REPUDIATED

Give the people a chance and you will always find the vast majority of them right. This has been clearly demonstrated during the past few days when they went on record on three distinct occasions as repudiating the efforts of the Southern Pacific to fool the interstate commerce commission into a belief that it has the support of this county in its campaign to shut out the Oregon Trunk.

First, we have the Federated Clubs re-stating their stand in favor of more railroads—a declaration that was made last April and re-affirmed Saturday.

Second, we have the members of the chamber of commerce repudiating that act of its directors in seeking to indorse the scheme of the Southern Pacific, through the passage of a subterfuge resolution.

Third, by a vote of nearly two thousand, cast in the poll carried on by The Evening Herald during the last week.

The opposition to the Oregon Trunk comes only from a few who, either because of coercion or selfish motives, have joined hands with the Southern Pacific in its program to throttle the development of Klamath county and continue to hold it in bondage as it has for the past fifteen years.

ALL OUT OF STEP BUT THE S. P.

If the interstate commerce commission is not careful it will be called on the carpet by The Klamath News for daring to question the veracity of the Southern Pacific. The News says the Southern Pacific has filed an application to build a railroad between Cornell and Alturas; that the application was filed on October 2. It also says the Evening Herald wired to Portland for our information, knowing that if we wired to Washington we would find out that the application had been filed and consequently would have to tell the truth to our readers. So you see that the only truthful party to this entire transaction is the Southern Pacific. Now for the facts:

The interstate commerce commission says that the Southern Pacific had made no application on October 2—the telegram was filed in Washington at 4:32 p. m. October 2. We did not wire to Portland or any other place. But the Klamath Irrigation district did wire to Washington and this is the answer that was received here on October 2:

Washington D. C. 4.32 p Oct 2, 1925

106F A 21 collect 1 ex
Klamath Irrigation district,
C12 Klamath Falls, Oregon
Your wire. No application filed by Southern or Central Pacific to build line south of east from Cornell, California.

Charles D. Mahaffie, Director.
1.53 p.

However, we do not expect that this evidence will stop The News from its campaign of misrepresentation. It must keep in step with its companions.

Coming This Week— Marcell the Health Evangelist

Different entirely from the general religious preaching evangelist—this man Marcell—who is from Portland and who is known all over the coast as "the man from the grave," is preaching a new kind of gospel, the gospel of new life, health and happiness to mankind while they live in this life.

Marcell, old time Texas range rider, traveler, adventurer and retired physician, practicing in late years in Portland, formerly was a great sufferer and became paralyzed for many months and was given up to die in misery. But by a miracle of nature he was brought back to new life and health and is today, at 64 years of age, a well and happy man. It is this formula of life that he is passing on to others.

A large tent, with comfortable seats, a vaudeville entertainment and special health lecture—and there is no admission and no collection. It is all free.

Marcell says: "Learn how to give yourself a square deal in life; learn how to eat and live, instead of living to eat; learn how to get well without the aid of chemical and drug medicines; and how to avoid unnecessary operations; learn the life-active minerals of the south; learn how to really live, not merely existing. See hand bills and this paper tomorrow for location. Listen for the Marcell calliope. It's all free, each night this week. (Adv.)"

FROM CHILOQUIN
M. L. Ferguson is a business visitor here today from Chiloquin.

ON SHOPPING TRIP
Miss Mary L. Graybill spent the day in the city from her home at Malin on a shopping trip.

Two Cars Crash Together Near Lamm Lumber Co.

Unable to pass a car quickly enough, a car driven by C. E. Dennis of Klamath Falls crashed into R. A. Powers' car on The Dalles California highway near Lamm's Mill at 3 p. m. yesterday, according to a report turned into County Traffic Officer R. E. Knowles this morning.

The accident occurred on a curve just north of Modoc Point. Dennis' car was badly damaged but Powers emerged from the crash with but slight damage.

Oregon Preparing For Idaho Contest

EUGENE, Ore., Oct. 5.—Undaunted by the fact that they were unable to score against the Multnomah Amateur Athletic club of Portland here Saturday, members of the University of Oregon football team are today setting their eyes toward the coming contest with the University of Idaho.

The Multnomah game, a rather listless affair, with only occasional bright spots of football, ended in a tie score, nothing to nothing. Both teams seemed better on defense than on offense.

Bliss and Bailey, Gus Sinclair, tackle, and Smith, end, all lettermen, and Harrison, the most capable punter on the team, were not able to get into the Multnomah game because of injuries. But will be ready for Idaho.

Pilcher's Eugene Store Is Started

EUGENE, Ore., Oct. 5.—The new store of the R. A. Pilcher company, 956 Willamette street, will participate in the fall opening of the Eugene business institutions with a window display this evening, as was announced today.

The formal opening of the store was held on Saturday morning. The stock carried by the store includes all kinds of women's and men's wear. The new establishment is featuring women's and misses' coats, men's suits, shoes and fall dresses for the opening according to the announcement.

The R. A. Pilcher store at Eugene is one of the stores owned by a rapidly growing chain store organization with business operated throughout the Pacific coast.

Another of the stores will be opened in Klamath Falls on the first of November on one of the leading business corners of the city.

S. P. Laborer Is Held for Murder

EUGENE, Oct. 5.—Joe Arillo, Alias Mike Caria, employed by the Southern Pacific as a construction worker above Oak Ridge, was placed under arrest Sunday on a charge of murder, preferred at Shoshone, Idaho.

The warrant, which was received by telegraph from Idaho, did not give details of the crime.

FROM ALL OVER OREGON

Bits of News From Towns Throughout the State WHAT OTHERS ARE DOING

CLOCK TO BE PLACED

A large electric clock, 18 feet in height, visible virtually the full length of Willamette street in the vicinity of the business district, will be erected in front of Luckey's jewelry store, 827 Willamette st., according to announcement by W. W. Bristow.

The feasibility of establishing a clock of this type was put before the city council members at their session in the city hall last night and met their unanimous approval. The clock will be erected in the near future, the order having already been placed. Sufficient lighting will be placed near the clock in order to make it visible at night, he declared. It will be a double dial, each dial being three feet in diameter, and illuminated at night. —Eugene Register.

RECEIVES PAINFUL INJURY

Mrs. John Bruce, Glide resident, received a quite painful injury this morning, when she caught the fleshy part of her right arm above the elbow in a feed cropper, while chopping corn.

Mrs. Bruce was feeding the corn in the chopper, and in some manner ran her arm against the reel, catching the fleshy part of the arm. She managed to turn the reel back and running it through the reel, ward and removed her arm from the chopper. A neighbor came to her rescue and accompanied her to this city, where she was taken to the offices of Dr. B. R. Shoemaker. It was found that she was suffering from a three and a half inch gash just above the elbow, with several minor gashes and bruises of the arm. —Roseburg News.

COUPLE ELOPE

Culminating a romance of hop fields, Arthur Plant, well known florist, yesterday pursued his 18-year-old daughter, Mildred C. Plant, and Ralph P. Shawhan, 24, of Morrow, Ohio, to Vancouver, Washington, in a futile effort to stall off a hurried elopement.

The father was just a few minutes too late. As he drove his smoking car up in front of the parsonage the knot had just been tied, and all that was left for the father was a paternal blessing, which was given.

The groom has been coming out here from his home in Ohio the past two or three years to work in the hop fields as a relief from asthma, with which he has been suffering. Miss Plant has been in Independence visiting her aunt, and yesterday the aunt telephoned to the father that the couple had gone and an elopement was suspected.

"His new car was faster than mine, or I would have overtaken them," explained Arthur Plant, the father, today.

"We have no objection in the world to the marriage except the youth of our daughter," explained Mr. Plant. She is just turned 18 years. "They have our blessing and the best wishes in the world. But

my son-in-law sure has some speedy car."

The young couple will make their home at Morrow, Ohio. —Salem Journal.

LOCAL PEARS IN LONDON

A very interesting card was received recently by H. Van Vovenburg of Sams Valley from E. F. Guthrie, former well-known local orchardist, now of Marcell's Pound, Paddock Wood, Kent, England. Mr. Guthrie wrote that he had seen some of the latter's Bartlett Pears on sale at Convent Garden at 30 shillings a box. They presented a beautiful appearance and were hard green. The card went on to say that the pear market should be very good in London this year, as there are practically no pear crops in Europe.

"Eat your own apples, we don't want them," he wrote in regard to that fruit of which, it seems, there is a plenty in that country. —Medford Tribune.

CAVE TO CLOSE

The tourist season at the Oregon Caves will close on October 15, at which time regular guide service will end and the resort will be closed for the winter. Regular service will be maintained until that date and those who make the trip will find accommodations at all times.

Manager George Sabin was in from the Caves this morning, having attended the formal dedication of the Lithia hotel last night. He reports a good attendance at the Caves this summer with the number making the trip now being from 20 to 50 daily. —Grants Pass Courier.

LOCAL BOYS PLEDGED

Ten boys were pledged to fraternities at the University of Oregon during the past week from in or near Marshfield. The complete list included William Sullivan, Marshfield, Chi Psi; Herbert Lewis and Melvin Johnson, Marshfield, Beta Theta Pi; Barr Abner, Marshfield, Theta Chi; Ellis and Elmer Grant, Myrtle Point, Chi Psi; William Ray Jost, Roseburg, Delta Tau Delta; Clayton Mast, Myrtle Point, Kappa Sigma; William Noster, Coquille, Phi Delta Theta; Joe McKeown, Marshfield, Sigma Chi. —Marshfield News.

HIGH SCHOOL PAPER

Preparations for launching the Bend high school newspaper "Pine Murmur," are advancing rapidly. It was reported at the high school this morning. Subscriptions are being solicited and several of the classes have pledged 100 per cent subscription.

Other than the editor in chief, Miss Phyllis Everett, the staff will be chosen by competitive tests in doing the actual editorial work during the first few weeks of publication. —Bend Bulletin.

A man can't understand why a woman can't understand why he can't understand.

DEHLINGER WINS STATE PRIZE FOR POTATO EXHIBIT

S. P. Dehlinger, Merrill rancher, won first prize in open competition of Netted Gem potatoes at the state fair last week. It was announced today by County Club Leader Frank Sexton, who has just returned from Salem.

Dehlinger's success is viewed as wonderful advertising for Klamath. Hardly considered as a potato producing country several years ago, Klamath county has suddenly sprung to prominence in this respect. The Merrill farmer won first prize at the Klamath county fair.

His two sons, Carl and Glenn, were awarded first and third prizes in the county club potato division. Cecil Haley won fourth prize in the division.

Bryant Williams, Cecil Haley and Karl Kiger were awarded second prize in livestock judging. They were just four points behind Tillamook county, winner of the blue ribbon.

Mrs. T. W. Newcomb is reported to have won second in the canned fruit division. Mrs. Newcomb is secretary of the county fair board and connected with the county agent's office.

Charlotte Hestig of Chiloquin upheld the honor of Klamath in the sewing division. She was awarded fifth prize in club work division 11 of sewing. Aldena Caldwell of Altamont district took fourth prize in home beautification work; Guido Robestelli took fourth in dairy herd record; and Walter Howe of Bonanza was awarded fourth prize in camp cookery.

In all, boys and girls of Klamath county clubs were awarded eleven prize ribbons for their exhibits.

TOO MUCH CASH PROVES UNDOING OF MONROE BALL

Two hundred dollars in his pocket at one time proved too much of an inducement to Monroe Ball on Saturday, so he decided to celebrate in the approved Klamath manner of buying a bottle of moon.

He was well on his way into the "moon" when an officer intercepted. "\$60 and 90 days," droned out Justice of the Peace R. C. Spink a few hours later.

Now Ball, who resides in Chiloquin, has but \$140 of the \$200 government check received as his share of the \$250,000 payment Friday, and he must wait 90 days before he can spend it.

BAD LUCK COMES TO O. F. TRAVIS

Discouraged at his poor luck on a deer hunt yesterday, O. F. Travis stepped on the accelerator of his automobile in an earnest attempt to get home as quickly as possible to a warm fire. County Traffic Officer R. E. Knowles only detained Mr. Travis a few minutes, on the highway between Klamath Falls and Keno. Just long enough to tell him to report to Justice of the Peace Kendall this afternoon to answer to a charge of speeding.

J. M. Walker paid a fine this morning of \$13.75 for parking on the highway. He was arrested near Pelican City.

DELTA GAMMA HEADS LIST

According to the Oregon Emerald the Delta Gamma headed the houses in grades for last spring term with a rating of 49.18. Kappa Alpha Theta was second with a rating of 48.99, while Alpha Chi Omega, with a rating of 48.61, was third. The average rating of the women's organizations was 44.64, while the men's organizations made only 38.11 points. The entire average was 41.72.

MACDOEL VISITORS

Mr. and Mrs. E. T. Trefren and Mr. and Mrs. F. M. Rice of Macdoel, were among the week-end visitors in Klamath Falls, guests of Miss Louise Cattuzza.

MERRILL MAN

G. W. Westbrook, well known resident of Merrill is transacting business here today.

MAHONEY ON BUSINESS

J. A. Mahoney spent the greater part of the day here on business from his home at Bonanza.

FROM KLAMATH AGENCY

Among the Klamath Agency residents here today shopping and visiting with friends is Mrs. Maggie White.

BIRTHS

DANFORTH.—Monday, October 5, at the Klamath Valley hospital, to Mr. and Mrs. J. F. Danforth, Oregon avenue, Klamath Falls, a daughter.

Company Boasts of Woman as Financial Head

In addition to establishing a record for rapid growth, the Western Auto Supply company also enjoys the unique distinction of having its financial affairs handled by a woman, Mrs. George Pepperdine, vice-president and treasurer of the company. It was largely through her help and encouragement, according to Mr. Pepperdine, that the business ever achieved such a success. As he puts it, "She helped nurse it along when it was but a struggling infant attempting to thrive on a capitalization of \$500."

The company is now capitalized at \$5,000,000, with a yearly business conservatively estimated at approximately \$10,000,000.

Knowing the important part that women play in the buying of accessories, the Western Auto Supply company has naturally done a great deal of work in catering to the woman customer, Mrs. Pepperdine declares.

"The women of today are motorists," says Mrs. Pepperdine. "They have not been forgotten in our stores, either, for special displays have been arranged just for them, and every effort has been made to show the kinds of goods that women like."

"Accessories to improve the beauty of the automobiles are almost as essential in this day and age as the automobile itself, and we have devoted a great deal of time in securing the distribution of the ones needed."

"Women buyers as a whole like our stores, for they are able to look about and decide what they want without having to recall the name of the article that they came to purchase. Accessories are not like dry goods, there being so many new ones that it is hard for people to know the names of various articles."

DRUNKEN DRIVER SMASHES WINDOW

A "hit and run" autoist, probably drunk, crashed into a plate glass show window at the L. O. Arena garage, 522 south Sixth street, early this morning and then speeded on before his identity had become known.

It is the second time within the past two months that autoists have taken a drunken fancy to the big plate glass windows at that point. Tire marks indicated that the auto had come from the myriad of bootlegging establishments down in the "rule" section of the city. Police were notified of the wreckage to the garage window, although nobody was able to get the license number of the car.

Contractors Fail to Bid on Bridge

Belief that the county court intended to build the bridge by force account and that bids were called just to live up to a legal formality led Klamath contractors to view the state line bridge contract askance, and as a result not one bid was received by the county court Saturday when the time came to open bids Saturday afternoon.

The court promptly ordered that the span be constructed by force account and that work start immediately. The new span project is a cooperative proposition between Klamath and Modoc counties, in which the two counties will split the cost 50-50.

A family tree isn't worth a darn unless it produces ponches.

Don't take chances with your car. Before starting on long trips have your car well oiled and greased and retired with
