PLAN TO BLOCK NORTHERN ROAD SEEN IN MOVE

Resignation of Merle West May Start Bitter Fight in Klamath Falls

POLITICAL MOVE SEEN

Council Plans to Delay Special Election to Get 2nd Ward Councilman

"Great oaks from little acorns grow," applies not only to acorns, but, in a synonymous fashion, applies to other things as well. Thus the resignation of Merle West as a member of the city council, insignificant in itself, may be the cause from which will spring one of the bitterest fights in the annals of the city. The cause that will set the fireworks going is an application for the closing of certain streets and alleys between the city heating plant and Lake Ewauna. Those in the "know" claim it is a scheme to block the Northern lines in that part of the city and that lack of it is the time-tried and time-honored political manipulating machine of the Southern Pacific. Be that as it may, the demand for the closing of these streets is by no means unanimous and it will be opposed by a large number of the property owners in that section of the city.

These property owners claim that their holdings will be ruined and in some cases the savings of a life time will be wiped out.

It is at this point that the resignation of West enters. As matters now stand the second ward has no representation on the city council, and if the present plans are to be followed, it will have none. It is the intention of the council as now constituted to refuse to call a special election to choose a successor to West, thus depriving the people of that ward a voice in the affairs of the city, and especially leaving them without any advocate in the matter of the closing of the streets in question, all of which are in the second ward.

Already that part of the second ward in the vicinity of the streets in question is stirred up to a fighting pitch and their sentiments are gradually permeating the other sections of the ward. They say that no objection will be raised if the streets are to be closed for the benefit of the Northern lines, but they will never consent to their being closed for private interests, eventually to find that these have

FARM PROBLEMS ARE DISCUSSED WITH COOLIDGE

Congressional Leaders Visit Him at White Court for Conferences

FAVORS LEGISLATION

Cooperative Marketing Measure Meets with General Approval of all

SWAMPSCOTT, Mass., July 28.—(AP)—Discussion of the agricultural situation between President Coolidge and congressional leaders who are visiting White Court for conferences has revealed a general agreement that legislation in the next congress should be limited to enactment of a cooperative marketing bill. This is the main recommendation of the president's agricultural conferences remaining to be translated into law.

President Coolidge favors passage of a cooperative marketing measure, although he is of the opinion it would be best for congress to work out the details. Senator Curtis of Kansas, the republican leader, when here a week ago, expressed the view that farmers could be best aided by encouraging cooperative marketing.

This opinion was also expressed yesterday by Representative Purnell of Indiana, recommending republican of the agricultural committee, who called on the president.

Reporting to the executive that farmers of the middle west were enjoying prosperity with good crops in prospect for their crops, he said he believed the attention of congress should be centered on cooperative marketing. In the last congress he championed the passage of the McNary-Haugen bill, designed to encourage exportation of surplus grain, but apparently has abandoned his advocacy of the measure.

Too Proud to Beg; Starving Man Is Found

Wilbur Atkinson, Aged 85 Is in Pitiful Plight

ROSEBURG, Ore., July 28.—Wilbur Atkinson, 85 years of age, for 40 years a resident of Wasco county, and for ten years city dump tender at The Dalles, was found this morning helpless and slowly dying of starvation, at a point along the bank of the south Umpqua river within a few blocks of the heart of the city.

For a month he had lain ill with disease and too sick to work and for two weeks had tasted no food other than a clover tea which he brewed himself. His health forced him to quit heavy work twelve years ago, he said, and he remained in The Dalles, tending the city dump for ten years.

Finally he was unable to do that any longer, and with his savings practically gone he came to Roseburg in search of something to do. DIRECTORS VOTE FOR SIGNS

Chamber of Commerce Gives \$100 to The Herald Campaign

Support for the Evening Herald's campaign for street signs was voted unanimously today noon by the Klamath county chamber of commerce directors.

At the urgent suggestion of E. H. Balsiger, chairman of the roads and highways committee, the directors voted to do their bit by purchasing the needed posts for the sign boards. The sum of \$100 was voted today, with the stipulation that an additional sum would be voted later if it were found needed.

"I believe the Evening Herald should be encouraged and supported in its campaign for street signs," Mr. Balsiger told his fellow directors.

Then followed a discussion of streets and street signs and their urgent need in every part of the city.

Time to Act

"We have been talking about these signs for the past several years," remarked A. M. Collier, president. "And now with all this publicity and the people anxious to donate their work and material, I think it is a good time to help put this movement across. It has been on our chamber program for some time."

It was agreed that the posts should be of cedar and should be treated with creosote in order to withstand the ravages of the elements. The telephone company and the power company will be asked to aid with the creosoting of the posts.
