2 New Schools To Be Opened September 14

Ewauna Camp And Kirk Will Be Served By Teachers

Two new school districts have been formed to serve two lumber centers in the central part of the county. It was announced today from the county school superintendent's office.

A new school will be established at the Ewauna logging camp north of Chiloquin and at Kirk on the Southern Pacific railroad.

An increase in children of school age in each lumber community made it necessary for the county to establish schools.

Two teachers have been tentatively selected and will be named within the next few days. The two new schools will not open until September 14, in order that school rooms may be properly furnished with fixtures, desks and other equipment necessary.

This year classes will be conducted in a room rented for the purpose instead of in a regular school. Construction of a new school will probably depend upon the permanency of the population in the two districts.

Boxers Ready For Big Card

Tickets Placed on Sale Today in Two Places

All the fighters who take part in the boxing card at Scandinavian hall Saturday night will complete their training tomorrow and will then be ready for the gong which starts the fall and winter boxing season off in Klamath Falls.

Sammy Olson and Earl Ritchie heavyweights, are 'raring' to tear into each other in the 10-round main event. This ought to be one of the best matches staged between heavies in Klamath in a long time. Ritchie is always boring in and never backing away. Olson, as boxing fans know, has met and beaten some of the best boys on the coast, and he's going to do his best to stop the Klamath heavy.

The rest of the card will give the customers plenty of action.

Seats were placed on sale at the Mecca and Eagle pool halls, and from all indications there will be a brisk demand for the pastboards.

A New Style

The Britisher

America has never yet borrowed anything from the English which she did not improve in the process. And the "Britisher" is our country's latest demonstration of its ability to go our island cousins one better in the matter of style. For tho it is called the "Britisher," it is a vast improvement, sartorially, over previous adaptations of the English mode.

Smart dressers acclaim it as the season's most distinctive fashion. You, too, will admire the wedgelike tapering of its modish lines—broad at the shoulders and trim over the hips and seat.

Come in and let us show you our fashion plates of several adaptations of this model. Also, suitable fabrics recommended for clothes.

Fifth Street Now Opened Up

Only memories of deep ruts, of sickening bumps and of impassable mud holes in front of the city hall remain and these memories will fast fade into obscurity from this day on, for barriers on the street leading from Klamath avenue to Walnut

street on Fifth were lowered shortly after noon today to allow the first car to drive over the first completed paved street of that paving unit to be opened this year.

As fast as possible the rest of the streets of this unit will be completed. Residents who reside in the close vicinity of the city hall will be allowed to drive their automobiles to and from their homes in places where no serious damage would be incurred thereby.
