In the meantime he will make a hurried visit into the northern part of the county. Mr. Parker expressed his surprise at the rapid changes and development that is taking place here.

"Though but a few weeks have elapsed since I was here before, I cannot but be amazed at the changes that have taken place. It is apparent to those who are interested that Klamath Falls has at last hit its stride and that it will not stop until it is the city dreamed of for so many years. Constantly in San Francisco and elsewhere in my travels I hear about Klamath Falls and it would seem that it is receiving the attention of every class. Where a city holds the attention of the public in this manner, it cannot but profit greatly by it."
