

Low Prices to Prevail at Boxing Card Here Tuesday; Joe Coffman Is Headliner

Hot weather prices and one of the fastest bouts seen here in months will feature the boxing card to be presented to local fans next Tuesday night at Scandinavian Hall. Seat prices will range from \$1.10 to \$1.65 ringside.

Joe Coffman, speedy welterweight whose two recent victories over Johnny Carlson have made him a drawing card anywhere on the coast, will mingle in the headline bout with Young Starkey of Chico, regarded as one of the best of the new crop of coast welters.

Coffman is known to local fans because of his recent ring performances here and needs no introduction.

Young Starkey hails from Chico and for a time fought semi-windups there until it was discovered he put up a better battle than the head-

liners. He is credited with wins over Pros Hontou, Young France, Mike Gibbons of San Francisco, Bill Brayton, Indian Nance and other fast boys in the central California section. His mainstay is a mighty wallop.

The fight should give fans an opportunity to determine for themselves whether a slugger or a boxer has the best chance in the ring.

Wilbur Harrington and Maurice Harris of Ashland are slated to go on as semi-finals. The rest of the card, yet to be determined, will be composed of four-round fights sufficient to make a card of about 26 rounds.

With the new low prices and with the new policy of putting on fast four-round fights it is believed that even better houses than in the past will be secured.

Confession of Killing Spouse Is Repudiated

CONCORDIA, Kan., June 25.—Charles B. Davies, charged with firing gunmen to kill his wife, has repudiated the confession he made to county officials, J. D. Fell, local lumberman and a friend of Davies, declared today. Fell said he and Dr. H. M. Doty, county coroner, had been told by Davies that the confession was "wrung from him while his mind was unbalanced by worry."

Fell added that he expected Davies to plead not guilty when arraigned tomorrow.

BROADWAY NIGHT LIFE NOW UNDER FIRE OF POLICE

Love Philter Cocktails Branded New Drink of Those Seeking Thrills

WOMAN IS MURDERED

Youth Held as Slayer Following Party in Road House Near N. Y.

NEW YORK, June 25.—The murder of a woman in New Jersey by means of a drug sometimes used as an aphrodisiac had sequel today affecting the night life of Broadway.

The New York American in a summary of the conclusions of investigators says:

"Love philter cocktails are served in several of the smarter uptown speak-easies. (Bacardi rum is given as one ingredient.)

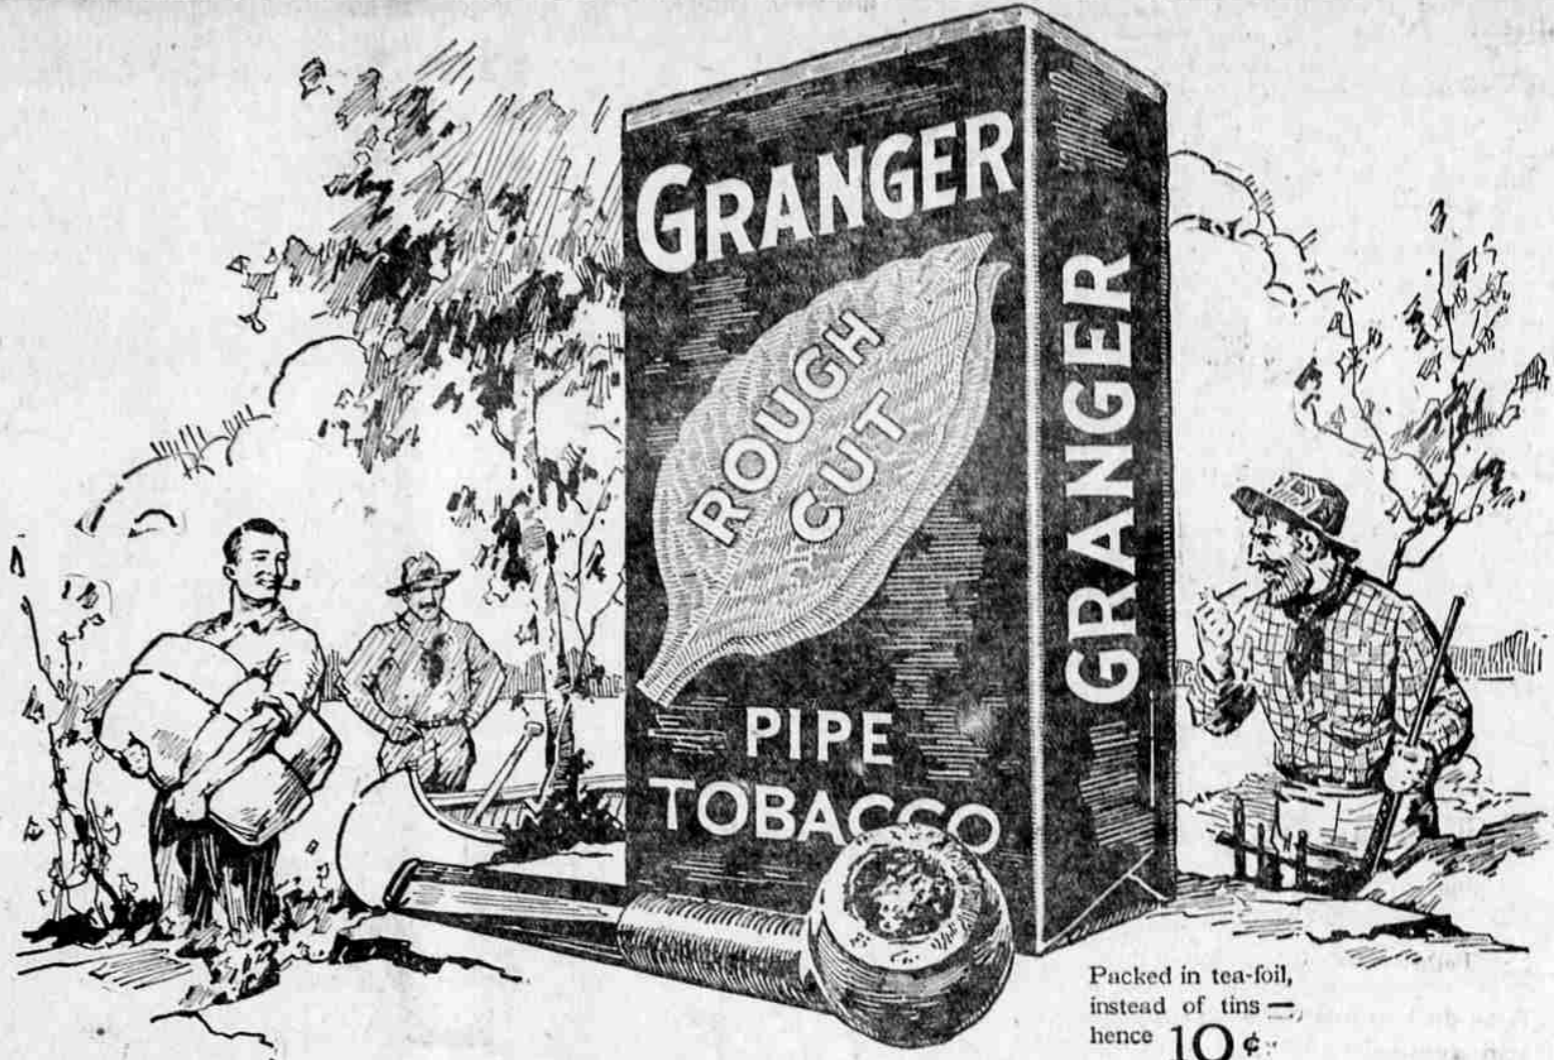

New Thrills "Love philter parties—bachelorette orgies—have been common among the searchers for the elusive new thrill.

"Neurologists are treating increasing numbers of a morbid condition due to excessive use of the aphrodisiac."

Youth Held Maurice Daring, 25-year-old son of a wealthy widow, is under arrest accused of murder as the result of the death of Ethel Wheeler of Harrington Park, N. J., wife of a New York department store buyer. An overdose of a drug which cost 25 cents was given her in a drink at a road house, the authorities say. Her friends insist she intended the dinner to be her farewell to Daring.

Mrs. Eleanor Daring, who lives in New York and runs a restaurant, said that both her son and Mrs. Wheeler took the drug in coffee for a lark and that both became ill.

It's a lucky June bridegroom who gets a good looker and a good cooker.

Just about the last word in pipe comfort

Here's a tobacco that's made for pipes—and pipes only! First of all it's fine, old Burley, mellowed by Wellman's famous old 1870 method; and on top of that it's specially cut for pipes—cut coarser (rough cut) so that it burns slower and smokes sweeter and cooler. Pack your pipe with Granger and see if you don't agree that "for pipes it's mighty near perfect."

Favoritism in Rates Charged

PORTLAND, Ore., June 25.—The Portland electric power company sells electric "juice" to the company lines at 1 cent a kilowatt hour, a lower rate than that charged the Southern Pacific and Oregon Electric companies, according to the testimony this morning by E. W. Moreland, statistical engineer for the P. E. P. company at the public service commission hearing on the petition of the housewives council for a five-cent street car fare.

Testimony which followed compared wages paid by the Portland railway with those paid by street railway companies in other cities.

NO POLITICS IN PROHI SHAKEUP

WASHINGTON, June 25.—(AP)—State and local political influences are to be shoved aside in filling new administrative posts in the prohibition enforcement organization, it was indicated today at the treasury. It was freely predicted that the assistant secretary would file many of the 22 divisional administrative posts in the continental United States with men from districts other than those in which they will serve.

Congressional influences in the past weighed heavily in the selection of federal directors for state and in the selection of many other subordinate officials and the treasury has not been satisfied with some of the men thus named.

Mr. Andrews said today he would not retain men whose integrity was questioned and who did not measure up as producers of results. The whole list of present officers will be gone over before the new system goes into effect.

To obtain the type of administrators he seeks, the assistant secretary has asked Comptroller General McCarl for a ruling on the salary question. It is understood he intends to pay as high as \$10,000 annually for some of the posts.

BAIL DENIED

NOBLESVILLE, Ind., June 25.—(AP)—The petition of D. C. Stephenson, Earl Klinek and Earl Gentry, asking that they be admitted to bail pending their trial on a charge of murdering Miss Madge Oberholzer of Indianapolis, was overruled today by Judge Fred Hinz.

Vernon Moore Having Big Time on Construction Job in Alaska

Vernon Moore, Klamath high school graduate and well known in the city, is having the time of his life while employed in railroad work in Alaska, according to a letter received by his parents, Mr. and Mrs. A. B. Moore of this city.

The young man is at Moose Pass, via Seward, and while he is not working he is out trying to bag bear, mouse and wild fowl.

In his letter to his family, Vernon gives his experiences something in the form of a diary, as follows:

Arrived here June 4th and helped put up camp after driving a truck 20 miles from a railroad and worked until 9 o'clock. I saw several sheep and goats.

June 5th, I helped fix up camp and dragged in some wood with the "cat". Went bear hunting after supper. Saw a nice big black bear 200 yards away and shot at him, but missed him.

June 6th, Worked on the ditches. Wet feet; mucking; blisters on my hands and knees; saw one cow mouse and little calf. After supper I saw a bear 4 miles off on a mountain. I went after him but never saw him again.

June 7th, Mucked today and went bear hunting after supper; saw a big black bear 400 yards off but did not get him; saw lots of ptarmigan.

June 8th, Mucked today and went bear hunting after supper, never saw anything.

June 9th, Mucked today.

June 10th, Mucked today. It rained a good deal.

June 11th, Mucked today. The food is fine and the climate healthful; the bank is fine and warm. The elevation here is 2500 feet; snow is close and the ground is frozen. Spring is just around the corner. I have been straw boss some of the time. It means you're one of the bosses but you work like slaves. There will be work here until late next fall. There is nothing but game here, so please send my rifle as I want to do a lot of hunting.

Klamath friends of Vernon who wish to write to him can address his mail to:

A. V. Moore, Mile 29, Moose Pass, Alaska, via Seward, in care B. P. R.

Telephone Girl Called Heroine

BEND, Ore., June 25.—Elsie Augustine, substitute night operator, is given credit for the early control of the fire at Prineville yesterday morning by J. L. Gaither, manager of the Pacific Telephone and Telegraph company for Deschutes and Crook counties. Mr. Gaither returned to Bend this morning.

Miss Augustine discovered the fire which broke out in the newspaper office directly adjoining the telephone office and in the same building, with smoke pouring into the room where the switchboard was located. She stuck to the board, calling all of the firemen and also officers of the Masonic lodge, whose lodge rooms were directly overhead.

Miss Augustine also called Mr. Gaither in Bend, warning him that the telephone equipment was threatened. He made the 35-mile trip to Prineville in record time stepping into the office 58 minutes after the operator had called him at his home here.

"I shall certainly make a very special mention of Miss Augustine's level headed work when I make my report."

Gaither said this morning, "She stuck to her board until every one affected was called. She was only a substitute on the night board, the regular operator being on her vacation. Miss Augustine has been with the company only about a year."

The telephone equipment was undamaged but holes were burned through into the walls from the office of the Central Oregonian, where the fire originated and where more than \$5000 worth of damage was done to the machinery, according to late estimates.

FRENCH REPULSE

FEZ, French Morocco, June 25.—(AP)—Today's official communique said French repulsed the Rifians in two actions yesterday. In one case a French column advanced in the Tereual region, defeating the attacking tribesmen. In the vicinity of Ain Maatou, French air and ground forces cleared out the Rifians who had moved into that.

One thing about bathing suits is you no longer have to take a girl at face value.
