### Power Company Officials And Employees Play Picnic at Savage Ranch on Williamson Big Success

Paul B. McKee, active head of the California Oregon Power company, on a mule yesterday afternoon defeated John C. Boyle, division manager of the Power company, in an exciting race at the Savage ranch where 500 employees and officials of the power company gathered for a Copee picnic.

McKee won as the result of the starter firing the starting gun several times between the mules hind legs.

The home office baseball team from Medford defeated the Klamath division by a score of 6 to 3. But Boyle's Beauties turned around and outclassed the Medford squad in a tug of war.

Approximately 40 made the trip to the Savage ranch on the barge piloted by Al Graham. The rest journeyed by car.

Among the Copee officials present were Paul B. McKee, vice president and general manager; Donald McKee, assistant manager; J. J. Bruchter, assistant general agent; P. O. Crawford, chief engineer; C. A. Swigart, auditor; L. F. Ivashoe, assistant secretary; Jack Kerr, manager of the Josephine district; S. M. Bullis, safety first man; John C. Boyle, division manager of the Klamath division.

## W. L. Douglas Shoe Talk No. 1

There has been lots of talk to the effect that W. L. Douglas shoes consist of the old grandfather comfort type and that it is impossible to buy any of the latest lasts and shapes.

The reason for this mistaken idea is the fact that so many of the so-called older men will not wear anything else. They stick to W. L. Douglas Shoes for the reason that for years and years this superior make of shoe has represented the maximum wear per dollar spent and the maximum comfort to be obtained from any shoe.

The W. L. Douglas shoe has the retail price stamped right on the inside and you can be sure that the price you pay in Klamath Falls is the same that is paid in Brockton, Mass., where they are made. W. L. Douglas shoes are one of the oldest union made shoes to be found in the country.

We have the line complete for your inspection. Snappy young men's models as well as the comfort conservation lasts.

### Pelicans Win From Yreka In Fast Game

The Pelicans trimmed Yreka, 7 to 5, here yesterday because the Skiyon county team failed to give Jones, a real twirler, the proper support. Yreka started off two runs to the good in the first inning, but the Pelicans climbed ahead in the fourth and remained there until the first forged ahead. Klamath came back in their half of the eighth and put the game on ice.

Street pitched good ball until the eighth, when he was replaced by Bay, who lasted quick, and Mohler, who mowed the opposing batsmen down in quick order.

### Users of the

JOHN DEERE HIGH-LIFT MOWER say that this machine is by far the most comfortable to ride, the easiest to operate, the most powerful and most dependable in every respect that they have ever had anything to do with.

One of the quality points of interest to every farmer is the high-lift feature; with the foot lift, the bar can be easily raised from 8 to 11 inches at the inner end and from 25 to 35 inches at the outer end. And with the addition of the hand lift the inner shoes can be raised 13 inches from the ground and the outer shoes 44 inches. The bar is raised to this height quickly and easily.

Under extremely rough field conditions, or where it is not desirable to cut the undergrowth, the inner and outer shoes adjustments can be used effectively to raise the bar.

The JOHN DEERE HIGH-LIFT is built for long life and service. See them on display at
