Magic

SUMMER is a wizard
Full of secrets strange,
Waving of a magic wand,
Saying "Presto, change!"

Making flying creatures
Out of crawling things,
Turning foolish little eggs
Into birds with wings.

Pulling secret petals
Out of tight green buds,
Pouring daisies on the fields
In enchanted floods.

Summer is a wizard—
This much I can guess,
Who have had my discontent
Changed to happiness.

Colors

COLORS are like people
Gay or quiet,
Aggressive or receding,
And some colors are
Exceedingly beautiful like the
Souls of very noble persons;
They vibrate very delicately
And he who beholds them
Is filled with great joy.

PROPER USE OF HANDS AND FEET

According to leading casting directors of Hollywood, California, the hands and feet, how and when they move, are of much importance, in fact more so than faces and their expressions.

Almost any person can be taught to register certain standard emotions, such as grief, joy and fear, according to Director Robert C. Vignola, but only a real actress knows what to do with her hands and feet and how to do it naturally.

The result has been that Vignola and his staff are now directing their first inquiring glances no higher than the waist lines of film applicants. In other words, if the hands and feet are not perfect, the face is considered.

YOUNGER GROUP ENJOY SWIMMING PARTY

PURPLE POPULAR FOR FALL

Purple will be a favored color this fall.

An interesting little hat reported from Vienna is one of white Florentine straw faced with sky blue silk. Around the upturned brim are painted little flying birds in colors. With this hat is worn a white crepe de chine scarf which has a medallion painted on one end that also uses the flying birds as motif.

Much importance will be given to the coat as a garment this fall, for whereas during spring and summer coats have been required to fall in with the dress in color and line, fall coats will be distinctive and colorful, and will themselves demand harmonizing dresses. The afternoon coat, in particular, will show great variety of material ranging from heavy lustrous silk and rayon, broadcloth, velour, ottoman, to chiffon velvet and heavy leather satin, trimmed with fur and occasional metal.

The shawl collar will be popular, and the godet or flare line at the front or sides. The leading colors are green and rich brown, with black, embroidered or otherwise ornamented for a background.

JUST HINTS OF FASHION

Fur coats this winter will show the flare effect. In Hudson seal the flare appears at the front, and some models show this section at the side and all around. The shawl collar and straight sleeve are popular.

Another novelty in fur is the pelt dyed to match the gown or wrap. This has been exemplified in a cloak trimmed with rabbit dyed a bright dark blue.

Soft collapsible snows, wide Alaskan bows across the front or back to give width, the facing of the brim and exotic flowers are seen.

The silhouette frequently shows a draped effect in front. Many Paris designers are showing silhouettes with back fullness.

Many of the midsummer and early fall hats will be of white kid, cut out in conventional motifs with bright colored velvet inlaid. Another model shows stitched velvet used with kid brim faced in the velvet and is trimmed with little kid quills.

A JEWELRY CHAT

A perfume ring is of onyx adorned with pearls and platinum.

Silver buckles adorn black satin pumps.

Rhinestone pins in animal forms are still very popular. There are peacocks, butterflies, alligators, elephants and all sorts of odd-looking animals. Rhinestone bow-knot buckles are quite popular, too.

An odd necklace of a black silk cord has pearls strung on it in links.

A bar pin of gold is set with fine artificial pearls and sapphires. It is a very artistic and finished pin. It has a safety catch.

Cuff links are of 14-karat white gold, richly engraved and set with blue sapphires.

A ladies' ring of an Egyptian design is of antique green gold plated on sterling silver, and is set with emeralds and rubies.

A scarf pin of solid gold is set with a perfectly cut blue-white diamond and a synthetic aquamarine.

A large amethyst, in the center of which is a perfectly cut blue white diamond, is securely set in 14-karat white gold for a lady.

A platinum front bar pin has a white gold back and is set with a blue white diamond and two blue sapphires.

Long, dangling earrings are a combination of pearl and jade with gold mounting.

A ladies' wrist watch is of 18-karat white gold and is a guaranteed 16-jewel watch, mounted with four blue white, perfectly cut diamonds and two rectangular blue sapphires. Its beauty is greatly enhanced by the patinum finish engraved dial and artistic numerals. It has a fine mesh flexible bracelet which is smartly designed, and a buckle.

A sterling silver thimble has a band of cloisene enamel.

Diamond and onyx pins are to be worn on each side of the part in the middle bob, where they serve the pearls used between as rondels.

—and caught at the sides with rhinestone emerald, sapphire or ruby effect clamps. They are mounted on sterling silver.
