Klamath Boys And Girls Get Potato Prize

Club Members Successful At State Fair In Salem

Klamath county's boy's and girl's clubs, upheld the reputation of Klamath at the state fair by annexing first prize for the best potatoes displayed in the county club division. The coveted blue ribbon was pinned on the county club exhibit the first day of the fair.

According to William Marx, local attorney, who returned last night from Salem where he attended the fair for a few days, the Klamath county booth displayed principal products of this section, was a striking exhibit and brought comment from hundreds of people who were attracted to the booth.

"The only thing I missed was a Klamath lumber exhibit," Marx remarked. "That is the principal industry in this county and I think it should have been given space at the booth."

A richness that satisfies,
a flavor that charms,
in these Coffees aged in the tropics

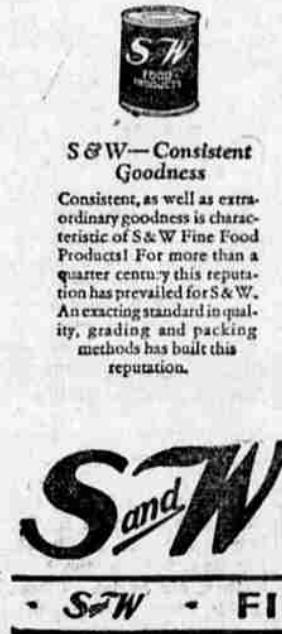

Nature is sometimes slow in yielding to us her treasures. And so the real goodness stored away in fine coffees must be patiently coaxed to the breakfast cup by aging these coffees in the tropics before they are shipped.

So great is the demand for coffee that little can remain in tropic warehouses to age properly. Hence most coffee drinkers experience but partly, the entrancing flavors that are really there.

Not so with those who have found S & W Coffee. Adequate supplies of the rare aged coffees are secured for S & W. To this blend is added just a dash of new coffee to emphasize mildly the smooth mellowness.

Imagine, then, the delectable flavor, the deep richness, the delights, that await the palate! Yes, you'll notice a difference, but S & W Coffee grows upon you as you detect the true coffee-goodness developed by nature.

S & W Coffee maintains the reputation of all other S & W Fine Food Products for extraordinary goodness. If you've used S & W Products you'll know what S & W Quality means.

S & W - Consistent Goodness

Consistent, as well as extraordinary goodness is characteristic of S & W Fine Food Products! For more than a quarter century this reputation has prevailed for S & W. An exacting standard in quality, grading and packing methods has built this reputation.
