### Wash With It--If It Doesn't Sell Itself:---

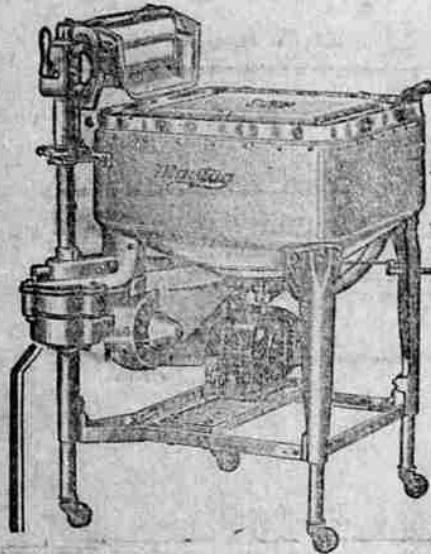

- On the way it cleans heavy garments, work clothes and grimy overalls—don't keep it!
- On its complete elimination of hand rubbing—even of wristbands, cuffs, and collars—don't keep it!
- On its self-cleaning cast aluminum tub, and its patented self-adjusting, instantaneous tension-release wringer—don't keep it!

#### NO OBLIGATION AT ALL

We want you to try this super-washer, which women themselves have termed "The Miracle of Monday"

Maytag is the largest producer of washing machines in the world

#### 6 Outstanding Maytag Features

- 1—Washes faster. The Gyrafoam Principle creates a more highly energized, turbulent and continuously effective water action. No idle water.
- 2—Washes cleaner. The Gyrafoam Principle mixes the soap evenly through the water and forces the super-cleaning, soapy washing solution through the meshes of the clothes. No idle suds.
- 3—Largest hourly capacity in world—50 lbs. ordinary family wash per hour.
- 4—Most compact washer made—takes floor space only 25 inches square.
- 5—Cast aluminum tub—can't warp, rust, rot, swell, split nor corrode.
- 6—Easily adjusted to your height, and height of tub.
- 7—Clothes can be put in or taken out while washer is running.
- 8—Tub cleans itself in 30 seconds.
- 9—Metal, swinging wringer. Low. Swings into 7 positions. Adjusts itself automatically for handkerchiefs or blankets. Automatic drainboard. Instant tension release. All parts enclosed.

### It's Green as The Grass

A VERY deep shade of green makes an effective background for the handblocked design in lighter green and white which follows a somewhat irregular course over one shoulder of this afternoon frock. The cut is simple so as not to detract interest from the material itself.

### "Better Mailing" Week Starts Soon

Another "better" week has been set aside by the government according to a recent communication received by the Klamath Falls postmaster, John A. McCall, from the office of the Postmaster general. June 1 to June 7 has been designated as Better Mailing Week when a nation-wide campaign will be undertaken to reduce the appalling losses occasioned by carelessness in addressing mail matter.

During that week several thousand motion picture theaters through the courtesy of the Motion Picture Theater Owners of America will display on their screens appropriate slogans urging greater care in addressing; daily and weekly newspapers will be asked to acquaint their readers with the extent of the waste caused by misdirected mail; national business and commercial organizations, mail-order houses, advertising associations and clubs are being requested to get the message to their members and postmasters in a number of principal broadcasting cities will discuss the question over the radio.

Statistics compiled from the office of the Postmaster General name 21,000,000 as the number of letters sent to the dead letter office last year; 803,000 parcels did likewise; 100,000 letters go into the mail yearly in perfectly blank envelopes; \$50,000 in cash is removed annually from misdirected envelopes; \$12,000 in checks, drafts and money orders never reach intended owners; Uncle Sam collects \$92,000 a year in postage for the return of mail sent to the dead-letter office; it costs Uncle Sam \$1,740,000 yearly to look up addresses on misdirected mail; 200,000,000 letters are given this service and it costs in one city alone \$500 daily.

### Award Contract For Road Job To Stebbins - Rocco

So close were bids for the surfacing of the Chiloquin-Williamson river job, that the county court met last night in the county court house and after long discussion awarded the contract to Stebbins and Rocco. The two contractors will this morning place 15 men on the job and in 60 days will have the project completed. The contract calls for the surfacing of 5.5 miles. Bids were as follows: Stebbins and Rocco, \$14,149 for screened surfacing, \$20,355 for crushed construction; H. P. Vleary, \$16,000 and \$18,000 for screened and crushed construction; Ed Propst, \$18,400 for crushed construction; Dunn & Baker \$17,250 and \$20,125, for screened, crushed construction.

## RACINE MULTI-MILE BALLOON TIRES

### No Axe to Grind

Perhaps your tire problem has to do with air pressures; perhaps you wonder whether you should equip with low-pressure tires of standard size, or balloons.

We are in a position to advise you fairly and without prejudice because Racine builds—and we sell—both kinds.

Moreover, both kinds equally uphold RACINE'S reputation for building first-quality products only.

### Dining Car of Carnival Held; Train Departs

The entire train of the Snapp Bros. carnival was allowed to leave yesterday evening for Medford, with the single exception of the dining car. Three coaches, the dining car and eight flat cars were under attachment yesterday morning, pending settlement of a claim of \$2,942 by David Stiekney of Salem, for injuries incurred in 1919 while riding a merry-go-round of the Great Alamo circuses, of which William H. Snapp was part owner.

The show was held up in Klamath Falls for 48 hours. It is bound for Medford for a stay of five days. Arguments over the execution of the judgment against William H. Snapp, in favor of young Stiekney, will be aired Thursday to determine whether or not the dining car should be sold at auction to satisfy the claim of Stiekney, or be allowed to proceed to Medford to join the rest of the circus troupe.
