"Ma" Stribling Watching Over Fighting Son; Is Promoter And Manager As Well As His Chum

SAN DIEGO, Calif., Aug. 21.—Young Stribling, the school boy pugilist, arrived here yesterday in his "bungalow on wheels" on his return trip to Georgia after traveling through 21 states.

Those on the street who noticed the big automobile with "Stribling's" painted all over it, perhaps also noticed the quiet-like woman in the machine with her family.

In a good-looking, dimpled woman of 37, young Stribling has found a rare degree of service. For him she is fight promoter, manager, "second" and chum, as well as mother.

To serve her son, "Ma" Stribling takes up her domestic tent and pitches it wherever the gong rings for young Stribling to enter the ring.

"Ma" Stribling raised her boy to be a fighter, and a winner. In 59 fights the battling Georgian has never been knocked down.

"He gets his strength from me," "Ma" Stribling said. "I have seven brothers all more than six feet tall, all weighing more than 200 pounds." Young Stribling stands five feet 11 and weighs 167 pounds. "Ma" Stribling is only 17 years older than her boy. She was married down south at 16 to a man she saw for the second time on her wedding day. The courtship was carried on through correspondence.

Stribling intends, after the hoped for fight with Dempsey, to go to college and favors Yale. "Ma" Stribling says she will never permit her son to play college football.

Fighter's Hands Are Not Injured

NEW YORK, Aug. 21. (AP)—Examination of Paul Berlenbach's hands today by the state athletic commission's physician failed to disclose any evidence of the injury which was claimed by the light heavyweight champion last week as grounds for postponing his fight with Jack Delaney on August 28, at the Yankee stadium.

BAMBINO TO GET BIG SALARY CUT

NEW YORK, Aug. 21. (AP)—A despatch from Cleveland to the New York Evening World today says that Babe Ruth, home run king, will not receive his salary of \$52,000 a year when his present contract expires, and he signs a new one.

A slump in his batting, which now is under .250 for this season, will result in reduction in his pay, says the despatch.

Greb Recovering From Auto Wounds

PITTSBURGH, Aug. 21. (AP)—Harry Greb, middleweight boxing champion, was "resting easy" in a hospital today from injuries suffered in an automobile accident last night. Physicians said his condition was favorable and that he would be able to leave the hospital within 2 or 3 weeks, unless complications developed. He suffered a broken rib and minor bruises.

Former Champion Seriously Hurt

SAN DIEGO, Calif., Aug. 21. (AP)—Frank J. Neil, former bantamweight champion of the world, is in a hospital here, seriously injured by an accident that occurred yesterday at the home of his parents by falling from a ladder while trying to slide a garage door upon its rollers.

He dropped about 15 feet and struck upon a projection that punctured his abdomen. It is believed he will recover.

He was visiting his parents who live in this city.

BULGARIANS OBSERVE HOLIDAY SOFIA—(AP)—International Co-operative Day was celebrated recently and was made a national holiday in every city, town and village. The movement for the celebration was under the direction of the Central Co-operative Bank, which has a large establishment in Sofia.

The growth of this bank is reflected in its business for the last year which was more than 2,000,000 leva. Its previous high record did not exceed 1,000,000 leva for any year.

NEW BASIC ELEMENT IS KNOWN AS "HAFNIUM"

COPENHAGEN, Aug. 19.—Two ounces of the new basic element, hafnium, have been produced in metallic form, one ounce of which has been sent to the United States. It is understood that the new element may be successfully used in the manufacture of audion lamps for radio.

Niels Bohr, discoverer of hafnium, and winner of the Nobel prize for physics in 1922, was not able at first to turn the new element into metallic form. He has now, however, accomplished this, assisted by Paul Berglund, a civil engineer. Success was attained by oxygenization of a substance called alvit, found in Norway and France, and containing six per cent hafnium.

Fall Millinery and Garments

Are Being Received by Express Each Day—May We Have The Pleasure of Showing Them To You

Kayser Full Fashioned Pure Silk Hose

\$1.50

The new colors are represented in this lot, also grays, tans and black.

Brain Waves Now Recorded

PARIS, Aug. 21. (AP)—Sound waves from a human brain have been picked up by a radio receiver on a four to 10 meter wave length. The experiment is described by Professor Ferdinando Cazzamali, head of the department of Neurology and psychiatry at the University of Milan, in an article prepared for the forthcoming issue of revue de metaphysique and reviewed by Lomatin.

As a result Prof. Cazzamali forces the transmission of sound waves from one brain to another. He says he operated with high excitable persons of those suffering from nervous diseases as well as the noted Italian Medium, Fig. Nora Maggi. The patient was shut up in a perfectly insulated cabinet. The sounds he heard through the receiver ranged from signals akin to ordinary wireless signals to whistling of soft viola, of cello notes.

Professor Cazzamali says he is led to believe that the waves sent out from the brain of one person under certain conditions might be picked up by the brain of another

person under similar nervous, mental or hypostatic stress.

THIRTY-THREE IRISH LAWS PASSED

DUBLIN—(AP)—During the session of the Free State Parliament recently concluded, 33 acts were passed covering every variety of national activity. One of the most notable was that authorizing the use of the River Shannon to supply electricity.

Another act which provoked much controversy was the treasonable and seditious offenses act. It provides the death penalty for treason and graded penalties for various other offenses against the state.

Parliament, which had been in session almost continuously for three years, adjourned to November 3.

TOBACCO POPULAR IN JAPAN

TOKYO—(AP)—The total sales of tobacco in Japan, including cigars, cigarettes and pipe mixtures, for the fiscal year 1924-1925, ended last April, amounted to 245,767,455 yen. Compared with the sales of ten years ago, the present figures show an increase of more than 500 per cent.

Two Killed and Many Inured in Bad Train Wreck

SALIDA, Colo., Aug. 21.—(AP)—Two trainmen are dead, 15 passengers are seriously injured, 10 being in a hospital here, and 75 others are nursing cuts and bruises today as the result of a head-on collision between two tourist laden Denver and Rio Grande western railroad trains at the mountain station of Granite, Colo., forty miles from Skilda, late yesterday.

Responsibility for the wreck was laid by railroad officials to failure of one of the trains to receive an order to stop at Granite. The trains, "Panoramic specials" numbers 7 and 8, which run on a daylight schedule between Denver and Salt Lake City for the benefit of tourists, met on a "reverse curve" after number 8, the eastbound train, had failed to receive the stop order, officials declared. Steel coaches prevented wholesale loss of life.

Marry a blond and you won't notice hair in the soup, a brunet and you won't notice it on the steak.
