FOURTEEN HELD IN DEATH PLOT AGAINST RULER

Barcelona Police Hold Persons as Suspects of Planned Outrage

ALFONSO IS TARGET

King of Spain's Life Said to Have Been Threaten- ed by Student Group

PERPIGNAN, France, June 5.—(A.P.)—Fourteen persons have been arrested in Barcelona in connection with the bomb plots against King Alfonso, according to travelers arriving over the frontier, who say news of the plot is being suppressed in the Spanish newspapers.

Those arrested were young students and functionaries, members of an extremist catalan group which had been camouflaged as a literary and touring association.

The prisoners denied any connection with the plot.

The bomb, which was intended to blow up the royal train between Barcelona and Madrid, is said to have been a large one, weighing 175 pounds, arranged to be exploded by an electric mechanism. It was found several miles outside the city near the tracks of the Madrid line.

The travelers say the police also found a map showing the location of a bomb under one of the numerous tunnels on the route to Madrid.

Several days ago, they assert, a bomb was exploded which seriously damaged a palace of the Marquis De Castell, at Barcelona the day after a ball held there in honor of the king.

American Legion Service Scores

Needy Veteran Gets Quick Action Through Local Post

Robert D. Woodworth, disabled veteran, afflicted with tuberculosis and desperately in need of hospital care, received the quickest action on record here when he appealed for aid Wednesday to W. R. Canton, local service officer of the American Legion.

Canton, realizing the seriousness of Woodworth's case, wired on that date to officials of the United States Veterans' bureau hospital in Portland.

Thursday night Canton received a wire saying that the transportation for Woodworth would be mailed. Today it arrived and tomorrow Woodworth begins the journey to Portland, where government physicians will see that his falling health is restored.

According to Canton this one instance only serves to show that deservng veterans, by appealing to local legion officials, can secure immediate action and avoid delays which formerly caused relief to come too late to do ailing men any good.

ARMED SAILORS PROTECT PEOPLE DURING STRIKE

Shanghai Presents Dramat- ic Picture With U. S. Forces on Guard

TROUBLE SPREADING

Chinese Are Attempting to Starve and Drive Out Foreign Population

SHANGHAI, June 5. (A. P.)—A force of American sailors with bayoneted rifles herding a number of cows down the ancient Nanking road to an abbatis; American women combining households when their Chinese servants shuffled away; foreign society women becoming telephone operators and accepting all forms of employment; this was the picture presented in Shanghai today as the celestial city settled down to a seemingly grim struggle—the incident against the strikers while Chinese strikers attempted without outward disorder to disrupt foreign activities in a campaign calculated to starve out and drive out foreigners.

Money changers in the streets refused to take foreign bank notes. Chinese banks are closed and the cash supply is disappearing rapidly.

Strike Spreading

The strike of Chinese workers continued to spread today. A tense situation loomed in the French concessions where thousands of students mounded peacefully, wearing conspicuous mourning bands, while alert policemen and French officers, heavily armed, were patrolling the main thoroughfares.

Many meetings were held across the boundary from the French concession, in Chinese territory, but only petty outbreaks were reported. Sharp distinctions were emphasized by Chinese in favoring American firms and homes. Those Chinese shops doing business, refused the patronage of British customers while favoring Americans.

Mrs. Milton Pardy, wife of a Judge of the United States court here and the wife of Counsel General Cunningham, combined household forces for the emergency today when the servants in their respective homes left.

Many of the Chinese servants remain loyal however. Some old servants have remained with their masters despite death threats involving their families' quarters in Chinese territory. The threats have been voiced directly by student canvassers.

Those foreign firms, hotels and institutions which continue to function are doing so through the aid of volunteer foreign women workers, who have stepped into the places left by the strikers.

MOORE DENIES TRACT SOLD TO NORTHERN LINE

No Basis for Rumor Big Deal is in Prospect, He Declares

NO OPTION IS GIVEN

Tract in Question Declared Ideal for Terminal Site

Rumor was prevalent here today that sale of a large piece of property on the west side of Lake Ewauna, immediately adjoining the city limits, had been sold by Rufus Moore to the Northern Lines to be used as a terminal site.

Emphatic denial of the rumor was given this afternoon by Mr. Moore.

"I have not sold the property nor have I given an option on it," he said. He denied also that he had been approached by officials of the Northern lines.

According to the rumor, the property, largely swamp land, was to be acquired both because of its desirability as a terminal site and also because of its proximity to the Weyerhaeuser mill site.

But one piece of property, that owned by H. N. Whiteline, lies between the Moore tract and the Weyerhaeuser mill site.

A small site which could be utilized for a bridge support is owned by the Weyerhaeuser company on the east bank of the river opposite from the Moore tract.
