THE MEETING AT MERRILL TONIGHT

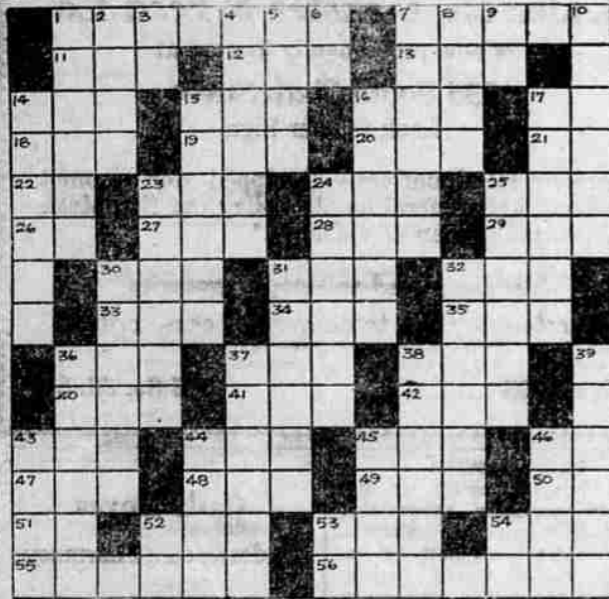

(Continued From Page One)

discussion of the railroad question and then pass resolutions requesting the Interstate Commerce Commission to permit the Hill lines to build into Klamath county and asking for the construction of the Modoc Northern through to a connection with the main line of the Southern Pacific in Nevada. That is what the people of Merrill, Malin and Tule lake valley want.

If the Southern Pacific is sincere in its declaration about the Modoc Northern, it cannot object to that resolution; if it is sincere in its statement that it is not fighting the Hill lines, it cannot object to the other resolution.

Above all, Merrill people should not be drawn into a community quarrel. Only through unity and harmony will headway be made. Klamath Falls is a shining example of what selfishness and local strife will do. Merrill and Malin have opportunity knocking at their doors. There should be men in these communities with broad enough vision, with the ability to grasp the situation and point out the way that will lead away from disaster to the accomplishment of everything the people of that section of the county have been waiting for for years.

The implication that any attempt was made at the Malin meeting to prevent an open and free discussion of the railroad question is unfair to Mr. Harry Wilson, who presided. He called upon the Southern Pacific interests to come forward and make any statement they desired. Mr. J. J. Miller, who was first called upon, passed the task to Mr. Hinshaw, who occupied the floor without restriction. If Mr. Groesbeck or Mr. Strahorn desired to make a statement, the meeting was there for them to address. Absolute fairness and impartiality marked the entire proceedings and any statement to the contrary is misleading.

Kiwanis Club To Stage Club Dance

At its regular luncheon today the Kiwanis club announced a social dance for the benefit of the entire city to be given next Thursday evening on the Venetian dance barge on Lake Ewauna. It will not be an invitation affair and all are welcome. The officers of the club wish the public to know that they will make it as pleasant as possible for all who come and it is hoped that the whole town will turn out and enjoy the first big community dance that has been given here in years. Special decorations with Chinese lanterns will be in effect, with Kiwanis colors predominant. Houston's orchestra will furnish the music.

P. E. Burke, who presided at today's luncheon, announced that in all probability the club would be host at its next luncheon to Ralph Budd, president of the Great Northern Railway, who is now on his way west with other railroad officials. Mr. Budd was extended an invitation some time ago and promptly wired his early acceptance.

TOM SIMS SAYS—

More than half the destructive pests in America are of foreign origin, not counting reformers. The yield of oil from a whale is about 14 tons, but it is very much against his wishes. State of Washington produces a fourth of our apple crop, so is a bad place for doctors.
