Europe Is Ruined! Why?

For the simple reason that all of her money is in the banks and the pockets of the citizens of the United States. During the years of the war she poured her money into this country—forced the balance of trade into our favor, until now she has nothing with which to get it back.

That is the position Klamath Falls will be in

If her people continue to send thousands of dollars every month into other trade centers. Our merchants buy merchandise for sale to people of Klamath County. If you buy your supplies elsewhere your city cannot survive.

Choose for yourself

Are you going to pay a higher price for the same merchandise in Chicago or are you going to help Klamath Falls grow and prosper.

The Answer is Buy at Home and

Build a Greater Klamath Falls

If the dollar you earn is spent in Klamath Falls your employer is enabled to add a unit to his business which in turn gives employment to new people.

Your dollar spent in San Francisco adds to some business there and allows Klamath Falls to stagnate and finally slip back.

Do you part---trade at home
