

MERRILL YOUTH BADLY INJURED

Throws Dynamite Cap in Fire and Two Fingers Are Blown Off

The little eleven year old son of Mr. and Mrs. John Zinbinder met with a serious accident at his home east of Merrill Saturday morning. The lad had a bonfire in the yard and threw on it a dynamite cap which he had picked up, resulting in an explosion which blew away his thumb and portions of the two first fingers. The boy was wearing glasses, which are thought to have saved his eyes, but his face was badly lacerated. C. G. Merrill, who happened to be passing at the time, took the child and his parents to Malin where the boy received medical treatment.

Newspaper Advertising Declared Real Service

"Read newspaper advertising like you read the news. There's real help for every woman in newspaper advertising today." This is the message Mrs. Belle De Graf, newspaper contributor, famous cook and domestic science expert, gave to a group of western housewives in a convention recently.

"Your husband learned a long time ago to watch stock and produce market reports, advertising of bond issues and other things that helped them.

"Your newspapers today give you not only the day's events, but prices and news of things the merchants have to offer—new receipts—new fashions—new products, and how to use them.

"How different it was a few years past when one found just the names of manufacturers and some slogan such as 'Use Blank Soap' in newspaper advertisements," Mrs. De Graf continued.

"I have in mind of flour company that is now using extensive newspaper space, not so much to acquaint readers with its flour, as to acquaint them with its Home Service Bureau. You are given, in the advertisements, carefully tested receipts, told of ways to save time and work, and even invited to write in for free personal help on your particular problems of food preparation. Many other companies are similarly engaged. The wise housekeeper of today saves a lot of work, worry and money by reading newspaper advertising."

Child Dies from Dreaded Malady

Norman Burke, of Pelican City, aged six years, was the second victim of spinal meningitis, when the little boy passed away at a local hospital yesterday afternoon at 5:15 o'clock of the dreaded malady. He had been seriously ill for a week, and his illness in school several days ago precipitated the stringent measures in the public school to prevent the spread of the disease.

The child is survived by his parents, Mr. and Mrs. W. A. Burke, two sisters, Wilma, aged 17 and Rhea, aged 10. Funeral services will be held tomorrow.

Ames Acquitted On Grave Charge

Arthur Ames took no part in the stealing of a roll of currency from Larry Robinson, while the latter was sleeping in a local hotel. This was the decision of the jury which after deliberating for one hour and a half, returned a verdict of not guilty.

Ames and McCarthy were jointly indicted on the charge of having committed the same crime. McCarthy last week was convicted and sentenced to serve two years in the state penitentiary. He was not taken north to Salem last week-end with a group of other prisoners, because he was subpoenaed to testify in the Ames trial.

Mrs. Chester Hovey Dies in California

Word of the death of Mrs. Chester L. Hovey of San Francisco, whose husband and only son, Richard Hovey, are well known throughout Oregon, owning large timber tracts, has been received in this city by friends of the Hovey family.

The elderly matron, who was in her 76th year, passed away at the family home in San Francisco last Monday and was laid to rest on Wednesday. She was suddenly stricken with paralysis some few weeks ago and pneumonia followed the stroke. Little hope was held for her recovery from the first as she was a woman of frail constitution.

Mr. and Mrs. Richard Hovey spent considerable time in Klamath county and their bereavement will be shared by a host of friends here.

TRADE MARK UPHELD

A recent decision of a Federal Court on the subject of unfair competition in brands and packages is timely interest to manufacturers and merchants whose trade is being flitched away unfairly by the activities of certain members of the business community seeking to trade on the reputation of others.

Federal Judge Dickinson sitting in the United States District Court of the Eastern District of Pennsylvania, has granted a permanent injunction against the Pennsylvania Soap company prohibiting the Pennsylvania company from the manufacture, sale or advertising of a product wrapped in imitation of the universally known Palmolive soap package. The Pennsylvania Soap company product bore the name "Palm and Olive" and was wrapped in a green wrapper of a design similar to that of the genuine article.

Over 2,500,000 De Laval Separators are in use—more than ten times as many as the nearest competitor.
