

Kentuckian Wants Wild West Ponies

OLYMPIA, Wash., July 10. (AP)—Indicating a possible shortage of horse flesh in the blue grass state, A. R. Campbell, a merchant of Howell, Ky., has requested biological survey officials here to ship him two carloads of wild ponies from the ranges of eastern Washington. Mr. Campbell has learned thru Associated Press reports, he declared, that the ponies are so numerous in Washington that an interprising rent of the horse heaven country is serving them as hog feed and estimates that while horses may be considered "Back numbers" in the far west, they still find favor in Old Kentucky. He offers about \$2 over the hog feed price for three year olds, or \$5 each, provided they are in good flesh.

Judicial Council Will Convene Soon

City Workers In Rio Talk Strike When Wages Stop

RIO DE JANEIRO, July 10. (AP)—The municipality faced trouble early this month when 6,000 employees threatened to strike on account of unpaid wages. A committee recently was appointed to talk with the mayor, who promised to improve conditions. He later arrested the ring-leaders of the movement, and placed federal troops on guard at the city hall to stop trouble.

The office of the treasury stated that the city payroll was unpaid for April and May, the wages due certain departments totalling \$1,000,000. The treasurer's office unofficially says that this money was used to pay obligations due on foreign and domestic debts.

The city treasurer has started to liquidate unpaid salaries, the city promising to have the payments completed at an early date. The men accepted the promise and returned to work.

Device Aids Blind

To Read By Sound

LENINGRAD, July 10. (AP)—Professor Rosing, a famous oculist of this city, has invented a new device by means of which it is claimed the blind are able to orientate themselves and to read. In this apparatus all daylight effects are replaced by sound. Experiments carried out in the Leningrad Institute for the Blind showed that the children, af-

ter the use of the apparatus was explained to them, were able by the different shades of sounds to define many articles in the room and to recognize persons who were passing them.

Professor Rosing is working to perfect his apparatus and is also evolving a new radio apparatus for transmitting graphic images at a distance. By means of this apparatus, Professor Rosing says, every let-

ter of the alphabet will be expressed by different sounds. So far he has succeeded in contriving definite sounds for 18 letters and is hopeful of succeeding in his ultimate task.

Merchants

There will never be a better time to put in that extra counter or build a new show case, or possibly it is some new shelves you need.

The Fourth is over and now while things are not so rushing you can put these different things in and be ready for the rush that will be here soon.
