

WEDNESDAY AND THURSDAY ONLY

Ed. Vannice's Own Column

As far as we here at the store are concerned, this is a brand new idea.

If merchants over the country can give you values on "middle of the month sales," beginning of the month sales, and dollar days and a thousand and one other things we can see no reason why we can't make you sit up and take notice with an 85c sale. Just run your eye over this page and you will see that there are some very startling values offered for 85c. They all sell for more than that in every day business and they are all worth more. What we are doing is cutting the price on these different things for the next two days and you get the benefit of the cut.

If you like the idea—tell us about it and there will be a lot more to come. If you would rather pay the regular price for this first-class merchandise tell us that also and we'll forget that there ever was such a thing as an 85c sale.

You're the judge, come in and give us the verdict.
