Bay camp April 29, to join her husband, who is a locomotive engineer. Cass is at present on day shift on the three spot.

LEWIS AROUND

Jack Lewis, of Algoma Lumber company, is out of the hospital following an operation for appendicitis.

KITS TO START SOON

Machinery is being installed in Kits mill, and that plant will probably be ready to start by the time a well, which is now being drilled to supply the mill, is completed.

NO MORE WOOLIES

P. J. "Paddy" Collins, of Shaw-Bertram camp, declares that as long as there is a log in the woods he will herd no more sheep.

LAY NEW TRACK

A construction crew is working on the new track to Kirk, which will follow the old rail road grade. The old road is in very bad shape.

VISIT ANNA CREEK

Mrs. A. E. Whitman and son George spent Easter with Mr. Whitman at the camp of the Anna Creek Lumber company, seven miles north of Fort Klamath.

KLAMATH COUNTY SAWMILL, PLANING MILL, AND MANUFACTURERS' DIRECTORY

LOGGING ACTIVE AT SWISSHOME SECTION

Although the roads in several parts of western Lane particularly at Deadwood are in rather poor condition as yet there is considerable travel in that area, according to W. W. Wilbur, resident of Swisshome, who is a local visitor. Mr. Wilbur also reports that considerable logging is under way by the Lichty and Russell firm and that these logs are being driven to a boom at Swisshome. Low water in the stream will probably halt the drive and the logs will be held up until high water in the fall unless there is an unusual freshet this spring the visitor believes.

DOWN WITH THE WHITES

Noel Turner is contemplating gradually killing off all the white people in this county, and gradually giving the country back to the Indians.

DOWN FROM LAMM'S

D. H. Crump, of the office force of the Lamm Lumber company, was a visitor in Klamath Falls Thursday evening.

VISITS KLAMATH

J. J. Steiger, well known Klamath Lumberman, was in town from his camps near Chiloquin last Tuesday.

LOSES FLESH

Johnny Cummings, of Pelican Bay camp one, is losing some of the surplus flesh he acquired last winter.

DOWN FROM KIRK

Marion Masten was down from Pelican Bay camps over the weekend. Masten is working with a survey crew laying out logging roads for Pelican Bay.

LEAVES PELICAN CITY

Miss Pearl Renis has resigned her position as telephone operator for the Pelican Bay Lumber company. Her place is being filled by Miss Frances Humphrey until the new operator arrives.

HAS NEW OAKLAND

Olaf Lund of the Chiloquin Lumber company purchased a new Oakland special touring model recently.

STARTS NIGHT SHIFT

Pelican Bay Lumber company started a night shift in the box factory Sunday evening. The shift runs four cut-off saws.

DOWN FROM MODOC

Olaf Pearson was in town over the weekend from Asprovo. He reports that Modoc mill was shut down Saturday on account of snow. He returned to Asprovo Sunday.

WORTLEY ECONOMISES

Speed Wortley declares that he is going to save some money this month.

Milling Around

Teacher: "Concrete is that which can be seen, abstract is that which cannot be seen. Now give me an example of concrete."
"My knicker!"
"Good. Now give me an example of the abstract."
"Yours."

A bachelor had bought two "new laid" eggs for the next morning's breakfast, and when he got home with them, he noticed some writing on the shell of one of them. Of course, he read the writing. It ran like this:

"I am a farmer's daughter, 17 years of age, blond hair, brown eyes height and weight about right, and complexion the same. If this should meet the eye of some young man who desires to wed a merry but industrious country girl, let him communicate with—"

And then followed the merry country girl's name and address. Well, the young man was so pleased he rushed off and telegraphed to the girl. He got her answer next morning. She wired: "You are too late. Was married six years ago, and am now the mother of three."

Parent: "I wish you would quit smoking, Bobby."
Bobby: "It don't hurt me."
"But you are too young to play with matches."

Forester Speaks on Prevention of Fires

"In spite of our best efforts, we will always have forest fires, so we must have ways of meeting them," says W. B. Osborne, of the federal forest service, Portland.

"The three main lines of prevention are educational publicity, direct campaign against the individual, and a clearer understanding of the losses sustained," said Mr. Osborne. "Though 95 per cent of our citizens are in a frame of mind where they will prevent the minority from firing forests, publicity is needed."

Mr. Osborne explained in detail the methods and problems of fire suppression, emphasizing "robbing the fire of fuel" as the best means of getting the fire under control. He is a recognized authority in the northwest on this subject, having had many years of experience in the work.

DAGGETT ILL

Junior Daggett, of the Ewauna Box company, has been confined to his home with influenza for the past week. It will be another week before he is able to resume his work.

FIRE CASES SHUTDOWN

The burning of the old Ewauna Thursday cut off the power line feeding the Klamath Lumber and Box factory and the Wheeler-Olmstead mill.

CHILD'S HOUSES

R. L. Tenby is erecting two houses in Klamath Falls, one located on Oregon avenue and the other on the corner of Fifth and Lincoln.

The man who puts out the last spark generally acquires the reputation of being a good woodman.
