It has a cast of five men and but one woman, with the star role being taken by "Thunder"—The Marvel Dog. There are many exciting climaxes in this latest of dog stories. The scenes are laid in the hills of Kentucky. Most of the action centers around a feud between the Howards and Larneds.

Charming little Clara Bow, who is the only woman in the cast, has a part far from any she has ever played.

In Harold Bell Wright's country near Tucson, Arizona, it is said that several years ago an incident similar to the plot of the story actually took place. From this Mr. Wright obtained the theme for his novel.

To film the story in keeping with its atmosphere, Paramount dispatched an entire company of almost two-hundred persons to a location seventy miles from Tucson, Arizona, and but a few miles from the Mexican border. Not far from this location the real incident occurred.
