"Long-Bell Oak Floors Throughout"

HOUSES advertised for sale sometimes are described in terms more flattering than the actual conditions warrant. But if the printed description includes the statement, "Oak Floors Throughout," you KNOW that home is well and substantially built—because oak floors are the hall mark of quality in sound and serviceable construction.

OAK FLOORS ADD MORE THAN THEIR COST TO THE SELLING VALUE OF ANY DWELLING.

That is because they look better, wear better—are better than any other floor; they are "standardized best" and are so recognized, everywhere.

You may never have occasion to offer your home for sale, but if you should, "OAK FLOORS Throughout" will make the selling easier—and materially benefit both you and the purchaser.

Ask us about laying Long-Bell oak floors over old floors—a most economical way to modernize the interior of your home.
