"An Open Letter to the Public Concerning This Sale"

For several years the Crater Lake Automotive Co. has occupied a prominent place in the commercial life of Klamath Falls and the surrounding territory, growing steadily with the community and serving the people to the best of its ability, always maintaining the principle of honor and fair dealing with everyone.

With a constantly growing business and like many other merchants of different lines, we, perhaps, became too enthusiastic. We find ourselves at this time without floor space and used car sales room packed with used cars. First of all, it is the ever present need of money which necessitates a hasty disposal of these cars. Secondly, the ever increasing amount of service we are giving Essex and Paige and our used car buyers demands more working space.

Our necessity is your opportunity—Do not underestimate this offer.

A selling event that will startle the entire state. One of the old established automobile firms, The Crater Lake Automotive Co., of Klamath Falls, Oregon, cutting loose—placing their entire and complete stock of used cars on sale. The greatest selling event ever placed before the people of this part of the state.

What?

The true and eventual cost of any car is the depreciation you will take on it when you finally dispose of it, plus the expense of its operation during the time you were the owner. We will offer to the public between 35 and 50 cars, both new and rebuilt, some only slightly used, nearly all makes and models. New cars on sale, slightly used as demonstrators. These cars will be offered at less than actual value and again a discount that will insure a hasty disposal. The net price will be your investment and this price will be so low that when you eventually dispose of them you will have lost nothing. Our sale price is taking care of your depreciation.

Now is the Time to Buy

BECAUSE—Now is the time you can save money! Our display space is packed full of new and used cars. Necessity knows no law. We must clear out every car in 10 days. And you can buy now and sell in the summer time at a profit. Remember, just a small payment down—the balance in small monthly payments. Under these conditions it most certainly will pay you to buy at this sale!

YES GOING AT UNHEARD OF LOW PRICES—BOTH USED AND PRACTICALLY NEW CARS. Did You Ever Stop to Think? When a Car is Driven One Week it is a Used Car
