

Why Not Try Prevention?

Why wait until you have to call in the doctor. Why not find out today about the condition of your teeth. Your doing so may prevent years of illness. More than one chronic ailment has been traced directly to a diseased tooth. We can tell you the truth about your teeth in a few minutes—and it costs you nothing.

Travel To Crater Lake Is Heavier Than Last Season

MEDFORD, Ore., July 22.—Travel to Crater Lake for the first half of July was eight per cent heavier than last year, when a new record was established, and the Medford entrance is leading the Klamath entrance by a large majority, according to a report issued today by Superintendent C. G. Thomson. Mr. Thomson also states that 20 per cent of the women going to the lake this year are unescorted, which he considers an unusual feature. To July 17, 5385 cars had entered the park containing 18,392 people. This total is less than the total last year on the same date, due to the fact that the park opened three weeks earlier in 1924.

Climbing

Capt. A. H. McCarthy, U. S. N., is leading an expedition that is trying to scale Mount Logan, the highest unscalped peak in Canada. It is directly north of the Yukon-British Columbia line.

Wealthy American Missing In London

LONDON, July 22. (AP)—Scotland Yard today issued a description of Professor Joseph Victor Collins of Stevens Point, Wis., who disappeared last night.

His wife and daughter, who are here, express great anxiety because he carried a large amount of money in travelers checks. Professor Collins had just returned from Scotland and apparently got lost, never reaching his hotel in London.

GRAYS RETURN

Mr. and Mrs. Charles Gray Return From Extended Tour

Mr. and Mrs. Charles Gray have returned to the city after an extended tour of Texas, Kansas, Missouri and Wyoming, where they have been visiting since last March. During their visit, to the southern states they found tourists from all parts of the country motoring, but traffic was not nearly as heavy as it is through the western states, according to Mr. and Mrs. Gray. Enroute home they encountered very hot weather in a number of places, the heat at Needles, California, a week ago last Sunday registering 128. After a few days' visit with their son-in-law and daughter, Mr. and Mrs. Douglas Puckett at Rocky Point, they plan to motor down along the coast, to look over business possibilities, planning to perhaps locate in some coast city.

OBITUARY

CECILIO GARCIA

Funeral services for Cecilio Garcia, Mexican laborer who was drowned in Klamath lake while swimming last Sunday, were held today at 10 o'clock at Whitlock's parlors. The Rev. Father Looser officiated at the services. Only known relative to survive the deceased is a brother residing in Juarez, Mexico.

At the PINE TREE

For just the same reason that "Helen's Babies" has such unprecedented success as a story so will the picture "Helen's Babies," starring Baby Peggy, follow in the path broadened by this John Habberton novel, run of forty years in the world's literary field. Like the story this picture is effused with that incomparable atmosphere of sunshine in a happy home. It digs right deep into the very marrow of one's bones and into the innermost recesses of one's heart. It makes the family man proud of the fact that he is a family man. It causes the heart of the lover to palpitate even faster. The most confirmed bachelor or spinster it exhilarates, and yet at the same time imbues with a yearning to fill the gap in their lives with God's greatest earthly gift—a fideside and a Toddle like the one which Baby Peggy so beautifully essays in the picture "Helen's Babies". The picture is now at the Pine Tree theatre.

A combination of variety will be seen at the Pine Tree theatre today. The headline attraction is the Sue Emerson Revue in "Bits of Variety," Rouble & Bentley vocalists and musicians. Dorris & Meyers, a versatile pair of comedy delineators. Gene Fowler, the "Act different".

At The LIBERTY

The newest Jack Hoxie picture, "A Desert Bridegroom," began yesterday at the Liberty Theatre.

The picture was given an enthusiastic reception, which it assuredly merits, as it is as clean-cut and gripping a western melodrama as has reached here in a very long time.

Jack Hoxie is a fine up-standing youngster whose performance is marked by a very evident sincerity. Not only is he a clever actor but he is a remarkable physical specimen as well.

TO FEATURE CITY
Klamath Falls and Vicinity to be Featured in Magazine

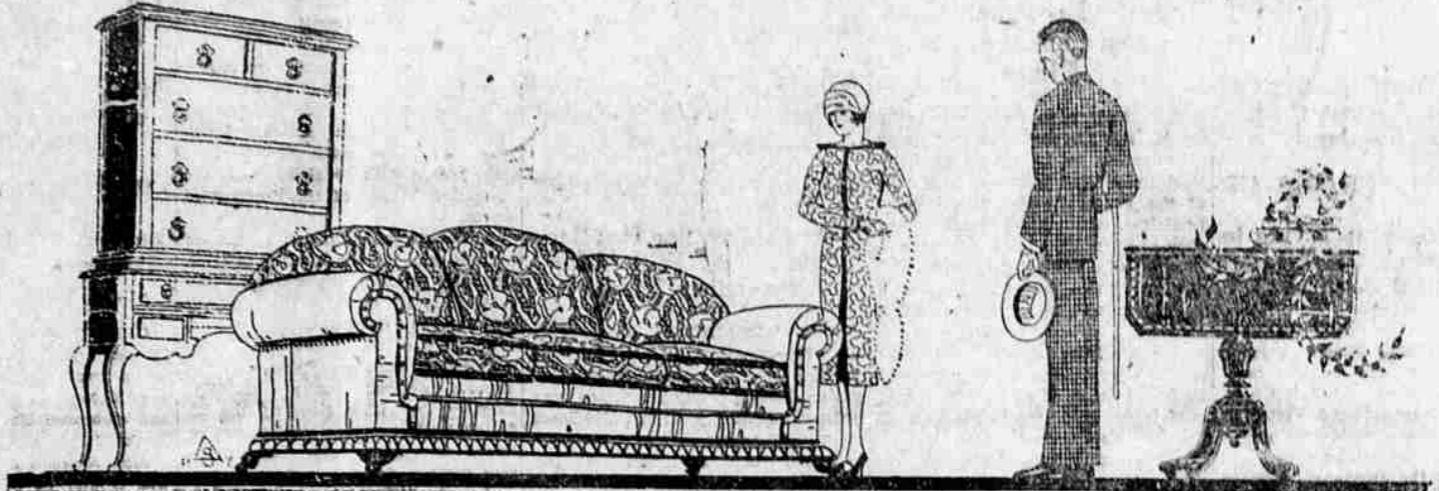

Views of Klamath Falls and the surrounding country will be featured in the September issue of "Oregon Business," according to word received by the local chamber of commerce yesterday, from the editor of the magazine. The cover of the magazine will carry some views of the cities industries or country, whatever the local chamber of commerce might choose to send.

Milk Aplenty for Dr. Hainisch
JAUERN, Austria — (AP) — Dr. Michael Hainisch, president of Austria, has the honor of owning the champion milk-producing cow of his country. Bella of his herd, from May 7, 1924, to May 6, 1925, produced 2683 gallons, an average of more than seven gallons a day.

FROM FORT KLAMATH
Harry Baum of Fort Klamath was a business visitor in the city yesterday.

Natron Cut-off Needs Men, Is Report In Eugene

EUGENE, July 22.—The shortage of labor caused by the hot weather and the number of men quitting for the Fourth of July is still being felt by the Southern Pacific in its Natron cut-off construction, according to men in touch with the situation. Many employes are being sent from Eugene to Oakridge on the promise that they will be hired on the job.

Many of the railroad workers left to become harvest workers and hay hands, and this is declared to partly cause the shortage of construction workers. The hay hands, it is reported, receive from \$3 to \$4 a day, and many of the railroad workers are anxious for a change.

HOKEY POKEY GIRLS ARE INTRODUCED TO COMPLETE WITH LONDON MEN

LONDON.—(AP)—The hokey pokey girl has appeared in London—hundreds of her. The hokey pokey ice cream man arrived three or four years ago, by leaps and bounds, and is now a familiar sight in any part of London, every afternoon and evening during the warm weather. One firm alone has 1500 men, on three wheeled bicycles, who sell ice cream sandwiches for a penny, and recently another firm, with the same conveyance for carrying the ice cream packs, started with young women as dispensers.

The contention is made that girls naturally take more interest in their work, and are capable of making more sales because of their ability to make friends more quickly and to handle the hokey pokey more daintily than their men and boy competitors.

French Africans Add Color To Art Display In Paris

PARIS.—(AP)—The interest taken by France's colonial subjects in the decorative arts' exposition adds to the picturesque aspect of the crowds daily along the Esplanade des Invalides and in the Grand Palais.

Swarthy Moroccan chieftans, Algerians, Tunisians, Senegalese, all in native costume, promenade in and out among the booths and pavilions, pausing to inspect with gravity and awe the various displays. Some have come in connection with the exhibits of the French colonies and protectorates, but the exposition authorities maintain that a far greater number are in the real tourist class, paying their own expenses and following their own programs.

PALESTINE GOVERNMENT TO ENACT ORDINANCE CONTROLLING DRUGS

JERUSALEM, (AP) — An ordinance providing for the control of the manufacture, importation, exportation and possession of "dangerous drugs" soon will be enacted by the government of Palestine.

After defining the use of the words "dangerous drugs" the ordinance provides that any person who exports or imports or facilitates the

export or import of any dangerous drugs shall be punished with imprisonment of not more than one year, or a fine not exceeding \$1,000 or both.

In addition to penalizing offenders in Palestine, the ordinance provides punishment for any person in Palestine who aids the commission in any place outside Palestine of any offense under the provisions of any corresponding law in force in that place.

SOCIALIST DELEGATES URGE LEAGUE'S AID FOR BULGARIA

PRAGUE.—(AP)—A plea for making easier the operation of the treaty of Neuilly as regards Bulgaria was made by delegates Pastuhoff and Neikoff at the recent conference of the Socialist party. They presented documentary evidence of Bulgarian distress under the treaty and declared it was impossible for Bulgaria to pay all its obligations and take up the reconstruction work necessary after the World war.

The Bulgarian delegates pointed out that the League of Nations is helping Austria and Hungary and that, if the league was formed to help struggling nations, there was no reason why some degree of assistance should not be extended to Bulgaria.

It is dangerous for a chicken to cross the road. But not so dangerous as for a ditch to cross.

STATE OF WASHINGTON SPENDING MILLIONS FOR HIGHWAY BUILDING

SEATTLE, (AP)—More than \$17,000,000 are to be spent on Washington state's pay-as-you-go road-building program during the coming biennium. Of this sum it is estimated \$14,500,000 will be available from licenses for motor vehicles, and a tax of two cents a gallon on gasoline; \$2,250,000 from Federal aid, and nearly \$500,000 from forest funds.

Four bridges on the Pacific Highway between Everett and Marysville, in the Northwestern section of the state, will absorb \$1,000,000.

During the past 20 years Washington state has appropriated \$50,000,000 for highways, and received \$10,000,000 from the Federal aid fund, and has 2,465 miles of improved highways to show for its money. Of this mileage 537 are paved and 1,770 gravelled.
