Sore Throats and Colds

Sore throats and "colds" are very prevalent just now, and should never be neglected. We have all the popular home remedies but serious cases should have the attention of a physician.

A mild spray for nose and throat, used daily, will prevent many such ills. A good antiseptic solution of some kind should also be used as a mouth wash and gargle.

Underwood's Throat Gargle

This is made from the old time formula of tincture of iron, chlorate of potash, glycerine and other antiseptics and is the best thing we know of for "sore throat."

Large Bottle 50c

Ordinary cases yield in a few hours. If case is very severe a physician should be consulted. Bring us his prescription. It will be correctly filled and at a moderate price.

White Pine Compound

There is nothing better than this combination for coughs. It is pleasant to take and children like it.

Large Bottle 5c

The brand we sell has a little menthol and eucalyptus in it and this adds to its medicinal value.

Do not neglect the slight coughs. Keep a bottle of UNDERWOOD'S White Pine Compound in your home.

This Answers the Amusement Question

Most winter amusements have this drawback—they fail to give you the exercise you need at this time, when outdoor sports are at a standstill. If you would keep that "girlish figure" combine the pursuit of health and pleasure by attending the dance tonight and Saturday night at Scandia hall. Better music, a very good floor and a chance to get acquainted with people you want to know. Solves the problem of loneliness. —Adv.
