

WILL SEE CATHEDRAL 32 MILES
PITTSBURGH.—(P)—The University of Pennsylvania's 52-story Cathedral of Learning, a structure of glistening limestone 680 feet above the Oakland district of Pittsburgh, will be visible to the naked eye for a distance of about 32 miles in all directions.

The cathedral will house practically all the activities of the university.

Church Women to Be Hostesses at Hallowe'en Party

The women of the Presbyterian church are hostesses tonight to all the adult members of the church and congregation in a Hallowe'en party in the church parlors beginning at 8 o'clock. Various committees appointed by Mrs. C. H. Landis, president of the Women's Auxiliary, have planned an evening of games and music in keeping with the Hallowe'en season, and a large attendance is expected.

This is the first social event of this season and others will follow from time to time through the winter months. No charge is being made by the hostesses of tonight, and the invitation is extended to all grownups of the Presbyterian congregation.

MARRIAGE TIES ARE BROKEN BY JUDICIAL AXE

Four Divorces Granted Yesterday by Judge Leavitt; Another Is Filed

In one fell swoop the judicial axe wielded by Judge A. L. Leavitt severed the marriage ties of four couples yesterday in circuit court. One after another, the cases came before the judge. Not one of the defendants put in an appearance and each case went by default.

Couples granted a divorce were: Walter Halloway from Bessie Halloway; Bertha Harris from Clarence Harris; Nels Nelson from Hilma Nelson; and Winifred Smith from Alec H. Smith.

Another divorce case was filed this morning in circuit court. Claiming cruel and inhuman treatment, particularly in that she claimed her husband struck and beat her unmercifully, Allice E. Nelson filed suit for divorce. Mrs. Nelson desires from her husband \$200 for attorneys fees and in addition a division in some of the property they own.

Leaves for Rome To Visit Parents

Leaving his native land, Rome, more than twenty-five years ago, Nick Civitarese, well known employe of the Shaw Bertram Lumber company, is sailing from New York on the steamer "Dandelagore" on November 17th. He plans to spend six months visiting with his parents and friends whom he has not seen in a quarter of a century. With the passing of years his mother and father are growing older, his father now at the age of 72 years while his mother is 63. His only brother was killed during the world war in France.

Civitarese has been a resident of this section since 1911, coming here from the east where he lived first in New York and later in Pennsylvania. He expects to return to Klamath Falls in the spring.

TO BUILD STADIUM
PORTLAND, Ore., Oct. 29.—(P)—Plans were outlined at the annual meeting of the Rose festival association last night for construction of a stadium in which to stage pageants and other features of the fete.

EGG MARKET

PORTLAND, Ore., Oct. 30.—(P)—Values in the local egg market have finally slumped after maintaining a steady advance for several weeks in the face of the heaviest storage holdings in years. Today fresh stocks are one to two cents lower on the local dairy exchange.

Extras and pullets displayed the greatest weakness, being posted at 54 and 44 cents respectively. Firsts and undersized were marked down 1c. Current receipt eggs remained steady at 49c net.

Fresh egg arrivals are more liberal now and with other coast points weaker, declines in this market were expected. Portland is still a low market, however, on the coast.

Highway Project Progressing Well

"I'll be through with the grading on my sub-contract by November 10, if everything goes all right," Mike Nyhart, local contractor, said today. Mr. Nyhart has the contract for the grading of the Klamath Falls-Lakeview highway from Beatty, seven and one-half miles west.

"I am 'subbing' under J. T. Logan who has the grading contract for this job and started the work last July 14. There is one outstanding feature of the job and that is the rock. Drilling of some of that rock is just like trying to drill a blacksmith's anvil. I figured drilling would only take a week or so, whereas it has taken a month." Work over the entire road project is progressing well, Mr. Nyhart said.

Your Sight!

Is your eyesight as good as the other fellow's? Is your attention constantly called to the fact that your vision is not up to par? You need our expert examination and advice.

Oregon Team to Play Stanford

EUGENE, Ore., Oct. 30.—Twenty-four University of Oregon football players, accompanied by the football coaching staff, left Eugene yesterday afternoon for Palo Alto, California, where the football men of Stanford University will be met Saturday afternoon.

Three changes have been made in the lineup for the Stanford game. Nick Carter, sub center, will replace Carl Johnson, a veteran. Carter's weight caused the change. Homer Dixon will replace Gert Kerns at tackle. Kerns is suffering from a broken rib, sustained in the California game. Vitus will start at half in place of Hodgen, who is suffering from a sprained ankle.

If his present line is not heavy enough, Coach Smith said, he will put in new men, as his substitutes will average 200 pounds from tackle to tackle.

Grading Through Marsh Completed

If ever doubt was held concerning the efficiency of the tractor steam shovel as a grader of roads, it was dispelled this week with the completion of the grading of four and one half miles of the Midland-State line road across the swamp of lower Klamath lake marsh.

By the use of the tractor steam shovel for the job, the county court has saved the county money, and at the same time has completed the marsh section of the job in good shape, it is declared.

NO TRAGEDY
LA GRANDE, Ore., Oct. 30.—What was thought to be the bones of a human foot, found in the Grande Ronde river yesterday, proved to be a plaster of Paris foot when officers brought the object to the surface.

BOBBY JONES AS INFANT WAS ROCKED BUT NOT 'TOO PETTED'

ATLANTA, Ga. (P)—Bobby Jones, national amateur golf champion, when a baby was rocked more than modern physicians would have approved, but was not "petted too much."

Mrs. Robert H. Jones, mother of the golfer, made this statement in connection with a discussion in Atlanta relatives to present day methods of caring for babies as compared with those 25 years ago.

She disagreed with a young matron that "the hand that rocks the cradle rules the world," no longer is true. In Mrs. Jones' opinion, babies still are rocked and mothers can find time to do their part of ruling the world even if they spend a large part of their time in nurseries.

Bobby was rocked because he was a delicate child, and young Mrs. Bobby Jones rocks her six-month-old daughter, christened Clara Malone but already known as "Bobby" when she is sick or needs "extra babying."

Grandfathers, in the opinion of Grandmother Jones, still are the principal causes of spoiled babies—but they are not to be blamed for they know nothing of rearing babies.

SNAKE KILLER ADDS ONE TO COLLECTION IN GEORGIA

DOUGLAS, Ga. (P)—Davis, hunter and trapper of snakes, has scored again.

Crawling through a dense thicket and roping with a shoe string a five and a half foot rattler that was believed to have caused the death of a boy, Lewis Adams, C. M. Davis, the youthful foeman of snakes, added another skin to his collection.

The snake was identified as the one which struck young Adams, by the finding of double fangs on the right side and none on the left. They tallied with the wound.

The Adams boy had gone into the

woods carrying a sling shot with which to hunt birds. He was bitten and died that night. Hearing of the incident, Davis started on the trail of the reptile and after considerable hunting found it in a hedge near a fence.

Every dress at Bee Begin's Dress Shop is on sale. Such bargains you have never before seen in Klamath Falls. 27-31 (adv)

If you want the newest and prettiest in bath robes go to Bee Begin's Dress Shop, 129 South Seventh St., next to Shasta cafe. 27-31 (adv)
