Bob Coyne to Raise and Train Polo Ponies at Edgewood Ranch

Will Klamath county become the supply point for the best polo ponies in America?

That question will be answered in the affirmative to the plans of "Bob" Coyne are successful. Coyne is the owner of the Edgewood ranch and without much fuss or feathers has been spending thousands of dollars to make it one of the show places of the county. He has recently shipped in six tractors and a carload of farming equipment to be used in bringing his property up to the degree of perfection he has mapped out for it. In addition he has crews of painters and decorators refitting the home place and painting the barns and other buildings on the ranch.

When he was here the early part of the summer he conceived the idea that Klamath county would be an ideal place for raising polo ponies, using the range horses for that purpose. With that end in view he was brought to his assistance the expert advice of Fernando Michel, who for several years was in charge of the polo stable of Marco Hellman, the Los Angeles capitalist. While handling the Hellman ponies Michel carried off all of the first prizes at the various horse shows. Michel is recognized in polo circles as leader in his line, so much so that he says Coyne's idea is feasible if he will assure the proper success.

Coyne and Michel arrived here yesterday from Los Angeles and today are at Edgewood looking over the horses owned by J. Frank Adams with a view to passing upon their availability. If Michel approves of them the probability is that all of them will be purchased and transferred to Edgewood.

It is Coyne's theory that to get a good polo pony he will have to be bred from stock that is quick and fearless. It is his contention that only among the range horses can such stock be found. It is his belief that Klamath county horses are possessed of the requisite qualities to a greater degree than those of any other section of the coast, and it is his judgment as confirmed by Michel that his project will be launched immediately.

Associated with Coyne will be such men as Jack DeBeaufort and Captain Fish, the latter internationally known as a polo referee and expert.

Crude Attempt At Poison Made

STANFORD UNIVERSITY, Calif., July 11.—(AP)—Stanford University authorities announced today that a quantity of quick acting poison in powder form was found last night in the sugar bowls on the tables in the janitor's dining room on the university campus. The discovery was made as the janitors, 26 in number, were about to eat their evening meal and before any one had used the sugar.

The poison was analyzed in the chemical laboratory of the university and the Santa Clara county sheriff's office was notified. Police investigators characterized the poison attempt as a "crude job" and said that it was probably the work of some disgruntled employe. The janitors are obtained through the American Building Maintenance company of San Francisco.

Beautiful Eyes

Are Admired by Everyone —BUT Squinty Eyes, Eyes With Red or Inflamed Lids, Are not nice to look at. Glass wearers usually have bright, clear, snappy eyes, showing that the strain is relieved. Come in and let us tell you the cause and remedy.

Last Service in Church to Be Tomorrow

Work on New First Christian Edifice Starts Monday

The Rev. W. E. Bobbitt tomorrow will deliver the last service of the First Christian church in the building on Ninth and Pine streets. Construction work on the new First Christian church will start Monday morning.

Whether or not there will be services of the First Christian church during the summer has not been decided. Mr. Bobbitt with his wife, leaves Monday morning for Yellowstone Park on an extended vacation of six weeks. If a pastor can be secured for the summer and suitable quarters rented, services may be continued during the summer, Mr. Bobbitt said today. However no definite move has been made to that end.

The new church will be constructed on the site of the present church building. Work on the tearing down of the roof of the new building will be started Monday.

WOMEN'S SHOES OF LIZARD SKIN BECOME POPULAR IN LONDON

LONDON.—(AP)—(P)—Lizard farming in England has been greatly stimulated within the last few months since the skins for women's shoes have become fashionable. Lizard shoes for street wear have become very popular in London this summer and lizard slippers for evening wear have been quite the fad for some weeks.

Dealers say lizard skin shoes are here to stay as the material is serviceable and comfortable and not nearly so expensive as is usual when a new idea is introduced. Lizard skin shoes retail here at from \$15 up.

ENGLISH ACCOMPLISHES MORE THAN AMERICANS, SAYS LADY BOWER

PLYMOUTH, July 10. (AP)—That Americans are a lot slower than the British is the opinion of Lady Nott Bower, who was one of the delegates to the National Council of Women at Washington.

"The Americans run about a lot," she said on her return to Plymouth, "but they don't get as much done as the English do."

All the returning English delegates to the council were enthusiastic about the reception which they received and the hospitality shown them while they were in America and Canada.

Mrs. Ogilvie Gordon, the first vice-president, said the women's movement was advancing by leaps and bounds in America and immigration conditions were likely to improve owing to the efforts of the conference.

Women have a hard life. The model girl is built for speed and the model wife for comfort.

Never Talks

Fuller Shellenberger, life prisoner at the Nebraska state penitentiary hasn't spoken one word for 19 years. This is because he "talked himself into prison," confessing a murder when he thought he was dying, only to recover and be convicted and sentenced to life.

Pelicans Will Clash Against Dunsmuir Nine

McNealy, Second Sacker, Missing; Watts May Start in Place

McNealy, flashy second sacker of the Klamath Falls Pelicans, has disappeared. Manager Fred Glover was searching frantically for his star but up to a late hour this afternoon could not locate McNealy.

Manager Glover was also searching for A. E. Street, whom he wants to start against Dunsmuir in the game on Fair Grounds field tomorrow afternoon at 2:30 o'clock. It is rumored that Street will be found but that McNealy will not.

It is the intention of the management to start Street in the box tomorrow. The wiry right hander will groove them into the glove of DeMitt, who will hold down the receiving position.

Arnold will hold down the first sack, as usual. McNealy, if found, will play second, and if not found Watts will cover the keystone position. Bayness will frolic at third and Norwest will probably play short stop. The outfield will be: Matthews, left field; Noel, center field, and Booth, right field.

With one victory against Dunsmuir to its credit, Klamath Falls hopes to score another victory against their Northern California neighbor. The Pelicans now stand in second place and are striving to amass wins sufficient to press the leaders closely.

Calling a spade a spade was once considered bold. But now they often are called plows.

Mexican Heavyweight Stages One More Framed Fight; Under Arrest

YUMA, Ariz., July 11. (AP)—Tony Fuente, Mexican heavyweight boxer whose ring career has been marked by several collisions with the law, and three others awaited in the county jail here today the outcome of their latest trouble. Fuente, and his opponent, in a fight here last night, a boxer who posed as Sailor McCarthy of Los Angeles and their managers and the promoter were arrested and charged with violation of a state law against staging "framed" boxing bouts. McCarthy, who is believed to be Nick Newman of Los Angeles, escaped.

Besides Fuente those in jail are Charley Garcia, promoter; Al Lopez, Fuente's manager; and Pop Nealis, manager of McCarthy. The trouble started when McCarthy's seconds tossed up the sponge in the second round. The spectators who had been booing the fight from the start, were swarming toward the ring when officers interfered and arrested the five. McCarthy escaped by hiding near an ice plant and catching a freight train out of town.

It was a short battle. A little preliminary sparring and Fuente rushed McCarthy to the ropes, striking the Los Angeles man on the back of the head several times. The bell saved McCarthy.

McCarthy's seconds tossed up the sponge when the bell clanged for the second round.

Receipts of the show were seized by the city council.

Last year, Fuente was matched with Fred Fulton at Culver City, but a sudden "flip" by Fulton early in the fight caused the arrest of principals and managers and they later were charged with violating California's law against "prize fighting."

Roseburg And Bend Have Weekly Tests Of Water Supplies

REDMOND, Ore., July 11.—Bend and Roseburg are the only towns in Oregon which have regularly weekly tests of the municipal water supply made by the state board of health. This was the statement of Dr. William Levin, director of the laboratory of the state board of health, before the homemakers' institute here. He gave two talks on individual and community health under the topic "Health crops and their harvest."

Good health may be purchased and the health of the community reflects the money which has been expended upon it, Dr. Levin said. Communicable diseases have been decreased 50 per cent during the last 20 years, largely through proper control and methods of prevention.

DUBLIN.—(AP)—While all American citizens traveling to Free State ports from New York must have a Free State visa, arrangements have been made by which travelers from any other American port may land in the Free State on a British visa. The extension of the New York arrangement to the other trans-Atlantic ports of the United States, however, is contemplated.

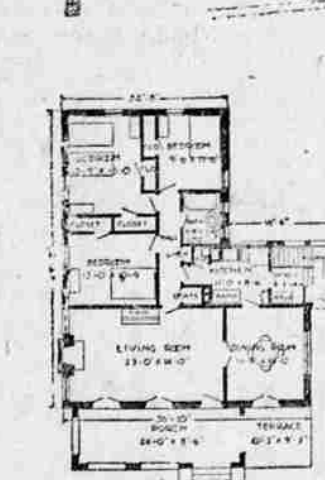

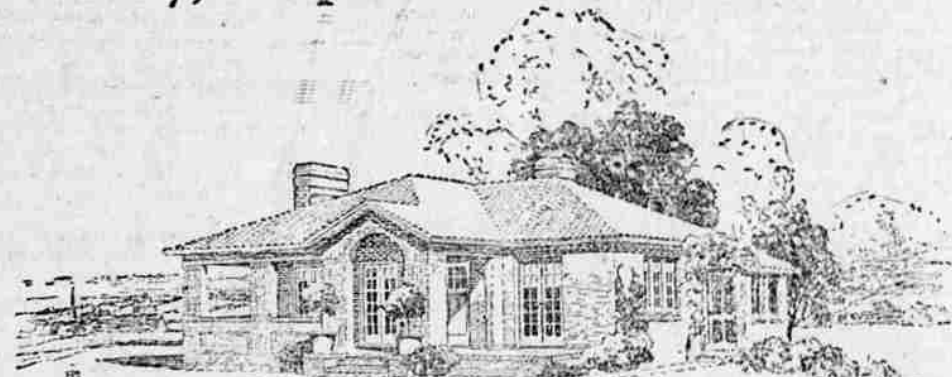

Costa Rica has been given its first communication with the outside world on its Atlantic coast through a telegraph cable laid to Panama.

A Cozy, Simple and Attractive Home

House No. 610
Designed for American Face Brick Association

THE popularity of the one-story house continues unabated in all parts of the country. The artistic possibilities in houses of this character have not always been realized, but in the last few years more and more charming bungalows are being built.

Take the house illustrated. The architect has produced a beautiful and interesting exterior without piling on a lot of meaningless ornament. Its architectural merit lies in its mass and proportion, the pleasing lines and surfaces of the hipped and tiled roof, and the attention that has been given to the details. Note especially the beautiful entrance shown in the detail drawing.

The scheme of brick work could best be carried out with a rough-textured face brick, laid in a wide mortar joint. This would bring out the artistic pattern work in the walls, steps and piers.

While this house would suit almost any lot, the builder should well consider its immediate surroundings. Its neighboring houses should be built along low lines and not too close. Shrubs and flowers and vines

around its base would set it off to best advantage. A single tree at the front of the lawn to cast its shadows across the red-tiled roof would add a touch of protecting camaraderie, quite indefinable.

The interior of the house is much more spacious than one would think possible. The six rooms are all adequate in size and their arrangement is exceptionally convenient and economical. There is not an inch of waste space.

The three bedrooms at the back of the house, each with a large closet, communicate with the bath by a common hall in which are found convenient closets for linen and wraps.

The kitchen, just back of the dining room and convenient to the front door, is compact and well appointed. It has an enclosed porch from which the stairs to the basement descend. A fine sleeping porch could easily be added at the side of one of the corner bedrooms.

The basement has a laundry, heater, coal bins and a vegetable cellar, besides general storage space.

Do You Need Money to build that home

If you own your lot, and have some money, we can loan you half the value of building and lot combined, payable like rent. Monthly payments. Make your arrangements now, before the spring rush begins, so that your dream home may be a reality before snow flies again.

There is no quicker way of making money than by real estate investment in a growing town. You are in the growing town—the rest is up to you.
