

# MORE MONEY FOR SUGAR BEETS IS AIM OF FARMERS

## Siskiyou Ranchers Plan to Cut Down Output in 1926 Growing Season

(Special to The Herald)  
YREKA, Calif., Jan. 28.—With a record crop but adverse marketing conditions, Siskiyou growers of sugar beets may not plant as large an acreage in 1926 as they did in 1925, in order that the marketing situation may be worked out more satisfactorily and thereby eliminate to a great degree the loss sustained in the 1925 season.

Experiments in Butte and Shasta valleys last year demonstrated to the satisfaction of both growers and buyers that the beets produced in these valleys carried a high per cent of saccharine and yielded more than the required tonnage an acre.

The growers, however, declare that to make the crop profitable a higher price will have to be paid for the beets and a local factory established to handle the output, which, if the factory was constructed, would be greatly increased in both valleys to make it a profitable institution.

**Prices Too Low**  
The 1925 season saw a working agreement with the owners of the refinery at Hamilton City but the prices were not as high as the growers had hoped for. They faced deductions for this and that and the other things and on top of it all the refinery management shortened the season by a month, which put the late sown beets in Butte Valley into bins for stock feed.

It was the first season for Butte valley, the new irrigation district being opened late in the spring, and there was tardiness in the shipping of seed and machinery and in the preparation of the soil. Consequently, what beets were sent to Hamilton City were gathered before ripening time and the percentage of saccharine was not as high as if the crop had ripened.

**Planted Too Late**  
Three hundred acres were planted near Madocel in the new irrigation district in early June. They should have been planted April 1, and the crop was harvested October 1 instead of November 15, when the crop would have been at its best. In spite of this handicap, the beets ran from eight to ten tons an acre.

Two hundred and twenty-five acres of sugar beets were planted in the Shasta valley in the region of Gazelle, where the yield was 13 tons an acre. The growers received the price of six dollars a ton, f. o. b. Gazelle, for the crop.

The price in 1925 ranged from seven and a half cents in 1924 to five and a half cents in 1925, an estimated loss to the growers of \$10,000.

**Klamath Project Deferred**  
The site for the proposed factory has been frequently discussed in northern California and southern Oregon, and last year a group of Klamath Falls men started an active campaign to build a refinery there but nothing came of the work at the time. It is possible that with the coming of the 1926 season, the promotion will be revived and a factory brought into being.

If sufficient acreage can be assured San Francisco sugar interests, it is possible that a factory will be constructed in Siskiyou, probably at Grenada or Gazelle, on account of the better rail facilities, but this is very much in the nebulous stage.

## FISHING TUGS LOST IN GALE: START SEARCH

### Coast Guard Combs Waters for Lost Boats; Rescue Attempt Is Failure

MUSKEGON, Mich., Jan. 28.—(AP)—Two fishing tugs, Helen M. and Indian, with eight men aboard, were caught in the terrific gale on Lake Michigan, dropped out of sight at 2 a. m. today, coast guards reported. The tugs had been drifting to the south during the night and the blizzard made it impossible to locate them.

Shortly after daybreak the coast guard crew started out in the blizzard in search of the tugs. During the night the coast guard got within half a mile of the tugs but could not shoot a line to the helpless vessels.

The steamer Alabama, one of the most powerful ice crushers on the lake, attempted to reach the tugs last night but after forcing her way through the harbor, and into the lake, was compelled to return and seek shelter in the channel.

## Mrs. Reid's Memorial Plan Fails

Mrs. Wallace Reid, who built a memorial home in the Brentwood Hills near Hollywood to help addicts escape the drug that killed her husband, the smiling-faced film idol, announces that her plan has failed. Residents of the hills wanted no such place near their estates, and it was hard to find a place. Now the home is being used as a roadhouse.

## KLAMATH DAIRY STOCK IMPROVES

That the quality of Klamath county dairy stock is rapidly being improved by unofficial records now being made by several Holstein cows on the Klamath project. The highest producer at the present time is owned by J. L. Jacob of Malin. She is Toke De Kol Johanna Canary, sired by Prilly Gelsche Canary, who is also the sire of Model Segis Prilly Gelsche, Oregon's champion Holstein cow, and Oregon's first and only combination 30,000 lbs. milk and 1000 lbs. butterfat cow, and who was recently sold to the Bellewhack farm of California as a 12 year old for \$1000.

Toke De Kol Johanna Canary is living up to the reputation of her ancestors and with ordinary ranch care on the farm of Mr. Jacob, on twice a day milking, starting December 14, produced in 39 days 3004 lbs. of milk, or an average of 77 lbs. per day with a total butterfat production in 39 days of 191.7 lbs. Her 30 day record shows 2909 lbs. milk and 78.76 lbs. butterfat, which computed on the basis of butter—on which Holstein records are computed—would be 98.45 lbs. butter, an exceptionally high record. The milk from this cow was kept separate and sold to the Malin Cheese factory, bringing \$43.32 for the month. Cost of grain feed during this period was \$6.50, leaving \$37.82 to pay for her care and 1200 lbs. of alfalfa feed during the period.

Arrangements are being attempted at the present time to conduct an official test under the Holstein-Friesian Breeder's association, in order that this cow's record may become official.

Mr. Jacob has several other pure-bred Holsteins now coming fresh that will be put on official test, providing a test can be arranged and these also will no doubt make the register of merit or honor roll.

Clyde Bradley of Merrill has several very high producing cows that will be put on test if possible. One cow in particular, Glesche Walker Novena, has been milking better than 70 lbs of milk per day and during

October, 1924, produced 92.1 lbs. butterfat.

Inasmuch as higher production is now being stressed by local dairymen, realizing that a good cow will return far greater profits than a poor cow, it is hoped to create a few official records as an incentive to other dairymen to increase herd production and also provide a good outlet for the sale of the offspring from the high producing, officially tested cows.

## Trash burning Ordinance Here To Be Enforced

A warning to Klamath Falls residents that indiscriminate burning of trash, garbage or refuse would result in arrest and prosecution, was issued this morning by Dr. G. S. Newsom, medical director of the Klamath county health unit. An ordinance, which has long been in effect, but which has not been strictly enforced, is the law under which the health officer intends to enforce his edict.

Following are two excerpts from the ordinance showing what can and what cannot be done in the burning of trash and refuse:

**Ordinance No. 310, Section 1.**—From and after the passage of this ordinance, it shall be unlawful for any person, firm or corporation within the City of Klamath Falls, Oregon, to burn in any incinerator or other structure or device, other than a heating stove, cooking stove, fireplace or furnace in any building, any garbage, refuse, trash, dirt or other matter.

**Section 2.**—Any person convicted of the violation of any of the provisions of this ordinance shall be fined in a sum not less than \$10.00 nor more than \$50.00, or imprisoned in the city jail not less than five (5) nor more than twenty (20) days, or by both such fine and imprisonment in the discretion of the police judge.

**NEW YORK**—Chapney Dewey is so impressed by non-partisan tax legislation in congress that he suggests Coolidge and Smith for the same presidential ticket in 1928.

## Siskiyou Phone System Will Be Rebuilt in 1926

(Special to The Herald)  
YREKA, Calif., Jan. 28.—Yreka's entire telephone exchange will be reconstructed, work to begin in August, and a mile of reconstruction of the Sacramento-Portland toll line in Yreka is contemplated at a cost of \$10,000, according to Miss Cina Tyler, local manager for the Pacific States Telephone company.

The central office of the company has approved a gross estimate of \$10,000 for the interstate lead to comply with the request of the city board of trustees. The work will include the placing of 29 poles, 72 cross-arms, nine anchors, 7.51 loop miles of 104 and two loop

miles of 165 copper wire and 2100 feet of cable, sufficiently large to carry the circuits involved.

The present lead is to be diverted south of the county hospital and it will follow the contour east of town and over Hatcher hill, where the new route will pick up the present lead.

That 1926 will be a busy year for the company in Siskiyou is indicated by early spring activity in heavy toll line construction and the company plans a heavy payroll until late next fall.

### WELL KNOWN RANCHER

Ed H. Morton, well known rancher of the Lorella district, was brought to Klamath Falls yesterday suffering with a severe attack of la-grippe.

## Minister's Child Will Make Debut In Opera at N. Y.

**NEW YORK, Jan. 28.**—(AP)—Returning to the Broadway that knew her as a Polles girl before her European triumphs, Mary Lewis makes her debut today at the Metropolitan opera house, singing the role of Mimì in Puccini's La Bohème.

The former Little Rock, Ark., girl, who at the age of eight was spanked by her foster father, a Methodist minister, because she wouldn't practice on the piano, has returned to the scene of her first operatic aspirations.

Miss Lewis spent a season as a motion picture bathing beauty in California, where she had been stranded after running away from the parson-

age of her foster parents with a road show.

### WEDDING CAUSES SUITS

**NEW YORK, Jan. 28.**—(AP)—Marriage of George Brinton Caldwell, 43 year old banker and clubman, to Miss Marion Andrews, 35 year old school teacher, more than two years ago, already has caused him two breach of promise suits.

Fourteen months ago Zoe M. Evans, manicurist, filed suit in Boston for \$300,000, charging that Mr. Caldwell's marriage had violated his promise to marry her a few months before his engagement to Miss Andrews. This suit is yet to be tried.

Well, it's an awful world. In Guthrie, Okla., 55 are charged in a murder ring. This will make Chicago jealous.

## Now It's the White Canary

After thirty years the International Canary Breeders Association has developed a white canary. It is shown getting a taste of sugar from Miss June Hauger, who will send it to Mrs. Coolidge.

## Report Shows Irrigation In Better Shape

### Deschutes District Is Greatly Improved in Year

**SALEM, Ore., Jan. 28.**—(AP)—State Engineer Luper is today in receipt of Auditor Ross' report showing the condition of the central Oregon irrigation district in Deschutes county, as of January 1, this year, which shows a material improvement in the district's condition.

The district comprises an irrigable area of 45,497 acres, of which 29,813 acres were irrigated in 1925, an increase of 3,165 acres over the preceding year.

Mr. Ross estimates the gross value of farm produce at \$59 per acre,

or a total of \$1,700,000. The net indebtedness of the district is approximately \$4 per acre, and is being gradually reduced. The total tax levy for the year 1925, including a provision for the retirement of \$7,000 in district bonds, is 12.10 per irrigable acre, or a reduction of 49 cents per acre over the preceding year.

The district was organized November 9, 1917, by about 1200 land owners under the project and the irrigation works were taken over from the old central Oregon irrigation company in August, 1921.

The total bonded indebtedness of the district is \$180,000 as against an estimated farm value of \$3,380,380 not including improvements.

**NOTICE**—Helen and Suzanne have swapped colors. At a meeting of the Imperial club Miss Willis wore a tailor-made suit of lavender and blue, which has been the French girl's favorite hues. Miss Leighton was in dark green, such as the Californian displayed hitherto.

### HOLD FUNERAL SATURDAY

Announcement late this afternoon is to the effect that the funeral of Jackie Hershberger, infant son of Mr. and Mrs. Jack Hershberger, will be held on Saturday morning from the Whitlock funeral parlors, Rev. A. F. Simmons of the Baptist church will officiate.

### WOULD BUY WHEAT

**WASHINGTON, Jan. 28.**—(AP)—Government purchase of wheat at a price between \$1.50 and \$2 was advocated in the house today by Representative Little, democrat, Kansas, as a means of preventing speculative wheat buying.
