GENERAL ELECTRIC

ORDER HEARING ON R. R. RATES

WASHINGTON, July 14.—(AP)—Taking cognizance of petitions of western railroad for rate increases the I. C. C. today ordered special inquiry into the agricultural and transportation situation in the west.

The hearings will begin at Chicago September 1, before Chairman Atchison of the commission.

Petitions for increases were filed as briefs in answer to the commission's inquiry under the Hoch-Smith congressional resolution which directed a revision of the general rate structure if the commission found such a step necessary.

The commission declared it should first confer with the western districts for the reasons: To determine what products of agriculture increasing livestock are affected by depression.

"To determine whether any rates, fares or charges, either on particular classes or kinds of commodities or classes of traffic in particular sections or between particular localities in the western district or otherwise may lawfully be used or required to be increased and also to what extent in order to compensate for such rate reductions, if any, as may be found proper.

BRITISHER WINS
PUTNEY, England, July 14.—(AP) Jack Beresford, Jr., English champion singles sculler, today defeated the challenging oarsmen, Walter M. Hoover of Philadelphia, in a special race over a course of 1 3/8 miles here for the gold challenge cup.

Beresford won by three lengths. Beresford, present holder of the cup, had previously announced he would return it to America whether he won or lost today.

You must make your own way to really have.

"To determine whether any rates, fares or charges may lawfully be authorized to be increased in order to affect such increases in the revenues of western carriers as may be found proper.

New Lightweight Champion Crowned

Jimmy Goodrich of Buffalo Wins Title in Battle Last Night

NEW YORK, July 14.—Jimmy Goodrich of Buffalo, N. Y., unknown and unheard of as a boxer a year ago, today is lightweight champion of the world.

The title was acquired by his defeat of Stanislaus Loayza of Chile by a technical knockout in the second round of a 15-round bout at Long Island City last night.

Goodrich succeeds Benny Leonard, who retired in favor of the winner of a lightweight elimination tournament ordered by the New York state athletic commission.

Goodrich pummeled the Chilean with heavy rights and lefts at the start and floored him five times during the first round. Loayza fractured his right ankle in a fall and hung on to the ropes with one hand while he sought to stave off punishment with the other. His seconds tossed a towel into the ring after 35 seconds in the second round.

TILDEN WINS

ST. LOUIS, July 14, (AP)—William T. Tilden, II, of Philadelphia, defending champion, defeated Charles Barac of St. Louis, today in his first match in the national Clay court tennis tournament, 7-5, 6-2.

WINS YACHT RACE

ROTHESAY, Scotland, July 14.—(AP)—The six meter yacht Lanai won the third race for the Swanwick cup here today.

The American challenger has won two races to the British defenders' one.

WALKER MUST FIGHT

NEW YORK, July 14.—(AP)—Mickey Walker was ordered today by the New York state athletic commission to fulfill his recently signed agreement to fight Dave Shade here for the welterweight title.

AMERICANS WIN

PARIS, July 14.—(AP)—Charlie Paddock of Los Angeles and Loren Murchison of Newark, N. J., won the 100-meter and 100-yard dash, respectively, in the University of Paris meet at the Paris suburban stadium today. Paddock's time for the 100 meters was 10 4/5 seconds. Murchison made the 100 yards in 19 1/5 seconds.

A Pennsylvania physician has invented a valve to be inserted in an automobile tank cap to which a pump can be connected to compress the air and convert gravity feed into force feed when the fuel runs low.

HEAT WAVE IN EAST CONTINUES

CHICAGO, July 14.—While many areas of the country continued to swelter under a tenacious heat wave, the weather man varied his offerings yesterday in a rather surprising manner with a short fall of snow at Blacksburg, Va. The white shower followed a thunderstorm and lasted five minutes.

The weather freak brought no comfort, however, to the parched summer lands of the middle west and the Rocky mountain region where thermometers were apparently in ace to overstep the century mark. Phoenix, Ariz., a veteran in temperature climbing, again led the country yesterday, 112 against 104 for North Platte, Nebr., the midwestern high point. Temperatures ranging from 90 to 100 were noted throughout the humid area.

The death toll continued to mount. 14 additional fatalities from the heat being reported. In addition five persons were killed by lightning and three were drowned. Twenty or more were prostrated.

Storms brought some respite around Omaha and Sioux City. The corn crop in Kansas was badly hit and forest fires were causing apprehension in Oregon.

Lying Is Needful To Civilization

HONOLULU.—(AP)—Falsehoods are necessary to the maintenance of civilization, in the opinion of Dr. Herbert Goddard, psychologist of the University of Ohio, as expressed in a talk recently before a large gathering at the Nuuanu Y. M. C. A.

People could not live together if the world adhered to the principles of "the truth, the whole truth and nothing but the truth," he added.

"We could not have a group of people, consequently no cities, towns or communities, if we told the truth all the time. We must tell lies. We have to be honest, but at times it is necessary for us to lie for the welfare of the community."

He illustrated his conviction by recalling a wager between two men, one of whom declared he

could refrain from falsehood for a period of 24 hours. The men visited the home of a friend where one of the daughters was playing the piano.

happen to anyone who endeavored to tell the truth, the whole truth and nothing but the truth."

"The playing was very poor and when asked his opinion of the music the man answered that it was 'punk,' whereupon he was kicked out of the house," Dr. Goddard said. "This situation continued throughout the 24-hour period and would be what would

An Austrian inventor claims to have improved the tone of a violin by mounting one foot of the bridge in the usual way and carrying the other through to the back to make both front and back vibrate.

RACINE MULTI-MILE BALLOON TIRES

No Axe to Grind

Perhaps your tire problem has to do with air pressures; perhaps you wonder whether you should equip with low-pressure tires of standard size, or balloons.

We are in a position to advise you fairly and without prejudice because Racine builds—and we sell—both kinds.

Moreover, both kinds equally uphold RACINE'S reputation for building first-quality products only.
