C. J. MARTIN, Commissioner.

Graham Brothers Show Large Gain

Official figures disclose the fact that production of trucks by the entire industry during the first eight months of 1925 exceeded the figures for the corresponding period of 1924 by 23 per cent, according to H. S. Wakefield, of Wakefield Motor Co., local Dodge Brothers dealer.

"Compared with this sound, healthey gain made by the industry as a whole," explained Mr. Wakefield, "Graham Brothers sales increased 105 per cent for the first eight months of this year over sales for the same months last year is convincing evidence of public recognition of the merit of their product.

"An annual increase in sales of over 100 per cent is not unusual with Graham Brothers," Mr. Wakefield continued. "Their sales in 1922 exceeded their 1921 sales by 154 per cent, 1923 exceeded 1922 by 105 per cent, and 1924 exceeded 1923 by 54 per cent. The 1925 growth would logically be expected by anyone who is familiar with their policy of giving the greatest possible truck value at the lowest possible cost.

"To produce sufficient trucks to supply the constantly growing demand has necessitated repeated and extensive enlargements in manufacturing facilities. When Graham Brothers moved into their new Detroit factory, July first this year, their 250,000 square feet represented a 19-fold increase in floor space in Detroit in a little over four years. In addition to this modern steel and concrete building, ideally laid out for economical manufacture of high-grade trucks, and to their immense plant in Evansville, Ind., Graham Brothers have a plant, opened this summer, in Stockton, California, to manufacture trucks required by their dealers in the Pacific Coast and the Rocky Mountain States.

"Within the few months since the Stockton plant was opened the rapidly increasing demand in the far western states has far exceeded expectations and it is understood that plans are already being made to increase its size.

"Graham Brothers have also a large factory in Toronto, Ontario, to supply the constantly growing Canadian market for their trucks.

"As improved facilities and increated production have reduced manufacturing costs the savings have been shared with the buyer in the form of price reductions. But at the same time the truck has been constantly improved—never has any change been made except to give the buyer a better truck.

"The rise of Graham Brothers in the short period of five years to the postion they now occupy—first in the production of 1½ ton trucks is certain evidence that the public recognizes the merit of their product.

Sold for $1.50

For two automobile tires, a tank of gasoline and $1.50, little Mary Ellis Mays was sold by her parents to a couple of Neuhardt, Ark. The child's father, stranded in the town without funds, sold the child so he could continue his journey. The couple buying the child now do not want her and she probably will be placed in a state orphanage.
