SMOKING BRINGS LOSS OF BEAUTY TO FAIRER SEX

LONDON, May 23.—Tobacco used by women has a tendency to destroy their daintiness, according to Dr. Cecil Webb-Johnson, one of England's best known specialists on diet and obesity. In his new book, "Women and Beauty," health and beauty go hand in hand, declares the author, and a grave warning is given to women smokers and drinkers, his theory being that it is difficult for the women of today, and the men as well, to smoke or drink within what ordinarily is termed moderation.

Lacks Self Control
 "A man often will have his allotted daily ration of so many pipes, cigars or cigarettes, but a woman is more unstable and less capable of self-control than a man," the author contends. As a rule, he believes, a woman smoker does not appear to know what moderation means, any more than a woman drinker.

Look Undernourished
 Concerning the effect of excessive cigarette smoking upon a woman's beauty the doctor says: "Observe a girl who smokes excessively, and you will notice that she also looks undernourished, with staring eyes and a yellowish skin. To make matters worse the smoke-dried throat experiences a false thirst, and thus more liquid than is necessary is consumed and an alcohol habit set up. The cock-tail and the cigarette always go together."

Alcohol generally, Dr. Webb-Johnson maintains, spoils beauty in woman because it makes superfluous fat.

Strange Will Case To Be Fought Thru Courts Of Oregon

Salem, Ore., May 22.—Whether the state of Oregon shall acquire by escheat the estate of the late Mrs. Asmus Brix of Astoria amounting to \$200,000, or whether the estate wholly or in part shall go to the alleged natural but faithless mother of Mrs. Brix, a resident of Germany is the issue in a case to be fought out in court. The state land board today employed Norblad and Hesse, lawyers of Astoria; to assist District Attorney Lienvebber of Clatsop county, in the case and it will be necessary for Hesse to make a trip to Germany in connection with the case.

The case is unusual. The foster parents of Mrs. Brix are said to live near Salem, but their names could not be ascertained here today. To them it was her desire to leave some of the estate. Also she desired to leave \$25,000 to a Lutheran church at Astoria. But she left no will and the church has been informed that it has no claim on the estate.

The mother in Germany is said to have discarded the child soon after birth and given her to a couple emigrating to America, and who became the foster parents. A Portland attorney, it is said, has appeared with alleged power of attorney from the mother in Germany, seeking to get the estate. The land board doubts the existence of the German claimant.
