MEXICO INSISTS ITS RAILROADS OPERATE MORE ECONOMICALLY

MEXICO CITY, (AP)—After months of negotiations with the various railwaymen's brotherhoods over wage scales and working conditions, the department of communications has fixed the annual budget of the national lines at 78,000,000 pesos and formulated plans to slash expenses, cut salaries and reduce personnel to bring the lines' operating cost down to that figure. The 1924 budget was approximately 105,000,000 pesos.

A reduction in freight rates is scheduled as soon as the lines begin to show a profit.

Included in the current reorganization is the cancellation of more than 8,000 annual passes and a presidential order against the giving of trip passes which, in past years, have reached staggering totals.

LAUNDRY USES PLANE

'Use of an airplane for delivery service, a new wrinkle at least as far as local firms are concerned, was instituted here when the New City Laundry hired a plane here to deliver a basket of launry to the Siskiyou Lumber company of Jerome, California, 40 miles distant by air. The hurried trip was made necessary when the driver here missed the train. Landing at Siskiyou was made without incident in a sagebrush field.
