who will appear in a high class musical concert. Lovers of good music will find this a most unusual treat. An exceedingly interesting picture program will also be shown, one of the season's clever stage hits,

"New Brooms"

Two full shows, The Vance Entertainers at 7:15, 9:15

Prices: Adults, 50 cents. Children, 25 cents.

Armistice Day Special

Edward Everett Hale's Immortal Story of "The Man Without a Country."

"As No Man Has Loved"

Not only a picture that all Americans should see, but one of the Really Big Pictures of All Time.

Tickets for "AS NO MAN HAS LOVED" are now on sale by the High School Students and at our box-office. Matinee Prices: Adults, 50 cents; Children, 25 cents. Evening Prices: regular admission, 75 cents. Loges, \$1.00.

NOTE: In order that every child in Klamath Falls may see this marvelous picture at a nominal cost, there will be a special children's matinee at eleven o'clock Armistice Day morning.

Lest We Forget

Seven years have passed since the World War. During that war the motion picture theatres were the first to offer the services of their screens to the government. In the years of reconstruction and return to normalcy, these theatres have tried to help. And on this commemorative day, we reiterate our pledge to our government: "TO SERVE!"

WITH MRS. SUMMERS

MANNINGS RETURN

Attorney Horace Manning with his wife and new babe, returned last evening from Seattle. Mr. Manning motored north several days ago to join his wife and baby on their return trip from the coast. Little Junior Manning was born in the northern city several weeks ago.

At The LIBERTY

"Enemy of Men"

A story of a beautiful woman who hated all men for one man's folly—her hate made her rich, famous—and unhappy!

For all of this the price is only ~ \$595

f.o.b. Toledo

The best sales talk ever made for the Overland Standard Sedan was this remark—made by the owner of another make of light car to his wife who came in to visit a large Willys-Overland Sales room.

In seven weeks—the price was announced Sept. 13—this Overland Sedan has upset all motor car tradition. To-day it is the greatest popular favorite the country has ever known.

Think these facts over! The price of the Overland Standard Sedan is only \$15 higher than the price of the lowest cost sedan—it is \$100 lower than the price of the next nearest enclosed car. The \$15 buys a standard sliding gear transmission, honeycomb radiator, full size brakes, more room than in any other light car built, big car frame and drive system and many other features of construction that go to build up long and satisfactory service. The \$100 you save is that much money in your pocket—a study of Overland specifications will quickly prove this to you.

Here is what you get A full size sedan—plenty of room for 5 grown people—a trim, smartly designed car with up-to-the-minute lines—polished lacquer finish with nickled trimmings—beautiful and durable upholstery—heavy fenders—a quality car from stem to stern.

Unusual convenience —is afforded by the wide doors—it's easy to get into the front or rear seats—and the doors are sturdily hung on four hinges—they'll never sag nor stick.

Clear riding and driving vision —the result of big windows and the latest type one-piece windshield.

There are 20 square feet of window space—it's like riding in an open car with all the snug protection of enclosed car construction.

Wonderful power —is always available in the 27-horsepower motor—Overland ability in rough going has always been one remarkable feature of its performance—large valves in the L-head motor give smooth power and more of it—and there are fewer parts than in any other type of motor construction.

Sturdy drive system —from clutch to axle shafts, the drive system is the finest that can be put into any car—Borg & Beck type clutch, one of the finest clutches ever made, selective sliding transmission, Molybdenum steel axle shafts, the toughest steel known, and the axle shaft is as large as that used in many cars of double the weight.

Big car chassis —unusually strong, rigid frame with plenty of bracing—Chrome Vana-

dium steel springs—Timken roller bearings in the front wheels—New Departure ball bearings in the rear wheels—Molybdenum steel steering knuckles—only 27 points to lubricate as against 35-60 on other cars.

How Overland can build this car —simply by advanced manufacturing methods—welding out overhead here and there—planning and studying every factory procedure. In this Overland Sedan you get every essential of big car performance—big car equipment—big car appearance and comfort and convenience. And with it you get the most surprising economy ever known in the light car field. There are years of trouble free service in the motor—there are thousands of miles of trouble free service in the chassis. There is everything you are looking for in this tradition smashing sedan.

The terms are very easy —a small down payment—and 18 months on the balance—your old car in part payment. Come in. See what you can really buy in this car priced at \$595.

BUSINESS CALLER

J. Lee Stewart, of Corvallis, arrived in the city last evening on business matters. Mr. Stewart spent over Sunday in Medford, motoring over from the valley city late yesterday afternoon. He is among the arrivals registered at the hotel White Pelican.

No Axe to Grind

Perhaps your tire problem has to do with air pressures; perhaps you wonder whether you should equip with low-pressure tires of standard size, or balloons.

We are in a position to advise you fairly and without prejudice because Racine builds—and we sell—both kinds.

Moreover, both kinds equally uphold RACINE'S reputation for building first-quality products only.
