

NOTICE

Owing to our inability to collect for milk delivered to the homes of Klamath Falls residents, we the undersigned distributors hereby agree to retail the milk products handled by us for cash only.

This agreement to go into effect August 1, 1925.

The dairymen of this city are losing many dollars each month through people refusing to pay the milk man. Therefore we are forced to ask everybody to pay cash in advance, as in other cities, for the milk we deliver.

We will consider the 15th of August as the last date for cash settlement for the month of August. Thereafter we will expect all accounts to be paid for on the first of each month. If accounts are not paid by the 10th of each month, we will discontinue the serving of milk and notify the credit association of our action that all dairymen in the city may know.

Boats

Stop and think for a moment on how hard you work when you are trying to row the average boat around fishing. The chances are the man who built it didn't know much about it and the material probably wasn't the best so you had to pull your head off to make it go. Eliminate all that trouble by buying a boat that was built by experts from the very best of materials.

DO GOATS really EAT TIN CANS?

NO, that's just a superstition fostered by the comic strips. And the idea that there is something mysteriously better about "eastern" automobile lubricants simply because they are made in the east and cost more is another superstition—which a majority of motorists in the Pacific Coast states have come to disregard.

No, Nor Do Eastern Oils Lubricate Better
As a matter of fact, the best and most suitable crude petroleum for the manufacture of a motor oil, is obtained from Pacific Coast wells. Zerolene, made from this naphthenic base crude, carefully selected and refined by our patented high-vacuum process, not only costs less but lubricates better.

Zerolene Successfully Lubricates ALL Makes of Cars
If you have been paying high prices for eastern oils—think what a "lubrication census" of the automobiles in any large western city would show: Zerolene successfully lubricating every make of car in use—high priced and low—more cars than any other oil made.

Why Experienced Automobile Men Say—
"Use Zerolene"

Zerolene increases gasoline mileage, reduces carbon troubles, and lengthens the life of the engine; and because it does—automobile agencies and big users of such celebrated makes as Cadillac, Chrysler, Dodge, Lincoln, Oakland, Packard, Pierce-Arrow, Willys-Knight, etc., unhesitatingly say—"Use Zerolene."

Why pay tribute to a superstition? Insist on Zerolene even if it does cost less. Always ask for ZEROLENE by name.

Get the Facts!

A series of independent and impartial reports showing the experience of large users with Zerolene motor oil has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.
