majority when they are familiar with the necessity. Vitality Urgent. In the matter of sewage disposal we have no choice. It must be done now, and that is why I unhesitatingly recommend that we assume the burden that conditions have unfortunately placed upon us, and that we meet the situation without hesitation.

Water Too Costly
'Doubtless you have noticed, as I have, the lack of trees, shrubs and lawns in our City. After careful enquiry among all classes and in all sections of the City, I have come to the conclusion that this condition is due to one reason, and to one only; that is, the high cost of water for irrigation.

Wires Underground
'Another matter that should claim our attention now is the placing underground of all wires within the fire district. Klamath Falls is on the threshold of great development. Another railroad is knocking at our door and will, undoubtedly, enter Great lumber manufacturers are ready to build mills in our midst. That will mean tremendous increase in population and business development.

'Even today the tall poles and innumerable telephone wires and cables and the high power electric lines are an eyesore to the community and a dangerous menace whenever fire rages in our business district. In this day and age they have no place above ground, and I would urge upon you the immediate passage of necessary legislation directing that they be placed underground within the fire district the expense to be borne by the companies owning the wires.

'This should receive our immediate attention so that the work will be completed before the resurfacing of the streets. To facilitate our labor, I am submitting herewith an ordinance covering this matter. This ordinance is a rescript of the ordinance adopted by the City of Portland some years ago.

Rental for Streets
'I have long been of the opinion that the streets of a city are the property of the people, and that their use for any other purpose except that for which they were laid out should be paid for just the same as if they were the property of an individual. If a telephone company or an electric company use the land of an individual, it would have to

'I wish, further, to call your attention to the City of Bend which voted a bond issue recently for the sum of \$600,000 to purchase and build a municipally owned water system.

'I believe that if we take up these suggestions and carry them to completion, we will have done a work that will stand for all time as a monument to our fidelity and to the conscientious discharge of a trust placed in our hands by a confiding public.'

WOOD
Summer weather has melted down the price of Block-Wood to the extreme bottom. Low summer prices are now on. Don't hesitate but buy your winter's wood now. There will be no cheaper prices. Green Slabs Orders are coming in for that good cheap wood—green slab. Our trucks are delivering the best green slab we have ever sold. Order a years supply of blocks, and green slab, and you are safe—you can get no better wood. Peyton & Co. 'Wood to burn' 601 Main Phone 535
