Store News

When you walk into a drug store and lay your prescription on the counter you have every reason to believe that it is to be filled by an expert. The old days, when everyone from the soda fountain girl to the janitor tried to get you medicine out for you are gone, but there are still drug stores whose volume of prescription business is so small that the druggs are bound to get sid before they have a chance to use them. That shows the advantage of our three store buying power. With one buyer for all three stores, we are able to get quality prices on every thing we order, but by dividing it into thirds each store always has a complete stock of clean, fresh merchandise at prices that are below the average.

Free Deal CONTINUED

We have left, just two Universal Vacuum cleaners with which we can give attachments free at the price of the cleaner alone. The price including the free attachments is \$57.50, \$5.75 down and \$5.75 per month. Just two at this price. Don't delay if you need a vacuum cleaner.
