

Breaking His Bubbles

THE EVENING HERALD'S CLASSIFIED AD SECTION

From Pulpit to Soda Fountain

Rev. Harold Turney, pastor of the First Christian Church, Inglewood, Calif., deserted his flock for the soda fountain, because "he wants to study." He also hopes to and a minister has no time that he can call his own. He also hopes to make enough money at the soda fountain to obtain a college degree.

Aged Man Says He Was Robbed

Oakland, Ore., Resident Tells of Hold-up

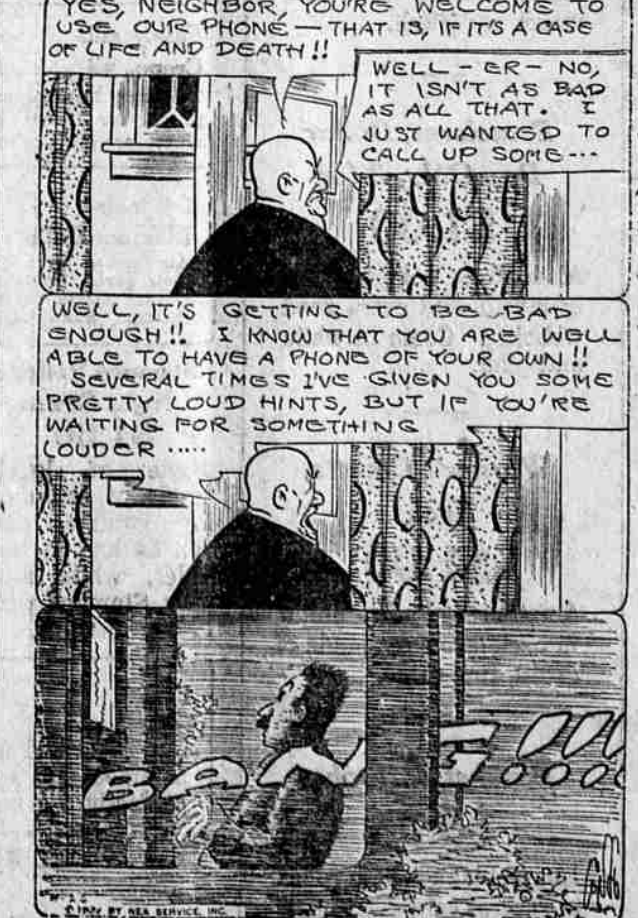

ROSEBURG, Ore., Nov. 26.—Anthony Saunders, a resident of Oakland, Calif., arrived in Roseburg this morning with a story of having been robbed at the point of a gun of \$80 in cash, a diamond ring valued at \$175, a gold watch and a car, the robbery being committed, he claims, by a man whom he picked up near Eugene.

Just south of Yencalla the stranger, according to Saunders, drew a revolver and ordered him out of the car and after robbing him of his cash, ring and watch, took the car and drove away, leaving Saunders to walk back to Yencalla.

RADIO CRAZE HITS JAPAN

TOKYO.—The radio craze has grown to such an extent in Japan that some of the middle school authorities in Tokyo have issued orders that students shall not "listen in" during certain hours of the evening, but shall devote these hours to their studies. The school heads found upon investigation that the youngsters were neglecting their school work in the evening to listen to the radio.

**HOME POINTERS**  
Unbleached muslin in a medium thin grade makes very satisfactory temporary curtain material. Because of its rich cream color it is more pleasing than a pure white cotton and is so neutral that it may be combined with a wide range of colors. One way of using this material is to cut out medallions from short lengths of cretonne and applique them onto the unbleached muslin in a border across the lower edge of the valance and the side hangings.  
No one convenience is of greater value in saving the housewife than running water in the home. The person who must carry water from an outside pump adds many tons of lifting to her daily work. She needs running water in the kitchen quite as much as it is needed for the livestock.  
If the wash boiler is filled through a piece of old hose attached to a nearby faucet, wash day will be much less tiresome. This saves lifting or carrying water.  
The gears of a Dover egg beater cleaned with a little alcohol prevents black smudges.  
The dust bag of a vacuum cleaner is emptied easily by placing the mouth in a large sack instead of shaking the dust into a newspaper.  
A step-saving kitchen may be had by having a hook for everything and everything on its hook.  
Buttering the nose of the cream pitcher prevents the cream from dripping and making spots on the table cloth.  
Kitchen scissors may be used for cutting up chicken, shredding lettuce, chopping raisins, and marshmallows. Rub the blades and the fingers with a little butter when preparing sticky food.  
Variation in color and texture makes meal planning interesting. It is better to serve creamed chicken and potato croquets, or fried chicken and escalloped potatoes, than to serve two creamed or partly liquid foods such as creamed or escalloped potatoes and creamed chicken in the same course. It is better to have one food cut in the form of cubes, as chicken a la king, than to serve a vegetable cut in the same way. The same thing also applies to mashed foods.
