

LEAGUE LEADERS BOTH WIN GAMES

NEW YORK, Sept. 12. (AP)—Although the flag races in the major leagues have been practically sewed by the Washington and Pittsburgh clubs, the Athletics and Giants today are fighting desperately to remain in the running.

With the veteran Walter Johnson in the box yesterday, the Senators crept closer in the pennant struggle by winning from Boston 5 to 4. A base on balls with the sacks loaded in the ninth forcing home the winning run.

The victory permitted the Griffins to continue their seven game hold on first place for the Mackmen took the measure of the Yankees, 3 to 2. "Lefty" Groves was on the mound for the Athletics and while Huggins totaled 11 hits, he kept them well scattered.

With Judge K. M. Landis, baseball commissioner, a spectator, the Cardinals turned the tables on the Robins, 4 to 2, in the opener of a series. The Cardinals whacked out a 5 to 3 decision over the Pirates, cutting Pittsburgh's lead to seven games.

Announcement was made of the purchase of First Base Leo Carter from the Louisville Club of the American Association, former Cub

player, by the Giants. The New Yorkers also bought O. G. Lacey, second baseman and outfielder J. Carter, both from the Richmond club of the Virginia league.

The Braves persisted hard on the heels of the Cardinals for fifth place by drawing an even break in a double header with the Phillies. Boston took the first game 6 to 1, while Fletcher annexed the second 4 to 2.

Between the contests the Elks placed a tablet on Braves field dedicated to the memory of Norman D. Boeckel, former third baseman.

As the Browns lided with the White Sox on account of rain, the Bengals moved to within half a game of third place by polishing off the Indians.

Berlenbach Winner Over Jim Slattery

NEW YORK, Sept. 11. (AP)—Paul Berlenbach, of Astoria, N. Y., world's light heavyweight champion, successfully defended his title last night when he scored a technical knockout over Jimmy Slattery of Buffalo, N. Y., in the eleventh round of a 15 round encounter at the American League baseball park.

Saving is a fine habit. But be careful what you save. Don't try to save all your good deeds for the future.

Merrill Schools Show Big Growth

The increase in the Merrill grade schools this year over last year is more than ten per cent, necessitating the employment of a fifth teacher. The high school enrollment is slightly over what it was at the same time last year, with several more students yet to enroll.

Despite this increase in both the grades and high school, Lester Turnbaugh, superintendent of the Merrill schools, reports that the school is better equipped for the best type of school work than it has been for years. Due to the fact that three new classrooms were made out of the old gymnasium, all the grades are now on the same floor, facilitating intercourse among the grades and making supervision and mutual help among the teachers more feasible.

Since the high school has all of the third floor for its own use a new science room has been arranged, tables are being installed, and with the new equipment of last year in excellent condition, the school is much better equipped for the teaching of science. The old science room is now being used as a commercial room. Sixteen of the 45 students now enrolled are taking typing. The English room is now used as a library and reading room. More research assignments are now being given to the students, due to the increased opportunity the library room affords for this project work. New blackboards are being installed in the grade rooms over the week-end, and the new furnace will be ready for use by Tuesday, September 15. A telephone is being installed in the school for the first time. A significant fact in the growth of the Merrill high school is seen in that 19 of the 46 students enrolled are freshmen.

MARKETS

PORTLAND, Ore., Sept. 12.—Cattle nominally steady; receipts 95; no change in quotations.

Hogs nominally steady; receipts 365; unchanged.

Sheep steady; receipts 565; unchanged.

If this prohibition keeps on before long you will have to apologize for being sober.

Only Chimney Escapes Blast

The chimney was all that remained of a nearly completed \$40,000 home in Kansas City after a terrific and mysterious explosion.

Plan To Raise Money For Hi Will Be Tried Citizens' Committee Would Sell Tickets

There is always a way, was the position taken by the Citizens' Student Athletic committee when it was faced yesterday afternoon with an empty treasury so far as athletic equipment at the Klamath County high school was concerned.

And the committee then proceeded to devise ways and means to raise a stake that will carry the high school through the year.

Three hundred citizens of Klamath will receive letters asking them to buy a season ticket to all athletic functions of the school year and also three debates, that will cost \$10. The ticket will insure entrance to all football games, basketball games, baseball games, track meets and debates in which the high school takes part, in Klamath Falls. The season ticket will be transferable, it was decided.

If the response is as generous as the committee predicts, the high school will be assured of sufficient money to buy equipment for the entire year.

The movement to raise funds started early this week when Dwight

Wants Seclusion

Thomas Watson, California hermit, has decided to move to Mexico to obtain real seclusion. For years he lived undisturbed near Newport Beach, Calif., but a little publicity caused the curious to flock to his hut. He says they asked so many "foolish questions" he decided to move.

Klamath Ice And Storage Co. To Double Present Capacity

Taking time by the forelock, the Klamath Ice and Storage company has let a contract for ice making equipment that will double the present capacity of its plant. Looking into the future and believing that prospective development will justify the investment, the company has doubled the capital stock of the concern and with the new money has laid plans for expansion that include preparations to meet any demand that may be made upon it for either ice or cold storage.

The new equipment is a York high pressure ice making machine. It is the last word in improved machinery for ice making and refrigeration. One of the difficulties that has always confronted the manufacturers of ice is the procuring of a cake of ice free from the white core. Under the York process this has been accomplished, the ice cake being thoroughly crystallized throughout, resulting in a product which lasts longer than that manufactured under old methods.

With the new equipment this city will have the most complete and efficient plant in the state. Speaking for the company, A. M. Collier, its president, said:

"For the past several years we have been enlarging and improving the plant, but so rapid has been the growth of the city that hardly would an extension have been completed before the demands equalled the production. We recently decided to make additions at this time that would be sure to exceed for some time the demands prospective development in this community will require and with that end in view we have doubled our capacity. In installing a York machine we have secured the most modern equipment available and will be in a position to give to our patrons the most efficient service it is possible for them to secure. At the present time we have eight cold storage rooms and two ice storage apartments. This refrigeration and storage capacity can be at least doubled before it will have reached our capacity."

"One of the chief reasons for our immediate expansion is the prospect of the shipment of upwards of one hundred carloads of lettuce that will be shipped from this city to Now The icing of this lettuce will call for the manufacture of this ice. It will require a large supply of ice in a short time, but we want to be a position to meet this unusual and extraordinary demand so that we may contribute our part in aiding in the extension of this agricultural development, which everyone hopes to see made one of the chief sources of wealth of Klamath county. It is our intention always to keep abreast with such demands, so that development of this or any similar industry may never be handicapped through our inability to furnish refrigeration."

F. S. Koetter, Portland manager for the York Construction and Supply company, is in the city making arrangements for the immediate installation of the new plant. "When our work is finished," stated Mr. Koetter today, "Klamath Falls will have an ice and refrigeration plant that will be second to none in the west and superior to anything to be found anywhere, in cities of similar size."

ATLANTIC CITY.—The beauties are perturbed because competition by show girls and because of requests that they agree to appear in the movies if chosen "Miss America." Miss Erie and Miss Pittsburgh have withdrawn. The King had to ride the board walk without a queen.

NEW YORK.—Losses to gamblers on an ocean liner resulted in protests by passengers to officers of the line. One woman says she lost much at bridge. A man passenger sent a radio message stopping payment on a \$2500 check for "craps."

A "Farmer," quizzed by steamship officials, was boozed by the victims. "Wouldn't it be great if payday were like a collector? You could say, 'Come back again tomorrow.'"
