## VACATION

Of most importance for an enjoyable vacation is good eyesight.

If the bright glare from the sun beating down on the water or highways makes you squint and hurts your eyes—

Or your vision does not seem as clear and comfortable as it should be—

You should have your eyes examined, as the only permanent relief to be had is in the wearing of properly fitted glasses.

## CAUTION

The thin, extremely flexible balloon casing, repaired by the old methods, leaves a hard, stiff section which throws the tire off balance and quickly ruins it. The Hawkinson System eliminates this difficulty by making a repair of remarkable strength—yet just as thin and pliable as the balloon tire.

Badly injured balloon tires are not "through" if they are repaired the Hawkinson way. A trial will convince you. We guarantee each repair to OUTLAST THE TIRE, or your money back. All tires inspected FREE.
