

Corporations Will Pay Big Tax Next Year

SALEM, Ore., Nov. 24.—Public service corporations in Oregon will in 1926 pay taxes on apportioned corporation property valuations increased \$6,598,42 over the valuations fixed by the state tax commission a year ago for 1925. This became known today when the tax commission completed tabulating its summary of the assessment roll of public service corporations as re-evaluated and apportioned by the

tax commission. The total assessed value of the corporations according to the new summary is \$258,531,606.02, but the apportioned value on which the taxes will actually be paid is \$155,052,507.71. The latter figure is the total of utility values as apportioned to the counties according to their ratio of assessed to actual valuation.

The new summary gives the apportioned valuations according to the classification of public service companies as follows:

- Steam railroad companies, Union station and depot companies, \$35,305,773.89.
- Electric and street railway companies \$1,839,070.50.
- Car companies, \$1,508,240.28.
- Electric companies, 65,484,330.05.
- Water and gas companies \$7,297,040.02.
- Joint utilities (electric, water, gas), \$29,796,365.81.
- Express companies \$331,487.76.
- Telephone companies, \$11,607,480.12.
- Total, \$155,052,507.71.

THE WEATHER

The Cyclo-Stormograph at Underwood's Pharmacy registered a slightly rising trend in barometric pressure this morning but the reading is still below 300.

Forecast for next 24 hours: Cloudy and unsettled with moderate temperatures.

The Tyco's recording thermometer registered maximum and minimum temperatures today as follows:

High.....46 Low.....23
U. S. Weather Report
Weather: Oregon, unsettled, rain, west, probably rain or snow in east portion, tonight and Wednesday. Warmer in the interior tonight. Fresh southerly winds.

FORBES NORTH

F. Forbes, manager of Forbes Drug store, is enjoying a visit with his wife and children in Portland this week. Mr. Forbes plans to return to Klamath Falls on Sunday.

Duck Feed to Be Given Free to Vets Here Next Sunday

A free duck feed, to which every ex-service man in Klamath county is invited, will be held Sunday at 1 p. m. in Moose hall, according to Gus Dunn, commander of Pelican Post No. 1385, V. F. W.

Previous to the duck feed an initiation will be held at 11:30 o'clock. All who have applications in are urged to be present.

There are now about 100 members of the order in Klamath county.

Any ex-service man living in Klamath Falls who desire to join the organization are requested to turn in their applications during the week to Gus Dunn at 605 Main.

DIES OF INJURIES

Portland Man Who Was Struck by Auto on Nov. -0th. Succumbs Today

PORTLAND, Ore., Nov. 24.—Internal injuries which were not considered serious at the time he was hit by an auto November 10, today caused the death of Giuseppe Veno, aged 69.

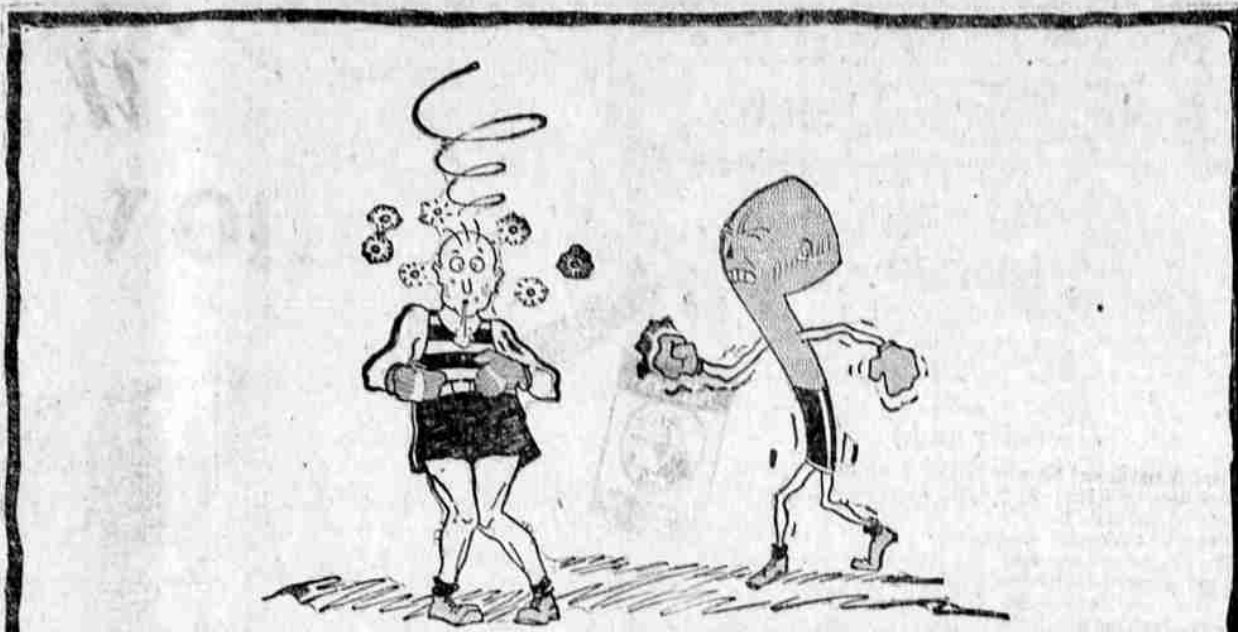

The police report indicated that he stepped in front of a slow moving car.

bonfires, had their hose knotted and equipment dumped and scrambled.

Riot Squads Out Finally after reinforcement from

Does old Kid Pipe get you below the belt?

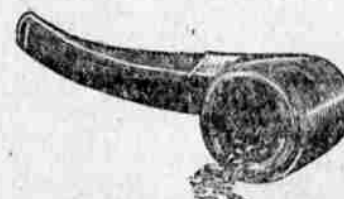

(Is your pipe O.K.—or are you K.Oed?)

Any experienced pipe-handler 'll tell you that half the battle in mastering the manly art of pipe smoking is fighting shy of the old "hay-maker"... And there's no sense taking a terrible licking when you can side-step all that foul pipe-play by breaking in on Granger... Fact, after a couple of rounds with this smooth-going Rough Cut it's no longer necessary to handle any pipe with gloves on.

There's nothing else like Wellman's 1870 Method

An "old fashioned" method, yes, but slow as it is, and costly, too—we have found no other process that brings tobacco to the same full, rich "rounded-out" mellowness. And remember—in Granger only!

For Winter Driving Everything Depends on the Tires

On ice crusted pavement or frozen dirt roads, it is your tires that must stand the punishment and also help to relieve your car itself from the added strain.

Seiberling Cords

With their all tread construction are the best and most practical tires to use. The tread extending up to protect the delicate side walls gives you tire satisfaction complete for the reason that the possibility of blow-outs is reduced to the minimum.

riot squads came from Chicago and forty world war veterans were mobilized by a former service man's organization to aid the police, the students retired to the Lake Michigan front and finished off the evening with huge bonfires, songs and cheers.

President Walter Dill Scott, who had been out of Evanston, returned as the celebratin concluded. His only comment was that the burned house wasn't worth much anyhow, and that the University would not interfere on behalf of the students who had violated the city ordinance. They would have to stand the consequences in the city courts.

Building Burned

The melee started when students fired the fraternity house, which was to be razed and replaced by a new quadrangle. The interior had been soaked with oil. Others oiled and ignited the old wooden stadium, which the University hoped to replace with a concrete structure next year if city permission was given.

Firemen who responded to alarms and attempted to quench the blazes were stampeded by crowds of students. Attempts to quiet them were made by Kenneth L. "Tug" Wilson, athletic director and gridiron stars of the school, Captain Tim Mowry and Ralph "Moon" Baker. These succeeded in persuading the students to extinguish the stadium fire.

Police Chief Hooted

William A. Wiltberger, police chief, advertised by Evanston as the only chief of police with a college education, attempted to speak, but was hooted down as the "Scientific Cop."

Mayor Bartlett was knocked senseless. When he revived he said the students had lost any opportunity they might have had to build the proposed stadium.

The police chief and fire department head were equally wrathful. Orders to shoot down any one who attempted further trouble were issued by Chief Wiltberger and Fire

Chief Hofstetter said his equipment had been stolen, damaged and scattered.

The students under a railroad were held in connection with turning in false fire alarms.

MEXICO CITY — Because of the drinking of pulque, an intoxicant, by mothers, Mexico City has the highest infant mortality rate in the world the biological department has concluded.

Trainload Shipment of Trucks to Florida

Every truck in a solid trainload shipment which recently left Graham Brothers factory bound for Florida was delivered at retail within ten days of the time the train reached Jacksonville, official records show.

This train consisted of 34 railroad cars containing 91 trucks consigned to seven dealers. The allotment to the Miami dealer alone was 31 trucks of 1 ton and 1½ ton capacity.

"These and hundreds of other Graham Brothers trucks," according to Mr. Wakefield, local Dodge Brothers dealer, "are playing an important part in relieving the transportation situation which has resulted from inadequate capacity of Florida's railroads to supply the needs of her unprecedented numbers of winter tourists and home-seekers."

"Vast amounts of merchandise, subject to the freight embargoes recently placed on certain classes of goods in order to reduce delay in moving necessities, have been moved South from Jacksonville and inland from Atlantic and Gulf ports by Graham Brothers trucks.

"Further evidence of the growth in demand for Graham Brothers trucks is found in reports of retail sales. Total deliveries in the state of Florida for the month of September 1925 equalled those for the entire year of 1923.

"October deliveries were 70%

ahead of the total for 1923 and equal to the total for 1924.

"Deliveries in Florida for the three months of August, September and October 1925 exceeded the combined totals for 1923 and 1924

by over 15%. "The rapidly increasing sale of these sturdy 1 to and 1½ ton trucks everywhere is the natural consequence of their power, dependability and low operating cost."
