# Look for wear

The best way to convince yourself that  
SEIBERLING CORDS

Are the tire for your car is to look at them as they stand on the  
street. Ask the owner how far they have been driven and  
when he tells you that they have gone over 10,000 miles of  
Klamath County roads, he will be telling you the truth.

Of course they won't look like they had gone that far but  
you must remember that with their sturdy all-tread construc-  
tion they will stand more hard wear than any tire on the market.
