The subject for today's discussion is

# Seiberling Cords

I chose these tires for the simple reason that Mr. Seiberling (or what ever his name is) hires me to write these things, but I know they are true because I have seen thousands of poor saps operating on the business end of a tire pump as I spun along coming out here.

Oh, I forgot to mention that I came out from Bumpy Pike, Vermont, to tell you about Seiberling Cords, because Klamath County, and where I came from are the two hardest places on tires in the world. If you don't want to take my word for this ask anyone who has been in both places.

I saw some wonderful country coming out here, yes, and I have seen Crater Lake, but do you know that I can't get excited about all that water being up there because I went clear around the darned thing and there isn't a single place for it to get out.

Just as soon as I get rested up I'll tell you lots of things about Tires. Watch for them.
