At The LIBERTY

Hoot Gibson's latest production which promises to be a classic of the classical sport, baseball, comes to the Liberty theatre as the attraction beginning today.

Of course the title is "Hit and Run." That would be expected, for no phase could better describe the fast action of a Gibson version of the great game. In the cast with Gibson are several popular players, including Marlan Harlan, daughter of the character artist, Otis Harlan, Harold Goodwin, Dewitt Jennings, Cyril Ring, William A. Steele and Mike Donlin, once one of the world's most famous ball players.

With Donlin in the cast and with every player in the story naturally a rabid baseball fan, the technical end of the story practically took care of itself. In Los Angeles, ten miles from Universal City, a large number of baseball players "hibernate" during the winter, and thirty of these were employed.

smiles and witty sayings which he serves to keep his audience in a happy frame of mind. Roma Duo, "Musicians De-luxe" a musical offering that unqualifiedly pleases every patron of any theater wherein their act is presented. It is a feature in its entirety.

PIPE BOWL
Rough Cut vs. Granulated

Why not let 'em fight it out in the old pipe bowl?

If you want to see how Rough Cut tobacco stacks up against Granulated, then your old pipe bowl's the proper place to stage the battle... Just match a bowl of Granulated up against a bowl of Rough Cut... You'll see Rough Cut's cooler under fire, lasts longer and is much smoother-going... Yes sir, once you've seen Rough Cut in action you'll back Granger for the rest of your life.

There's a definite reason for that Rough Cut
Granulated tobaccos burn fast and hot because they're cut fine. But Granger burns slow and cool, because it's cut coarse. It just naturally makes the coolest, smoothest smoking you ever experienced.
