Murphy Trial Resumed Today

MEDFORD, Ore., Nov. 30.—The trial of Omar W. Murphy, charged with manslaughter as the result of an alleged beating administered to his wife, Ella, last March, was resumed in the circuit court this morning, after a three days recess, and the entire morning session was devoted to the defense cross examination of physicians, called by the state, with the exception of Sister Mary of Sacred Heart Hospital, who testified as to the last moments of the dead woman. Doctors Geary and Clancy of this city, and Dr. Woods of Ashland, were the state witnesses under cross examination.

The state theory that death was caused by embolism, in lay terms, a blood clot, was combatted vigorously by the defense and the questions covered every possible cause of death. The queries were confined to the hypothetical questions asked by the state. According to the state's evidence, all the vital organs of Mrs. Murphy were in a healthy condition, and it is contended that by a "process of elimination" embolism caused death.

Dr. Geary was cross examined relative to an examination made of the spine, when the body was exhumed after ten days, and found it in a normal condition. Attend the benefit boxing card tomorrow night at the Scandinavian hall.
