State Loses Out In Paving Action

PORTLAND, Ore., June 16.—Federal Judge R. S. Bean decided today against the state highway commission in the suit of the Warren Brothers company against Glen E. Kibbe and others, for damages,

including royalties, for alleged infringement of patent. About \$390,000 is involved in the case, including a claim against the highway commission for \$250,000 for royalty of 25 cents a yard on about 1000 yards of pavement, and for triple damages and interest.

He who says sweat is perspiration knows not what it is.

GIRL GOLFER IS COUNTING TIME UNTIL SCHOOL

CHICAGO, (AP)—Among the star golfers of America there is a young co-ed, Miss Miriam Burns of Kansas City, Mo., a student at Northwestern University, who has announced that as soon as she can get away from the classroom she will try to add to the laurels she has won on the links.

Miss Burns, who is fair to look at, counts among the victories of her brief career in golf no less an honor than the western championship, which is contested by some of the best women golfers of the world. She lost that title last year at Onwentsia to the then national titleholder, Edith Cummings, but only after she had displayed wonderful golf in previous rounds over watery links, and largely because she had suffered from food poisoning the night before the final round.

The daughter of a civil engineer who got his training at Cornell and Stanford universities, Miss Burns apparently adopted the transit and level in lining out her golf shots, for they are straight and well gauged as to distance. She is not famous as a long driver or iron shooter, but she is almost always down the center of the fairway. She is not a spectacular approacher, using the run-up much of the time, but she is uncanny in her ability to chip and run the ball to within easy putting distance of the cup from the edge of the green, or even from 75 yards away.

On the green Miss Burns is excellent, although it was with the putter that she failed mostly in her losing match with Miss Cummings last summer. This defeat was particularly bitter for Miss Burns, yet she took it with the best of sportsmanship. It was bitter because she had been playing better than ever in her life, despite her recent sorrow over the death of her father, and because she was losing a crown that she so well earned the year before by defeating Louise Fordyce, Ohio champion.

It might be recorded that Miss Burns a few weeks later got even with Miss Cummings in the friendly manner of golf by defeating her in a 21 hole match during the national title tournament at Providence, R. I., and helping to pass the national crown from Miss Cummings.

As a member of the Milburn Country Club of Kansas City, Miss Burns plans to play her first tournament this year in the Missouri valley championship at Kansas City in June. She will then take part in several regional meets, and later attempt to regain the western title at St. Paul in August. Her tournament play will take her back to Missouri in October when the national championship is held at the St. Louis Country Club.

Miss Burns has been playing some fine golf this spring in practice rounds over the championship course of the Westmoreland Country Club, of which she is a member while at school in Chicago. With added tournament experience and perfection of a greater variety of golf shots, she ought to make a fine showing in the future, even if she should not reach the top this year.

Home Economics Proves Success

Girls attending the public schools in the sixth, seventh and eighth grades, the periods corresponding to those in Manual training for the boys, completed over 750 garments during the school year closed under the direction of Olive Wilson, instructor in home economics.

Problems completed during the year included:

Dresses	60
Pajamas	60
Bloomers	80
Aprons	140
Cooking Uniforms	75
Kitchen Towels	75
Stove Holders	135
Night Dresses	25
Handkerchiefs	60
Miscellaneous	50
Total	760

Financial Statement

Total cost of material and supplies furnished by the school	\$170.00
Average cost per month	17.00
Number of girls taking course	190
Cost per pupil for material and supplies	.89

The chief cost in this department was in the seventh grade for cooking supplies. At the close of their work, each seventh grade class was required to serve a dinner, the guests being members of the school board, teachers, and a few other invited persons.

WOODMEN OF AMERICA HEADED FOR MILWAUKEE

MILWAUKEE, (AP)—The national convention of the Modern Woodmen of America, held quadrennially, will open here the week of June 21, continuing through the entire week, with approximately 1,200 delegates attending.

Many attractive features are planned, among them competitive drills by picked teams, with nine army officers acting as judges. The drill teams are the best of the organization's camps, and will come here after having stood the test of the preliminary meetings, more than 16,000 of which have been held in preparation for the national event.

"Venetian Night" is expected to be the most colorful of the week's activities, and is to be held on the waters of Lake Michigan, fronting Juneau park, which forms a natural amphitheatre.

John J. Blaine, governor of Wisconsin, will be one of the principal speakers at the convention sessions, which are to be held daily.

Langel Valley Invites People To Celebration

At the directors meeting of the chamber of commerce held this noon, G. Keller of Langel Valley spoke briefly before the meeting asking that everyone who can possibly do so, attend the "barbecue" being held at Langel Valley on Sunday.

The directors held a general discussion of business.

At the forum luncheon tomorrow noon which will deal with "stop forest fires" which was sponsored by the local chamber and has spread through Washington, Oregon and California as a state wide movement, Mrs. Fannie Blankman Bourne harpist has consented to furnish the entertainment. Mrs. Bourne is a member of the national association of harpist and is visiting in the city from the east.

Built-ins

More and more home owners are seeing the desirability of having every thing possible, built-in.

After the house has been built for a month or a year they may wonder how it is going to be possible to have these different built-in features.

That is where we come in

Just give us an idea of what you want—where you want it, and how big and we can supply your wants and make the job just as finished and just as attractive as it could have been when the house was built.

Store Fixtures

Every store has need of new fixtures or the old ones changed or maybe just an extra counter or show case is what you want.

We are equipped to do this work, make anything you want and put in where you want it and at a very reasonable cost.

Sturdy Construction

After the first thousand miles, its the material and construction of your tires that keep you out of trouble.

For a short distance most any kind of rubber will give good service—but when it comes to the every day wear and tear and strain—hundreds of miles one after the other your tires must be expertly constructed of first class materials or you are going to have trouble.

After 10,000 miles it is

The LUXURY OF ROOMINESS

In the New Packard Eight Enclosed Models Comfort Has Been Particularly Stressed

IN the past there has been a poverty of space in even the most costly cars. The utmost beauty combined with the greatest roominess has been difficult to accomplish. And the comfort of passengers has been sacrificed.

But now the new Packard Eight is the most spacious car built in America.

It fits perfectly into the lives of those who demand the best when they travel. It is to the highway what first cabin is on the water or drawing room on rails.

Steady, swift and sure as either Leviathan or Century, the Packard Eight affords the height of luxury and comfort for those who choose their own roads and set their own schedules.

While retaining all the famous and much copied Packard beauty and distinction, the enclosed models of the improved Packard Eight offer the most appreciated luxury of all—the luxury of roominess.

PACKARD
Ask the man who owns one

The Packard Eight is built in ten body types, four open and six enclosed. Prices range from \$1750 to \$2100 at Detroit.
